GFOA BUDGET AWARD

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the City of Riverside, California, for its Annual Budget for the fiscal year beginning July 1, 2014.

In order to receive this award, a government unit must publish a budget document that meets program

criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

This award is valid for a period of one year only. The City of Riverside is confident that the City's fiscal year 2015/16 Annual Budget document continues to conform to program requirements. Accordingly, this budget document has been submitted to GFOA.

CITY MANAGER'S BUDGET MESSAGE

CITY MANAGER'S BUDGET MESSAGE

Office of the
City Manager

May 20, 2015

Honorable Mayor and City Council Members
City of Riverside
3900 Main Street
Riverside, CA 92522

Fiscal Year 2015/16 Budget Hearing

Honorable Mayor and City Council Members:

I am pleased to submit the proposed fiscal year 2015/16 budget for your consideration and for additional public comments during the June 9th public hearing.

This budget proposes a continued but cautious expansion of services, reflecting the City's sustained economic growth over the past few years. However, cost increases related to pensions, labor agreements, and debt service obligations continue to limit the City's ability to allocate significant funding to new programs and initiatives. Available revenues beyond those needed to address these commitments have been directed to the City Council's priorities, including the Community Livability Program, the Grow Riverside Conference, library materials, the Riverside School for the Arts, and the Metropolitan Museum.

Key indicators of the City's stability include a General Fund bond rating that has been affirmed in the last year with a stable outlook and maintenance of a General Fund reserve in compliance with the City's policy level of 15% of General Fund expenditures. It should be noted that the City Council is being presented with a General Fund budget that projects a surplus of \$1.0 million, with the surplus funds to be added to the reserve in order to grow the balance and continue to meet the 15% target. Riverside continues to be uniquely and positively positioned financially as a direct result of the City Council's conservative fiscal management. This conservative financial footing has set the stage for the initial implementation of the City Council's strategic plan in the year ahead.

Fiscal Year 2014/15 Year in Review

General Fund Revenues

The adopted fiscal year 2014/15 budget forecasted revenues for the General Fund totaling \$240.1 million. For the reasons outlined below, the year-end forecast of General Fund revenue is \$246.1 million.

Five Year General Fund Revenue Trend

The increase in General Fund revenues can be attributed primarily to the following variances:

1. As a result of an accounting adjustment related to the Riverside Convention Center management contract (see **Appropriations from Reserves** section below), Charges for Services revenue has been increased by \$4 million, which is fully offset by related expenditures.
2. Sales tax revenues are estimated to be \$2.0 million higher than budgeted for the current fiscal year due to positive results versus the original forecast. In addition, \$0.8 million of prior year sales tax revenues in excess of the year-end estimated accrual were carried forward into the current fiscal year.
3. These and other minor increases are partially offset by minor decreases in other revenue categories as well as the two following material negative variances:
 - a. Fines and Forfeits revenues are estimated to be \$1.7 million lower than budgeted for the current fiscal year primarily due to elimination of the photo enforcement program, which is partially offset by a related reduction in expenditures.

CITY MANAGER'S BUDGET MESSAGE

Page 3 of 17

- b. One-time revenues are estimated to be \$0.8 million below budget due to a lower amount of one-time revenues being generated.

	2014/15 Adopted	2014/15 Projected	Budget Variance
Sales & Use Taxes	\$ 57,455,000	\$ 59,430,000	\$ 1,975,000
Property Taxes	50,736,173	50,799,483	63,310

One-Time Revenues	3,000,000	2,206,000	(794,000)
Total	\$ 240,056,800	\$ 245,336,820	\$ 5,280,020
Prior Year Carry-Forward	-	764,510	764,510
Adjusted Total	\$ 240,056,800	\$ 246,101,330	\$ 6,044,530

Note: Prior year carry-forward reflects \$0.8 million of sales tax revenues in excess of the year-end estimated accrual.

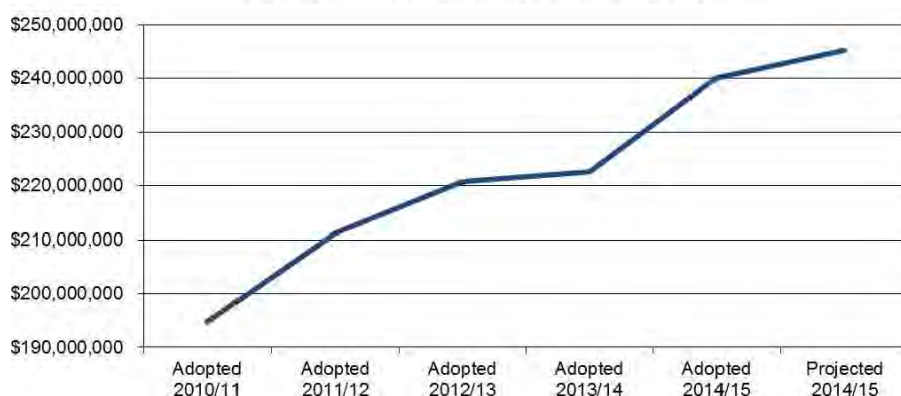

General Fund Expenditures

The adopted fiscal year 2014/15 budget appropriated expenditures for the General Fund totaling \$240.1 million. For the reasons outlined below, staff is forecasting General Fund expenditures to be \$247.1 million, an increase of \$7.0 million, or 2.9%. This includes the total of previously approved and currently requested supplemental appropriations from the General Fund reserve of approximately \$5.1 million.

CITY MANAGER'S BUDGET MESSAGE

Page 4 of 17

Five Year General Fund Expenditure Trend

Staff conducts a variance analysis on a department by department basis throughout the year. Forecasted General Fund expenditures are projected to be \$1,932,000 above the adopted budget. This net over budget amount represents only 0.8% of the adopted budget. Staff continues to conduct and refine a detailed analysis of each department's annual over or under budget status. Included in the 2015/16 budget recommended for adoption are budget adjustments to increase department budgets to minimize future budget variances.

	2014/15 Adopted	2014/15 Projected	Budget Variance
Department Budgets	\$ 228,079,225	\$ 230,011,225	\$ 1,932,000
Net Cost Allocation	(18,103,303)	(18,103,303)	-
Net Debt Allocation	30,080,878	30,080,878	-
Total	\$240,056,800	\$241,988,800	\$ 1,932,000

Note: Table excludes mid-year appropriations from reserves of \$5.1 million.

