Graffiti Facts For Your Business

Dear Business Owner/Manager,

Below are important ways you can help prevent the spread and effects of graffiti on our community:

- **GRAFFITI SUPPLIES (PAINT)/ACID ETCHING SOLUTIONS:**

Riverside's Municipal Code states, "Retail commercial establishments or other vendors shall, pending legal sale, display aerosol paint containers, paint/graffiti sticks, acid etching solutions, and broad-tipped felt markers for sale, only in areas viewable by, but not accessible to the public." Please remind your employees to lock-up these products, after a lawful sale, before you are "tagged" with a fine.

- **GRAFFITI ETCHINGS ON WINDOWS:**

City code does not allow for etching or graffiti markings to remain on store-front glass. Please replace damaged glass immediately. You may contact the Redevelopment Agency at (951) 826-2430, for possible assistance.

- **GRAFFITI HOTLINE (951) 826-5311:**

If you see graffiti, please contact the Graffiti Hotline. If you witness "tagging" in-progress, please contact the Riverside Police Department at (951) 787-7911.

Please pass this information along to your employees. Additional cards are available for your employees by contacting us below.

This is a courtesy reminder. For more information or assistance, please contact the Code Enforcement Division at:

(951) 826-5633
