------------------	--	---

It should be noted that Deputy Coroner N. Rissi (N4491) collected nail clippings and Gunshot Residue (GSR) from the hands of S-1 Hayes while out at the crime scene on 12-31-2013. Dr. McCormick noted two exit wounds to the back of S-1 Hayes. The exit wound to the lower middle back appeared to of been from a projectile fragment. The exit wound located midline between the shoulder blades appears to be from an intact projectile. The exit wound located behind the left ear appears to be a fragment from a projectile.

GSW1- Left lower chest area, front to back, straight line path, fragments were located along the projectile path. (Projectile traveled through the rib cage, diaphragm, liver, lower esophagus, spleen, back through the diaphragm, left lung and exited the back)

GSW2- Left upper chest area, front to back, straight line path. (Projectile traveled through the rib cage, left lung, and exited the back).

GSW3- Left mastoid temporal area of the head, front to back, straight line path. (Projectile fragments exited behind the ear. The projectile fractured the skull but didn't penetrate).