Appropriations from Reserves

Subsequent to adoption of the fiscal year 2014/15 General Fund budget, the City Council has appropriated funds from the General Fund reserve for various mid-year funding requirements. In total, the mid-year appropriations amount to \$5.1 million to date. The following table summarizes these mid-year appropriations from the General Fund Reserve:

CITY MANAGER'S BUDGET MESSAGE

Page 5 of 17

Item	City Council Approval Date	Amount
La Sierra Ballot Initiative Election	July 8, 2014	\$ 75,000
Grow Riverside Conference	October 21, 2014	35,000
Community Livability Program	October 28, 2014	792,186
Long Night of Arts & Innovation	January 27, 2015	25,000
Convention Center Mgmt. Contract	February 10, 2015	4,000,000
Riverside School for the Arts	February 10, 2015	50,000
Library Materials	February 10, 2015	50,000
Assistance to Firefighters Grant Match	May 12, 2015	87,435
Total		\$ 5,114,621

It should be noted that an accounting adjustment related to the incorporation of the Riverside Convention Center into the General Fund budget has resulted in an increase in both revenue and expenditures in the budget of \$4.0 million as reported at mid-year. This adjustment was required because the new management contract for the Convention Center, necessitated by the financing of the Center's renovation and expansion using tax-exempt bonds, places the risk associated with the profitability of the Center on the General Fund rather than the operator. Accounting standards require the resulting change in presentation in the City's budget and financial statements. When adjusting for this item, mid-year appropriations from reserves total \$1.1 million.

General Fund Reserve Outlook

Should the revenue and expenditure forecast outlined above come to pass as projected in the March 31, 2015, Monthly Financial Report, the General Fund reserve balance would decrease by \$1.0 million to approximately \$37.4 million as of the close of fiscal year 2014/15. However, based on past trends staff remains optimistic that revenues will continue to improve and that departments will continue to identify opportunities to reduce expenditures whenever possible. Any increase in revenues or reduction in expenditures will lessen the projected decrease in the reserve balance as the books are closed for fiscal year 2014/15 in July and August. Staff will return to the City Council once the audit is complete and the final fiscal year 2014/15 operating results are known to provide an update on the reserve balance.

Proposed Fiscal Year 2015/16 Budget

The City's overall proposed budget for fiscal year 2015/16 is \$983,038,637 with General Fund expenditures totaling \$256,593,718. This balanced budget will maintain the General Fund reserve at the City's policy level of 15% of operating expenditures, which:

CITY MANAGER'S BUDGET MESSAGE

Page 6 of 17

- Preserves the City's strong credit rating (generating additional savings through reduced financing costs); and
- Positions the City to address economic opportunities that may arise as the regional economy moves in a positive direction.

Revenue Trends

Revenues supporting non-General Fund functions remain strong and will support operations, capital improvements, and related costs in these areas. The following table details these revenue sources:

	2014/15 Budgeted	2015/16 Estimated	Change
Charges for Services	\$ 508,026,466	\$ 520,634,596	\$ 12,608,130
Intergovernmental	24,284,996	34,128,302	9,843,306
Taxes	24,921,274	24,345,529	(575,745)
Other (Primarily Interest)	18,722,995	17,340,243	(1,382,752)
Special Assessments	7,935,098	5,685,532	(2,249,566)
Fines and Forfeits	3,905,516	3,900,000	(5,516)
Licenses and Permits	2,775,986	2,946,704	170,718
Charges to Departments	13,522,903	13,718,196	195,293
Bond Proceeds	48,104,500	84,435,500	36,331,000
Total	\$652,199,734	\$707,134,602	\$54,934,868

Charges for services revenue is the predominant indicator of the economic health of the City's non-General Fund functions, which primarily include its Electric, Water, Sewer, and Refuse enterprise funds. Across all funds, charges for services revenues are anticipated to increase by \$12.6 million or 2.5%. The other material variances in non-General Fund revenues are the result of the following issues:

1. The increase in intergovernmental revenues is the result of increased grants budgeted in the fiscal year 2015/16 budget. Because many grants provide multi-year funding for large projects, these revenues are of a cyclical nature.
2. The decrease in special assessment revenues is primarily attributable to the recent maturity of bonds associated with three of the City's community facilities districts. As a result, property taxes will be decreasing for property owners in certain portions of the Orangecrest and Sycamore Highlands areas of the City.
3. The increase in bond proceeds is routine and reflects the cyclical nature of the City's capital improvement program.

General Fund Revenue Trends

General Fund revenues, which support many of the City's basic operations and services, are comprised primarily of property and sales tax receipts. General Fund revenues are estimated to total \$257.6 million, a 4.7% increase from the projected fiscal year 2014/15 budget.

	2014/15 Projected	2015/16 Requested	Change

In preparing the City's annual budget, significant attention is always focused on General Fund revenue trends, to ensure that funding levels are projected at sustainable levels. As shown below, the City's General Fund revenue trends have followed the recent upward trend in the economy:

Five Year General Fund Revenue Trend

CITY MANAGER'S BUDGET MESSAGE

Page 8 of 17

As is noted in the table above, recurring General Fund revenues are forecasted to grow by \$11.5 million versus the current year, or 4.7%. This increase is primarily attributable to the following issues:

1. Sales tax revenue has rebounded strongly and is anticipated to remain strong in the coming fiscal year, with growth of approximately \$3.5 million, an increase of 5.9%. Included within this number is \$500,000 of projected sales tax revenue associated with the expansion of Riverside Community Hospital. Pursuant to the tax sharing agreement previously approved by the City Council, these revenues will flow back to the hospital when received.
2. Property tax revenues are experiencing significant growth for the second consecutive year, with preliminary information received from the County of Riverside indicating that assessed values will grow strongly in the upcoming fiscal year, resulting in a projected increase in property tax revenue of approximately \$2.9 million or 5.8%.
3. Charges for services revenues are projected to grow by approximately \$1.3 million or 6.1%. This increase is primarily being driven by projected growth in Convention Center revenues as well as continued increases in development activity.
4. Licenses & permits revenues are projected to grow by approximately \$0.6 million or 7.5%. This increase is primarily due to continued increases in building permit and related development activity as well as growth in business tax receipts.
5. Transient occupancy tax revenues are forecasted to grow by \$0.6 million or 12.5%. This increase is due to continued growth in hotel activity due to the improved economy, the newly renovated and expanded Riverside Convention Center, and the work of the Riverside Convention and Visitors Bureau and the Riverside Sports Commission.
6. Property transfer tax revenues are anticipated to grow by \$0.4 million or 20.0%. This increase is anticipated due to increased real estate transaction activity seen over the past year, which is anticipated to continue.

