TYPE OF REPORT  
207 P.C., Kidnapping

Det. B. Stennett #1374

**Narrative:**

On October 31, 2017, at about 1112 hours, I was assigned as a Detective with the Riverside Police Department. I learned from Riverside Police Department Dispatch that a suspect had taken a teacher hostage at Castle View Elementary. At about 1150 hours, I arrived at the school located at 6201 Shaker Drive in the City and County of Riverside.

I was directed by Sgt. Wilson and Lt. Townsend to hold a perimeter spot between the cafeteria building and a chain-link fence near the south-east side of that building. I could see classroom A2 and A3 from my position. I learned the suspect (identified as S/Kennon, Luvelle) was with the victim (V/Montgomery, Linda) in classroom A1. I was later joined by K9 Officer Jeff Barney, Officer Brittany Reimer and Corona Police Department Officer Ambriz. I remained there until the incident was concluded.

I later responded to Riverside Community Hospital where S/Kennon had been transported. I learned S/Kennon had been declared deceased by the Hospital staff prior to my arrival. I met with Det. Greg Matthews who had collected clothing from the ambulance that transported S/Kennon. This included part of S/Kennon's hooded "Neff" jacket, a white shirt, white beanie and part of his jeans. The paper bag that held the jeans had the name "R. Hanes P34522 Paramedic" written on it for the paramedic who gathered the clothing. I learned Paramedic Hanes helped transport S/Kennon from the scene to Riverside Community Hospital.

While at the hospital, I collected additional clothing taken off of S/Kennon which includes shoes, black socks and part of S/Kennon's black jean pants, his belt and part of his hooded jacket. The hooded jacket was red, black and gold in color. I later learned the back pocket of his pants held S/Kennon's wallet with his California Driver's License, Social Security Card and other personal belongings.

Deputies from the Riverside County Coroner's Office responded to Riverside Community Hospital as well. I spoke Deputy Howarth who took custody of the decedent. She collected fingernail clipping from his right and left hand. She also took "gun-shot residue" samples from his right and left hands. I then took possession of these items. I later placed them into evidence with the clothing collected from the ambulance and the clothing collected at the hospital.

Deputy Howarth located S/Kennon's wallet containing his personal property in the pocket of his pants collected at the Hospital. She took possession of his wallet. She provided me with a Personal Property Inventory receipt for his wallet and its contents. She also provided me with a Property Report Receipt for the nail clippings and "gun-shot residue samples." I signed both forms and included them in my report.

I also stood by as an assisting Deputy Coroner met with the decedent's family and informed them S/Kennon was deceased. He spoke to a woman who identified herself as S/Kennon's mother as well as an adult male and a second adult female. I recorded this on my Department Issued PUMA Audio Recorder.

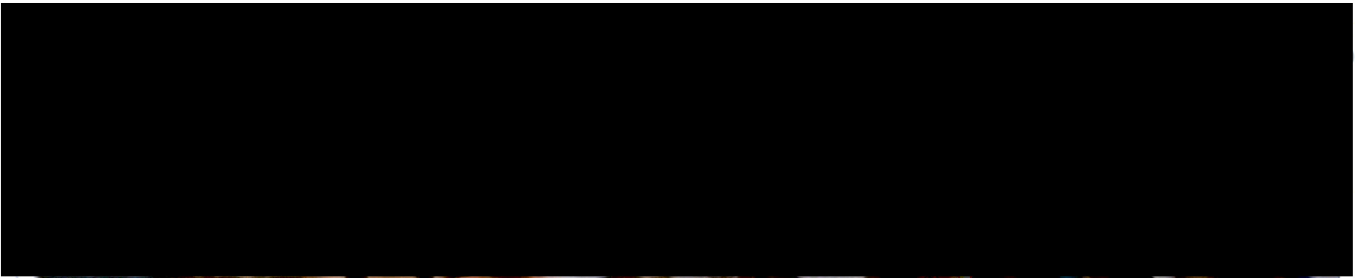

I conducted a search on Facebook and located S/Kennon's page. The suspect was identifiable from his profile picture. The intro to S/Kennon's page states, "Father/dad/ I'm the example of what a man should do for his daughter 100 til the casket drops."

The above is a screen shot of S/Kennon's Facebook post.

On November 1, 2017, at about 1510 hours, I called and spoke to Emanuel Vu who is a Tactical Medic for the Riverside Police Department Metro Team. Vu has been a Paramedic for American Medical Response (AMR) for approximately nine years. I recorded his statements on my Department Issued PUMA Audio Recorder. The following is a brief synopsis of our conversations.

