

MODS FOR

MINECRAFT

LEARN TO MOD MINECRAFT FOR BEGINNERS

LearnToMod is designed to teach a huge range of coding concepts. We start with the very basics (loops, functions, and conditionals); then we guide you gently into advanced concepts like refactoring, event-driven programming, object-oriented programming, and best practices in software engineering. All the while, you are learning how to mod Minecraft, making it incredibly fun.

All Participants must have an email address and be able to access it.

February 26

At the Eastside Library from
3:45 pm to 5:45 PM

Ages 7 up