These six items account for the majority of anticipated revenue growth and are partially offset by slightly lower levels of revenue in several other categories. The material reductions are as follows:

CITY MANAGER'S BUDGET MESSAGE

Page 9 of 17

1. Other revenues are decreasing by \$0.6 million or 9.9% due to the end of a three year series of settlement payments from Riverside County related to litigation regarding property tax administration fees.
2. Fines and forfeits revenues are decreasing by \$0.9 million or 26.8% primarily due to the elimination of the photo enforcement program. This decrease is partially offset by a related reduction in expenditures.

Additionally, last fiscal year's revenue budget included \$0.8 million of revenue carried forward from the prior fiscal year, which related to higher than anticipated sales tax collections in the 4th quarter of the prior year. As a matter of routine, these receipts are estimated but not received until the budget has been adopted. Variances are typically immaterial, but the continued improvement of the economy has resulted in a variance more sizable than is usually experienced.

User Fee Study and Related Revenues

Included within the proposed General Fund budget is \$2.3 million of additional revenues related to proposed increases to the City's user fees. These fees were last updated over four years ago in early 2011. As a result, the fees have not kept pace with the increasing costs associated with providing fee-supported services. The General Fund has filled the gap with general purpose tax revenues, meaning that the City's residents are supporting development activity rather than developers paying for the cost of the services provided. Absent an increase in fees, the cost recovery levels will continue to decline.

Staff proposes that the date of the public hearing for approval of the user fee study be set on June 23rd when the final budget is scheduled to be adopted. The hearing would be set for the July 28th City Council meeting. The fee study is now nearly complete, but this additional time will allow for the proper vetting of the proposed fee increases by the City Council, the Finance Committee, the Greater Riverside Chambers of Commerce, and other community groups. Accordingly, the revenue included in the budget reflects nine months of fee revenue for development fees, recognizing the requirement under state law for a 60 day period after adoption before fees go into effect. Other fees are included in the budget with eleven months of revenue assumed.

While improving cost recovery and lowering the general fund support for fee-supported program is one aspect of the desire to increase user fees, another is the recognized need for improving the City's development processes and increasing related staffing. To that end, the budget proposes the addition of 15 funded positions in the Community and

CITY MANAGER'S BUDGET MESSAGE

Page 10 of 17

Economic Development Department. These positions include additional resources in the Building and Safety (5 positions) and Planning (10 positions) Divisions. These new positions will be allocated to fast tracking planning and permit approvals. Additionally, a Plan Check Engineer will be added in the Public Works Department to complement and support the additions in the Community and Economic Development Department.

Expenditure Trends

Public Utilities and Public Works represent the majority of total City spending, which reflects the nature of these enterprise/capital oriented functions. Annual funding levels are largely driven by capital projects and external resources associated with such undertakings. Projected expenditures in the Public Works and Public Utilities Departments will be increasing primarily as a result of an increase in budgeted capital projects in fiscal year 2015/16. The decrease in the Finance Department budget is the result of the previously discussed maturity of community facilities district bonds. Non-General Fund expenditures by Department are categorized in the table below:

	2014/15 Budgeted	2015/16 Requested	Change
Public Utilities	\$ 492,709,414	\$ 498,296,844	\$ 5,587,430
Public Works	111,567,886	158,605,605	47,037,719
Community Dev.	32,096,338	31,505,174	(591,164)
Finance	14,593,188	11,513,175	(3,080,013)
General Services	13,402,204	13,999,346	597,142
Parks, Rec., and CS	6,284,180	6,548,516	264,336
Human Resources	5,890,339	5,976,259	85,920
Total	\$ 676,543,549	\$ 726,444,919	\$ 49,901,370

General Fund Expenditure Trends

The General Fund is the portion of the Budget through which the City Council directs resources to provide most basic governmental services, particularly in the public safety arena. Given the significance of this portion of next year's spending plan, the following section will provide detailed information regarding proposed General Fund spending.

CITY MANAGER'S BUDGET MESSAGE

Page 11 of 17

Growth in the General Fund budget is largely tied to the overall health of the regional economy. The economic downturn that began in fiscal year 2007/08 has fully reversed and the City's General Fund revenues are now several years beyond the peak seen at that time. The City Council's prudent fiscal policies during the economic downturn, which continue today, combined with the City's operational successes, allowed Riverside to emerge from the economic downturn well positioned to begin to restore service levels for key City Council priorities. Over the past two years, this process started, though other spending pressures have prevented a full return to pre-recession service levels in many cases.

While staff are hopeful that continued revenue growth in the coming year will allow services to be augmented in the future, there are a number of issues that must be addressed with any additional revenue reasonably anticipated in the upcoming fiscal year.

1. New debt service costs associated with the Fox Entertainment Plaza, several capital leases approved last fiscal year, and absorbing a portion of the Riverside Renaissance Debt Service formerly paid with park impact fees amount to approximately \$2.9 million.
2. Pension costs associated with all employees have increased by approximately \$2.5 million as a result of increased rates assessed by CalPERS. Fortunately, continued turnover into pension tiers 2 and 3 will result in approximately \$0.6 million of savings to partially offset the increased pension costs.
3. The City Council has in the past two years approved memoranda of understanding with the RCFA, RFMG, RPAA, and SEIU General Unit, with comparable increases to SEIU provided to management and

CITY MANAGER'S BUDGET MESSAGE

Page 12 of 17

confidential employees. The total impact of these increases on the General Fund is approximately \$2.3 million.

