

Airport

June 22, 2009

Dear Valued Airport Tenant,

Last year, I suspended CPI adjustments for twelve months. It was my hope that the economy would recover within that time frame. Unfortunately, it has not. I recently went before the City Council to request another twelve month suspension of the CPI adjustment. This request was approved on June 16th, 2009. So effective August 1, 2009, CPI adjustments will be suspended another twelve months.

We hope that in a small way this helps all tenants on the airport get through these tough economic times. Thank you for your dedication during these stressful times. I look forward to positive growth in the future for the Riverside Airport.

Sincerely,

Mark S. Ripley
Airport Director
