PHYSICAL EVIDENCE EXAMINATION REPORT

SUSPECT: BRANDON DUNBAR

OFFENSE: OFFICER INVOLVED SHOOTING (OIS)

OFFICER: SANCHO LOPEZ

OFFENSE DATE: 03/01/2012

I, the undersigned, declare under penalty of perjury: (1) I am employed by the State of California, Department of Justice (DOJ), Bureau of Forensic Services; (2) I conducted an examination of the material described below in the ordinary course of my work as a qualified examiner, according to approved laboratory procedures that include creation of contemporaneous documentation and the technical review of my work; (3) The observable data is set forth in the associated laboratory case record; (4) Any opinions, interpretations, or conclusions in this report are based upon data in the associated laboratory case record and findings listed below.
Note: This laboratory report has been prepared and retained by DOJ in the normal course of business according to DOJ's regular practices and procedures. The Department of Justice Laboratory is accredited by the American Society of Crime Laboratory Directors / Laboratory Accreditation Board (ASCLD/LAB).

SUMMARY/RESULTS

The submitted expended evidence cartridge cases (Items CF-01 to CF-04, and CF-11) were fired from the submitted pistol, Item SL01. The submitted expended evidence bullets could have been fired from the submitted pistol, or from any firearm(s) that produces similar class characteristics.

EVIDENCE

The following evidence was submitted to the Laboratory by McKay-Davis of the Riverside Police Department on 03/06/2012:

<u>Item</u>	<u>Description</u>
SL01	Glock Model 22, .40 S&W caliber semiautomatic pistol, S/N [REDACTED]
SL01B	One empty magazine and ten rounds of Winchester brand .40 S&W caliber ammunition
CF-15	One damaged expended bullet
CF-18	One damaged expended bullet
CF-19	One damaged expended bullet
CF-20	One damaged expended bullet

The following evidence was submitted to the Laboratory by Anzelde of the Riverside Police Department on 03/08/2012:

<u>Item</u>	<u>Description</u>
SL01A	Listed as one Winchester 40 S&W cartridge
CF-01	One expended .40 S&W caliber cartridge case
CF-02	One expended .40 S&W caliber cartridge case
CF-03	One expended .40 S&W caliber cartridge case
CF-04	One expended .40 S&W caliber cartridge case
CF-11	One expended .40 S&W caliber cartridge case

EXAMINATION

Items SL01 and SL01B were previously examined (see RI-12-002007-0001).

The submitted evidence bullets (Items CF-15, CF-18, CF-19, and CF-20) are damaged and were fired from a barrel with polygonal rifling such as the one found on Item SL01 and other Glock pistols. Items CF-15 and CF-20 are consistent with nominal .40/10mm caliber based on their weights and measured diameters. The weights of the bullets are: 168.4 grains (Item CF-15), 163.1 grains (Item CF-18), 176.2 grains (Item CF-19), and 156.3 grains (Item CF-20). The bullets were microscopically intercompared and compared to the test fired bullets from the Glock pistol, Item SL01. Based on similar class characteristics, the evidence bullets could have been fired from the Glock pistol, or from another firearm(s) that produces similar class characteristics. A more definitive determination could not be made due to a lack of sufficient matching individual characteristics on the test fired bullets and the evidence bullets and due to the damage to the evidence bullets.

The submitted evidence cartridge cases (Items CF-01, CF-02, CF-03, CF-04, and CF-11) are .40 S&W caliber and were manufactured or marketed by Winchester. The evidence cartridge cases were microscopically compared to the test fired cartridge cases from the Glock pistol, Item SL01. Based on sufficient agreement of the breech face marks, the evidence cartridge case were fired from the Glock pistol, Item SL01.

Item SL01A was not examined.

DISPOSITION

Items SL01 and SL01B were picked up by Anzelde on 03/08/2012. The remaining evidence will be held pending release to the appropriate agency. The test fires, Item TF-SL01, will be stored at the Laboratory for a period of five years, after which they will be returned to the appropriate agency.