Following the necessary funding of these increased costs, new financial resources are extremely limited. To the extent possible, departments have crafted next year's budget to direct additional resources to support the City Council's key priorities as outlined in the recently adopted strategic plan:

- Enhanced Customer Service
- Economic Development
- Community Services
- City Transportation
- Improve Housing Diversity & Options
- Improve Teamwork & Communication
- Reduce Taxpayer Liability & Costs

Specifically, additional resources were allocated to critical needs such as:

1. \$234,000 was allocated to the Police Department for two additional Police Officer positions, as required as COPS grant funding ends. Five additional positions were already funded in previous years to address this requirement.
2. Additional resources were allocated to the Fire Department to correct a structural issue related to overtime and leave pay-out expenditures at a cost of \$668,000. Additionally, a new procedure has been developed related to the budgeting of mutual aid revenue and expenditures. This will ensure that when mutual aid costs are higher than anticipated in the adopted budget then additional resources will be appropriated to the Fire Department mid-year from mutual aid revenues in order to offset related over budget amounts.
3. \$150,000 was provided to the Community and Economic Development Department to fund the Grow Riverside Conference from the base budget rather than mid-year appropriations.
4. Increased funding in the amount of \$50,000 was provided to the Riverside Public Library for the purchase of additional library materials.
5. An additional \$200,000 was allocated to the Riverside Convention and Visitors Bureau and the Riverside Sports Commission to augment efforts to attract visitors to Riverside.

6. Museum and Cultural Affairs Department funding was increased by \$650,000 in order to add staff and programming required to maintain accreditation of the Riverside Metropolitan Museum.
7. The Public Works Department was provided with additional staffing resources to maintain landscaping improvements, address street maintenance issues, and maintain traffic signals at a cost of \$541,000.
8. The Parks, Recreation, and Community Services Department was provided with \$465,000 of additional funding to address several key programs, including additional resources for the Riverside School for the Arts, tree watering at the former Riverside Golf Club site, and enhanced aquatics programs.
9. The City Clerk's office was provided with \$158,000 to add a full-time position and purchase software to manage the City's increasing level of California Public Records Act requests.
10. As outlined in the preceding section, a total of 16 additional positions were funded in the Community and Economic Development and Public Works Departments to enhance the City's planning and permitting services. Of these, 11 were funded from anticipated user fee study revenues at an annualized cost of \$1.1 million, with the remaining 5 positions funded through a reallocation of existing resources.

Funding was not included in the proposed fiscal year 2015/16 General Fund budget for the Public Safety Vehicle Replacement Program. There are insufficient resources available to address this or many other critical needs presented by Departments, and difficult choices had to be made to balance the budget. Every effort will be made to include funding for this critical program in the base budget for fiscal year 2016/17.

For the last several years, the City has deferred the principal payments due on two interfund loan obligations of the Local Park Impact Fees Fund in order to allow that Fund to make a payment on the Riverside Renaissance Certificates of Participation totaling \$2.3 million. The Fund is obligated to pay approximately 40% of the debt service on the Certificates of Participation, however reduced impact fee revenues have required the General Fund to step in to make these payments. The deferral of the principal payments has prevented a like amount of additional cuts to the General Fund budget in recent years.

This year, staff is recommending that principal payments begin on one of the two loans, though impact fee revenues remain too low for the park

CITY MANAGER'S BUDGET MESSAGE

Page 14 of 17

fees to also cover the Local Park Impact Fees Fund's obligation to the General Fund. As a result, the contribution to the General Fund from the park fees is being reduced by a like amount. Interest on the second interfund loan will continue to be paid, and it is anticipated that it will begin to amortize again in fiscal year 2016/17. In the event that park impact fee revenues continue to remain at their current level, an additional increase in support from the General Fund to service the Riverside Renaissance Certificates of Participation will be necessary in fiscal year 2016/17 in order to begin amortizing the second loan. Once the interfund loans have been paid in full in five years, the contributions to the General Fund would be increased. This will place additional stress on the General Fund in the short term, but beginning the amortization of these loans will be beneficial to the City's fiscal integrity in the long term.

The following table summarizes the proposed General Fund budget by department, including the items detailed above, resulting in a total City General Fund budget for fiscal year 2015/16 of \$256,593,718:

In addition to the cost increases outlined previously, larger variances in individual department budgets can be attributed to the following items:

CITY MANAGER'S BUDGET MESSAGE

Page 15 of 17

1. The increase in the Non-Departmental budget of \$3.7 million is primarily attributable to the inclusion of the Convention Center management contract in the budget.
2. The increase in the Fire Department budget of \$3.1 million is primarily attributable to MOU increases, CalPERS rate increases, and providing additional resources to address overtime and leave pay-out costs in a manner that conforms more closely to the reality of the past several years.
3. The increase in the Community and Economic Development Department budget of \$2.2 million is the result of the addition of positions to enhance planning and building service delivery as well as the transfer of the Economic Development Division from the Office of the City Manager.
4. The decrease in the General Services Department budget of \$0.5 million is the result of the transfer of the Broadcasting Division to the Office of the City Manager.

General Fund Reserve Outlook

The fiscal year 2015/16 General Fund budget as currently proposed is balanced with revenue providing sufficient resources to cover all budgeted expenditures. Staff will continue to focus on opportunities to conserve resources whenever possible and to look for new revenue sources throughout the year. At the mid-year report in February 2016, we will have a clearer indication regarding the state of the local and national economy and whether there are any increases in revenue beyond our conservative projections.

Fortunately, our employees worked with us throughout the economic downturn to control costs and have continued in partnership in the years following the recession. The SEIU General and Refuse Units, IBEW, RCFA, RFMG, and RPAA have all reached agreements with the City for multi-year contracts that reflect reasonable increases in compensation and benefits, while acknowledging the significantly higher pension contributions that the City will be making over the upcoming years. Following the signing of the SEIU General Unit contract, a similar package was provided to management and confidential employees. Negotiations are ongoing with the RPOA, whose contract expired in December. Management anticipates working collaboratively with the RPOA to identify opportunities to provide financial and other recognition to their members, while minimizing additional increases to the City's compensation and benefits costs as we work to absorb higher pension costs, begin to restore various programs to their pre-recession scope and funding, and maintain fiscal conservatism.