I asked him if he was the first person to treat the S/Kennon. He told me yes. He told me he was in the Riverside Police Department Armored Rescue Vehicle (ARV) when the Officers made entry into the room. He was called up after shots were fired and entry was made into the main door the ARV was facing. He believes he made contact with S/Kennon "pretty quick" at around 1748 hours. He said S/Kennon was in the far back corner of the room and lying on his right side. Vu said he didn't appear to be breathing and he didn't see his chest rise or fall. He said S/Kennon had a "really faint pulse." Vu said he put him on his back and tried to open up his airway. Vu said he put in a nasopharyngeal airway in his right nostril. Vu then started "no more than eight" compressions on S/Kennon's chest. He said S/Kennon gasped for air and started breathing on his own. Vu said S/Kennon now had a pulse and was breathing on his own.

207 P.C., Kidnapping

Det. B. Stennett #1374

Vu said he started cutting off his clothes to find his injuries. He said he cut off S/Kennon's shirt and got part of his pants off. He said he saw a "supra-pubic" penetrating wound near the midline of his body. He said the wound wasn't bleeding profusely so he continued to look for injuries. He said the Fire Department and AMR unit 327 arrived and he transferred care to them. He later confirmed with me that Paramedic Hanes was one of the medical personnel who took over the care of S/Kennon.

Vu told me he helped other medical personnel carry the patient onto the gurney and continued to cut his clothes off. He said the civilian AMR medic put a tourniquet on S/Kennon's leg. He said they were transporting by 1756 hours. He said it was "pretty fast" response. Vu said S/Kennon, "got pretty much all the definitive care we could do on scene on the way to the hospital." Vu did not transport with S/Kennon.

Vu told me Eddie Cardenas, the other Tactical Medic was with the victim (V/Montgomery, Linda). He did not believe she received treatment. He said Cardenas did transfer her care to the responding AMR medical personnel who then took her to the hospital.

On November 1, 2017, I asked Eddie Cardenas if I could interview him about the incident. Cardenas is a Tactical Medic for Riverside Police Department. He has been a Paramedic for AMR for almost three years and was an Emergency Medical Technician for approximately three years before that. He agreed to speak to me. I called him at around 1605 hours and recorded the interview on my Department Issued PUMA Audio Recorder. The following is a brief synopsis of our conversation.

He said he was in room A6 with Metro/SWAT Officers. He said the Officers were able to breach an accordion style partition or door between A6 and the room where the hostage (Montgomery, Linda) was. He said the Officers were able to get V/Montgomery and pull her through the door. They then passed her to him. He said once he was given the O.K., he left the room with her. He said he then brought her to an ambulance that had been staging nearby.

He said physically she was very shaken up. He asked if she was injured and she said she was not. He said she was really scared and was grabbing onto him as they walked. He said she was saying things like, "Don't let go. Get me out of here get me out of here, am I safe?" He told her that he was going to take her to ambulance and get her away. He then got her to the ambulance and onto a gurney. He said she didn't have a physical injury that required any medical care. He said she needed reassurance that she was safe.

He said the ambulance left as soon as they had her inside. He said it was about 30 seconds to walk her out to the ambulance.

He said he returned to the classroom. He said S/Kennon was already on the gurney and had a tourniquet on his leg. He helped the other emergency personnel wheel him to the ambulance.

I asked him how long it was from the time the Officers entered the classroom after the breach until they passed V/Montgomery to him. He said it was about 30 seconds. He said it was "pretty quick." He said he didn't have a direct line of sight to the suspect or the hostage and couldn't see what happened inside the classroom. He walked V/Montgomery outside after she was pulled through the door.

He said she was very shaken up and very upset. She kept saying she wasn't making any noise because he was very adamant that he was going to hurt her if she said anything or made any noise in response to the demands made over the "throw phone." He said she was very paranoid. He said Officer Elliott came over

once she was outside. She asked, "Who are you?" He said Officer Elliott reassured her that she was with the Police Department.

He told me he saw S/Kennon had a wound in the pubic bone area and to his left femur.

He did not see any injuries on V/Montgomery. He said he did a quick visual check and felt around her head for injury. She told him she was not injured.

I then concluded the interview.

On November 2, 2017, at about 0945 hours, I called and spoke to "Officer Elliot" (Detective James Elliott) who recently reached the rank of Detective. He told me he did help V/Montgomery walk to the ambulance. He said she could barely walk, appeared to be very scared and was "dry heaving." He said he identified himself to her as law enforcement. He said she clung to his uniform as he walked with her. He also told me she wanted to put the Officers between her and the classroom.

I conducted a search for a Snapchat and Instagram account for S/Kennon and was unable to locate one.
