GOING SOLAR IN RIVERSIDE JUST GOT *EASIER*

In accordance with California's new Expedited Solar Permitting Act, the City of Riverside has simplified its solar permitting and approval process, making it easier and faster than ever. Here's the new review and approval process:

1

INTERCONNECTION REVIEW

What to do first: Complete & submit Interconnection Agreement at GreenRiverside.com
Where to go: Riverside Public Utilities (RPU) | 3750 University Ave., 3rd Floor
What to bring: Completed RPU Photovoltaic (PV) Plan Review Checklist
What to get: Approval for your RPU Solar Plan

2

BUILDING & SAFETY PLAN CHECK & PERMITTING PROCESS

Where to go: City Hall, Building & Safety Dept. | 3900 Main St., 3rd Floor
What to bring: Approved RPU Solar Plan & Building & Safety PV Checklist
What to get: Building & Safety plan check approval and permit
NOTE: Separate permit required for service upgrades

3

BUILDING & SAFETY INSPECTION

Where to go: City Hall, Building & Safety Dept. | 3900 Main St., 3rd Floor
What to do: Schedule and obtain Building & Safety final inspection approval

4

BUILDING & SAFETY FINAL APPROVAL + RPU INTERCONNECTION

What to expect: Building & Safety gives your system its final approval, notifies RPU
RPU schedules your performance and NET meter installation
Once your system receives meters, you'll receive OK to energize