CITY MANAGER'S BUDGET MESSAGE

Page 16 of 17

The following table summarizes the anticipated General Fund reserve balance as of the March 31, 2015, Monthly Financial Report, recognizing that additional revenues may well yet materialize this fiscal year or next. Absent no additional revenues, the following numbers are indicative of the trend in the reserve balance:

Fiscal Year	Reserve Balance
2010/11 Actual	40,368,872
2011/12 Actual	40,014,760
2012/13 Actual	39,463,120
2013/14 Actual	38,438,826
2014/15 Projected	37,436,735
2015/16 Projected	38,436,735

It should be noted that the projected balance for fiscal year 2015/16 is \$1.0 million higher than the projected balance for fiscal year 2014/15. This increase is the result of the proposed budget, which contemplates generating a surplus of \$1.0 million to maintain the General Fund reserve balance at the City Council's policy level of 15% of the operating expenditure budget. Staff is in the process of reviewing the City's reserve policy and those of comparable cities in California and throughout the United States. Staff will return to the City Council later in fiscal year 2015/16 with a formal recommendation for a written reserve policy that will incorporate best practices and make recommendations that reflect the unique aspects of Riverside's financial situation.

Regional, State, and Federal Considerations

Riverside's unemployment rate continues to decline year-over-year, following a trend seen both regionally and nationally. The City's March 2015 unemployment rate was 6.6%, which reflects a continued healthy decline versus March 2014's 9.5% unemployment rate. This is a strong indication that the local region is moving in the right direction and that the City's investment in economic development initiatives continues to pay dividends. The City's focus on economic development directly fosters increased General Fund revenues that directly facilitate enhancements to the City's programs and service delivery.

The Governor has advocated for paying down debt and saving for the future in recent budgets, and the May Revise reflects a significant revenue surplus that is being directed to continuing to pay down debt, save for a rainy day, and enhance funding for schools and various programs cut during the recession. The May Revise does not propose any actions that would negatively impact the City's budget through redirection of funding or cuts to critical programs and includes the

CITY MANAGER'S BUDGET MESSAGE

Page 17 of 17

payment of various state mandate claims owed to the City in the next few months that will provide a one-time boost to fiscal year 2014/15 revenues.

The Federal budget typically does not impact the City's General Fund; however, it does closely impact other City functions. As a result of the Federal sequestration, the City has seen negative impacts during fiscal year 2014/15 in the form of reduced grant funding and impairment of the credits it receives for Build America Bonds issued by the electric, water, and sewer utilities. Staff is closely monitoring these issues and evaluating alternatives where they exist. We will continue to update the City Council whenever new information is available.

Summary and Recommendations

Preparation of the fiscal year 2015/16 budget culminates a complex process undertaken by all City Departments to ensure that the funding plan meets the City Council's policy directives and public service priorities. The underpinnings of this Budget are sound, and reflect the City Council's traditionally conservative approach to allocating resources to address our community's current needs and safeguard its long-term fiscal health. Riverside is well positioned to address the City Council's strategic plan and to enter fiscal year 2015/16 on sound financial ground.

It is, therefore, recommended that the City Council:

1. Conduct a public hearing on June 9, 2015, to receive citizen comments on the proposed fiscal year 2015/16 annual budget;
2. Provide direction to staff regarding any modifications to be made prior to adoption of the annual budget; and
3. Consider adoption of the final annual budget during the evening session of the City Council's June 23, 2015, meeting.

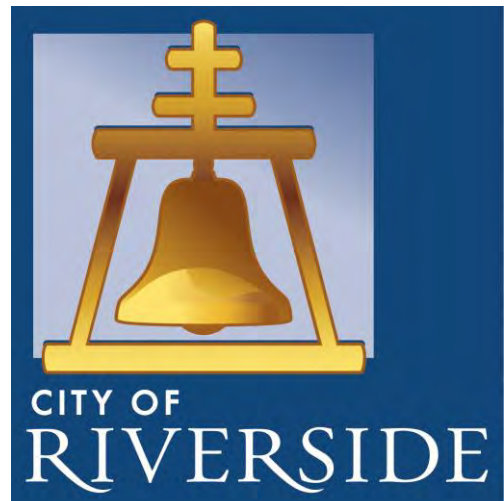

Respectfully Submitted,

JOHN A. RUSSO
City Manager

COMMUNITY PROFILE

COMMUNITY PROFILE

Introduction

Designated as one of “America’s Most Livable Communities,” the City of Riverside offers a highly educated and skilled workforce, lower land and facility costs for businesses, reliable City-owned municipal utilities, exceptional quality of life, affordable housing, and ease of access to transportation. The City is a rapidly growing urban center with 31,307 residents, currently ranked as the twelfth largest city in California and the sixth largest city in Southern California. Riverside is the largest city in, and is at the center of, the region known as the Inland Empire. With a population of over 4.4 million, the Inland Empire is ranked between Phoenix and Detroit as the 13th largest metropolitan statistical area in the United States by the U.S. Census Bureau, and is one of the fastest growing regions in the country.

Riverside was named by the Intelligent Community Forum (ICF) as the Intelligent Community of the year 2012 for its excellence in many of the key markers of success in the 21st century, including: high technology, workforce development, digital inclusion, arts, innovation, collaboration and social capital. Possessing a clear vision of the future, Riverside will continue to lead in the social and economic growth of the Inland Empire.

With a current student population of approximately 51,000, the City is home to four internationally recognized colleges and universities, including the prestigious University of California, Riverside. The City is located approximately 60 miles east of Downtown Los Angeles and is centrally placed within a short distance from the Coachella Valley, San Bernardino Mountains, Southern California beaches, and Ontario International Airport.

Heritage

Founded in 1870 by John North and a group of Easterners who wished to establish a colony dedicated to furthering education and culture, Riverside was built on land that was once a Spanish rancho. Investors from England and Canada transplanted traditions and activities adopted by prosperous citizens: the first golf course and polo field in Southern California were built in Riverside. The first orange trees were planted in 1871, but the citrus industry in Riverside began two years later when Eliza Tibbets received two Brazilian navel orange trees from the Department of Agriculture in Washington. The trees thrived in the Southern California climate and the navel orange industry grew rapidly. Within a few years, the

successful cultivation of the newly discovered navel orange led to a California Gold Rush of a different kind: the establishment of the citrus industry, which is commemorated in the landscapes and exhibits of the California Citrus State Historic Park and the restored packing houses in the Downtown’s Marketplace district. By 1882, there were more than half a million citrus trees in California, almost half of which were in Riverside. The development of refrigerated railroad cars and innovative irrigation systems established Riverside as the wealthiest city per capita in the nation by 1895.

As the City prospered, a small guest hotel designed in the popular Mission Revival style grew to become the world-famous Mission Inn, favored by presidents, royalty, and movie stars. Postcards of lush orange groves, swimming pools, and magnificent homes have attracted vacationers and entrepreneurs throughout the years. Many relocated to the warm, dry climate for reasons of health and to escape Eastern winters. Victoria Avenue with its landmark homes serves as a reminder of European investors who settled here.

Riverside’s citizens are proud of the City’s unique character born of a tradition of careful planning, from the City’s carefully laid out historic Mile Square to its 1924 Civic Center designed by the same planner responsible for San Francisco’s, Charles Cheney. Through the City’s Office of Historic Preservation, Riverside is committed to preserving the past as a firm foundation for the future. Over 100 City Landmarks, 20 National Register Sites, and 2 National Landmarks have been designated by the City Council, all offering enjoyment and education to City residents and visitors. Riverside is fortunate to have a

COMMUNITY PROFILE

wealth of sites and buildings that provide a link to the city's past and a strong sense of place. This is the result of the hard work and careful planning of the city's Historic Preservation Program. Created by the City Council in 1969, it identifies and advances the preservation of Riverside's historic neighborhoods, and civic and commercial resources. Examples include the Mission Inn, the Chinatown site, the National Packing House, Citrus Experiment Station, and engineering feats like the Gage Canal. Many of these landmarks are found in the Downtown's Mission Inn Historic District. California's Mission Revival style, born in Riverside, can be seen throughout the City, most notably in the Mission Inn, the Municipal Auditorium, the First Church of Christ Scientist, and the Fox Performing Arts Center.

The Mission Inn was developed from the Glenwood Tavern, owned by Captain Christopher Columbus Miller, who moved to Riverside in 1874 to survey land for the Gage Canal, which brought water to Riverside. His son Frank developed a lasting interest in culture and the arts and took over the expansion of the Inn. Over the years he embellished and expanded it into a unique resort known all over the world. It has played host to numerous movie stars, musicians, and heads of state. Ronald and Nancy Reagan honeymooned there, and Richard and Pat Nixon were married on its grounds. Teddy Roosevelt planted a tree in its courtyard, and a special chair, built for President William Howard Taft when he visited, is still in the Inn's collection.

Many of Riverside's historic buildings are open to the public including the Catherine Bettner home, restored and renamed the Heritage House, which is open for tours. The Riverside Art Museum was designed by America's most successful woman architect, Julia Morgan, famous for William Randolph Hearst's Castle in San Simeon. It was originally constructed for the YWCA on land donated by Frank Miller. Benedict Castle was built as a private residence by Henry Jekel and is now occupied by Teen Challenge. It is available for special events and filming as are many of Riverside's historic homes and neighborhoods.

The unique City Raincross Symbol is derived from combining a replica of the mass bell used by Father Junipero Serra, missionary priest and founder of the California Missions, and the cross to which the Navajo and Central American Indians prayed for rain. Called the "Raincross" symbol, it was designed for the Mission Inn and given to the city by Frank Miller. The Raincross

symbol has been identified with Riverside since 1907. Variations of the symbol are used extensively throughout Riverside in architecture, street signs and lighting standards, and it is used on the City flag. Playing on the nostalgia for the state's Spanish heritage and the romanticized images of the missions and the Indians portrayed by Helen Hunt Jackson in her novels, Miller, Matthew Gage, the Sunkist Cooperative, the Santa Fe Railroad, and other city boosters worked together to market Riverside as a Spanish Mediterranean Mecca. Riverside's climate and landscapes continue to evoke this Mediterranean paradise. There is a strong community support for historic preservation for a city that reveres its past and has built on that firm foundation.

Demographics

A city is defined by its assets, the most important one being the people that populate it and work within its boundaries. Riverside is distinctly proud of its highly diverse, sophisticated, and civic-minded people, and of its sense of place and legacy. The City has carefully planned for growth while preserving local history, being cognizant of both the citrus-based past and the modern future.

Housing, Workforce, and Job Growth

With a median single family home price of \$320,000 as of May 2015, compared to \$722,000 in Orange County and \$486,000 in Los Angeles County, Riverside draws many families pursuing the American Dream. Young couples and on-the-go professionals are also drawn by the City's many affordable condos.

Businesses are taking advantage of Riverside's lower land cost, strategic location, and established transportation networks as a key portal for the movement of goods and services between the greater Los Angeles area and the rest of North America. The City is home to major industries such as advanced manufacturing, health and medical services, and retail and professional firms. As the region's largest city and the county seat of California's fourth largest county (Riverside County), legal and government services also are a significant presence.

Also reflecting its evolution as a high-technology community, the City's SmartRiverside nonprofit provides qualified low income families throughout the City with free computers with wireless internet access and computer training through its Digital Inclusion program. To date, over 6,600 families have benefitted from this important program.

Population, Household Income, and Retail Sales

Centered in one of the nation's fastest-growing regions, Riverside has grown steadily in recent years both in area and population. Between fiscal years 2000/01 and 2014/15, the City's population has increased by over 19%, reflecting a 1.3% per year growth rate. Similarly, the City has grown through annexations to more than 81 square miles during the same period. Currently, the City's population is approximately 317,307.

Riverside is Southern California's third largest suburban retail center with \$4.2 billion in annual sales. The City has become a magnet for high-end retail establishments, reflecting the changing demographics in the City.

While the City's roster of upscale stores is diverse, Riverside retailers have one thing in common: success. Official sales numbers from such popular outlets as California Pizza Kitchen, Trader Joe's, and Panera Bread Company have shown that these Riverside locations are consistently among the best performing in their district, region, or chain.

Recently, the Riverside Plaza, one of the region's most successful retail centers, retrofitted the former Harris-Gottschalks department store building to accommodate the growing demand for retail options by welcoming Nordstrom Rack, Joanne's Fabrics, and Marshalls.

Tourism and Major Events

The City of Riverside is a focal point for tourism in the Inland Empire. The Riverside tourism industry is supported by the Riverside Convention Center and a variety of local hotels, such as the historic Mission Inn Hotel & Spa. An assortment of historical landmarks, performing arts centers, museums, shops, restaurants, and places of entertainment are available for visitors to explore. Besides the many permanent attractions available to visitors, Riverside is also host to many annual events.

The City's Arts & Cultural Affairs Division has created several popular arts and entertainment activities, including the Downtown Farmers Market, held every Saturday, where shoppers can purchase fresh organic produce and beautiful flowers while enjoying chef demonstrations; and an expanded annual Festival of Lights with family-friendly activities and entertainment surrounded by the nation's second largest holiday lighting display.

Transportation

The City of Riverside is strategically situated among major transportation links. Included in these links are major highways, commuter train stations, and airports. With its proximity to ports, railroads, and freeways, Riverside is establishing itself as a leader in Southern California's international trade economy. Also contributing to the City's emergence as a logistics hub is the March Global Port – formerly March Air Force base. The March Global Port is home to air cargo facilities as well as an expansive foreign trade zone (FTZ), where products and goods can be stored duty free. Most firms participating in the FTZ program save hundreds of thousands of dollars annually. It should come as no surprise that Riverside is viewed by many as the economic engine of the Inland Empire.

Freeway Access

The City of Riverside can be accessed via Interstates 215 and 15 from the north and south, and via State Routes 91 and 60 from the east and west. Through these connections, the City is connected to Southern California's freeway network, providing easy access to Los Angeles,

San Diego, Orange County, the Coachella Valley, and beyond.

Bus and Taxi Service

Riverside has a modern downtown transit terminal served by Greyhound Trailways Lines, the Southern California Rapid Transit District, and the Riverside Transit Agency (RTA). Private charter bus companies and taxicab services are also available. The RTA provides fixed route bus service throughout a 2,500 square mile area in Western Riverside County, including within the City of Riverside. Additionally, the City's Parks, Recreation, and Community Services Department provides special transportation for seniors 60 years of age or older and for persons with disabilities.

Passenger/Commuter and Freight Railroad Service

For rail travelers and commuters, the Metrolink system offers a network of commuter trains that connect Los Angeles, Orange, Riverside, San Diego, San Bernardino, Ventura, and Kern Counties. The Metrolink system currently has two stations in the City – the Downtown (near Mission Inn Avenue and Park Avenue) and La Sierra (near La Sierra Avenue and Indiana Avenue) Stations, with a third station (Hunter Park near Columbia and Marlborough Avenues) under construction. From these stations, travelers can reach almost any Southern California Metrolink destination in a short time, as well as connect to Amtrak trains. An Amtrak station is also located in the downtown area.

The BNSF and Union Pacific Railroad lines run through the City, providing dependable daily freight service to Riverside businesses. Reciprocal switching agreements exist between the companies.

Airports Offering Passenger and Cargo Service

Located just 16 miles northwest of Riverside, Ontario International Airport provides passenger service to cities all over the world, as well as highly accessible cargo service. Commuter services are also available at the airport. Several major airfreight carriers, as well as AeroMexico Airlines, Alaska Airlines, American Airlines, Delta Airlines, Southwest Airlines, United/United Express Airlines, US Airways, and Volaris Airlines serve Ontario. In addition, within approximately one hour's drive of the City are the Los Angeles International, John Wayne (Orange County), Long Beach, Bob Hope (Burbank), and Palm Springs Airports.

Riverside Airport

The City boasts its own airport, which has been serving the community for over 50 years. Originally designated as the Arlington Airport, Riverside Airport has been transformed from a single, dirt runway airfield serving light aircraft into a corporate aviation and business facility unique in its varied services to the Inland Empire. Today, Riverside's main runway of 5,400 feet, as well as its second, cross-wind runway, serve the daily needs of small aircraft, business jets, cargo aircraft, and helicopters – easily handling 110,000 annual flight operations.

Infrastructure

Cities must provide the critical facilities that enable their inhabitants to live, work, and play. As many Southern California cities are creating new “downtowns,” Riverside is fortunate to have an established core area characterized by unique, independently-owned fine dining establishments and eclectic shopping options, made all the more attractive by modern touches. Downtown Riverside is truly defined by charm, history, commerce, and entertainment. One of the prominent goals of the

City's various capital projects is to protect and enhance these distinctive elements of the downtown. Capital projects include the recent renovation and expansion of the Riverside Convention Center the Main Street Pedestrian Mall, and restoration of the historic Fox Theater into a state of the art performing arts center. The Fox Performing Arts Center, opened in January 2010, is drawing more people downtown for first class entertainment, on par with what Los Angeles audiences see at top theaters.

In addition, private development plans call for upscale residential lofts, condos, and townhouses, as well as retail space. New Class A office space, including the recently completed six story Citrus Tower development, provide businesses with new opportunities to make Downtown Riverside their home. Another development is the recent transformation of the remainder of the block housing the Fox Performing Arts Center into the Fox Entertainment Plaza, a development that includes prime retail space, additional multi-level parking, and a Black Box theater. Finally, hotel options continue to expand as illustrated by the 125-room Hyatt Place hotel and two more hotels currently in the planning stages.

In addition to the downtown projects, citywide infrastructure improvements have been made, including the rehabilitation of many existing parks, recreation facilities, and community centers, as well as the addition of new facilities to serve the growing community. Public safety enhancements include the addition of the new Downtown fire station, opened in October 2013, and improvements to existing stations. The City has also recently remodeled existing Police Department facilities. These improvements show that the City is continuing to invest in infrastructure and public facilities to ensure that Riverside remains one of the best places to live and work in Southern California.

Reliable municipal utility service is important to residents and businesses alike. Public utility projects include three new water reservoirs, a new electric power plant, a new connection to the power grid, service upgrades, and a new water treatment plant. To keep Riverside on the move, the City has undertaken multiple railroad grade separation projects, several improved freeway interchanges, and citywide beautification projects that have or will widen and/or repave numerous City streets, repair or add sidewalks, and enhance medians with landscape improvements.

STRATEGIC BUDGET PRIORITIES

STRATEGIC BUDGET PRIORITIES

STRATEGIC PLANNING OVERVIEW

Throughout this budget document, City Departments have linked their objectives for the current budget year and their accomplishments from the prior budget year with both the City Council's Strategic Goals and their Department Goals. Additionally, linkages are provided for any Department objectives or accomplishments that align better with the four Seizing our Destiny Pillars or the five effective government principles outlined on the following pages. The City uses these tools to assess and realign resources where necessary, hence, to build its budget, ensuring concerted focus on realizing the Community Vision.

Through these planning efforts, Riverside seeks to solve the community's current problems, while reaching forward to becoming a key economic and cultural center of Southern California. The City is committed to enabling our residents to play a meaningful role in the evolution of the City, and ensuring that their values are reflected both in the work that we do and in the results that we achieve.

Strategic planning is a vital process that allows cities to take control of and shape their futures. Strategic planning is proactive: it is about thinking, planning, and anticipating the kinds of things we will need to do in order to achieve our vision and goals. Effective strategic planning involves an understanding of the services we provide, who our customers are, and how well we are meeting their expectations and needs.

Strategic planning allows the City organization to better align its services with City Council and community priorities. Through the strategic planning process, we collectively formulate goals, expectations, and strategies for improving life in the City. When done well, strategic planning involves input and participation from a broad cross-section of the community and City employees. This guarantees that we are harnessing the best resources possible in planning our future, as well as providing an all-important forum for civic participation, ownership, and engagement.

Finally, strategic planning ensures a wise and effective utilization of City resources, mainly through the annual budget process. Because we have identified our goals and expectations, we can now concertedly allocate resources, where necessary, to ensure that we are positioned to meet these goals. The resulting plans outline how we will achieve our goals and focus attention on the results the community seeks through a unified vision, strategy, and implementation plan for improving life in the City.

STRATEGIC BUDGET PRIORITIES

THE CITY'S MISSION

The City of Riverside is committed to providing high quality municipal services to ensure a safe, inclusive, and livable community.

COMMUNITY VISION: SEIZING OUR DESTINY

On May 26, 2009, the City Council approved "A Vision for Riverside", to guide our City of Arts & Innovation to a leading position in the region, country, and world. The City Council stipulated that significant community input should be a major component of data gathering. From the public input data as well as thorough analysis by the Committee, **Seizing Our Destiny** was created. Seizing Our Destiny showcases the community's vision for the future of Riverside and highlights our next steps toward this goal.

Seizing Our Destiny is creating a prosperous future for Riverside through a shared commitment of community, business and civic leaders working together to creatively tackle local issues, implement innovative solutions, and promote the City's success stories. The Vision has four primary aspects for Riverside: to nurture **Intelligent Growth**, be a **Catalyst for Innovation**, be a **Location of Choice**, and evolve as a **Unified City**.

INTELLIGENT GROWTH

Riverside promotes an outstanding quality of life for all through intelligent growth.

Riverside embraces economic growth and directs it so it maintains and improves our already outstanding quality of life. This includes growing the economy, raising the standard of living and managing a growing population. Our community uses land and repurposes historic structures to provide excellent jobs, support to businesses and steward our heritage and natural beauty. We maximize our position as the gateway to the United States and the world through trade and transportation networks.

STRATEGIC BUDGET PRIORITIES

COMMUNITY VISION: SEIZING OUR DESTINY (CONTINUED)

CATALYST FOR INNOVATION

Riverside catalyzes profound discoveries and creativity in the arts, technology, research, and business innovation.

Our community leaders collaborate to address issues, which lead to more inventive and multi-disciplinary approaches. The people and educational institutions of Riverside cultivate and support useful and beneficial ideas, research, products, scholars, businesspeople, artists and entrepreneurs. Creativity and innovation permeate all that we do, which makes our community a trendsetter for the region, California, and the world to follow.

LOCATION OF CHOICE

Riverside is a location of choice and attracts creative, entrepreneurial, dynamic and diverse people as residents, workers, business owners and visitors.

An unmatched landscape, year-round outdoor activities, ample recreational options and attention to healthy living make Riverside one of the most inspiring, livable, healthy and adventurous cities to live in or visit. Our community provides an abundance of opportunities to be amazed, inspired and entertained, including: arts and cultural offerings; well-defined, welcoming neighborhoods; well-paying jobs in strong companies; and diverse education. Our central location means we are within 60 minutes of the beach, snow, Los Angeles and Orange Counties, Palm Springs, apple picking, horseback riding, backpacking, mountain biking and more.

UNIFIED CITY

Riverside unifies its diverse community to accelerate the common good for the City as a whole.

People are brought together around common interests and concerns, while the unique character of Riverside's neighborhoods and diverse communities are celebrated and valued. We are a caring community that has compassion for all of its inhabitants, and engages with one another for a better life for all. The long-standing diversity of the City provides a comfortable home for people from all backgrounds, cultures and interests – Riverside is a city for everyone and by everyone. Riversiders respect and value the cultural heritage, distinct needs and varied input of each of our neighbors, while proactively engaging them across historical dividing lines.

STRATEGIC BUDGET PRIORITIES

THE CITY'S STRATEGIC GOALS

In February 2015, the City Council approved the Riverside 2.0 Strategic Plan, which established new City Council Strategic Goals that align with the four pillars of Seizing our Destiny. These Strategic Goals are:

ENHANCED CUSTOMER SERVICE

ECONOMIC DEVELOPMENT

COMMUNITY SERVICES

CITY TRANSPORTATION

IMPROVED HOUSING DIVERSITY & OPTIONS

IMPROVE TEAMWORK & COMMUNICATION

REDUCE TAXPAYER LIABILITY & COSTS

PRINCIPLES FOR EFFECTIVE GOVERNMENT

City Department Directors have also sought to evaluate their commitments included within the City's strategic plan for consistency with the principles for effective government that incoming City Manager John Russo introduced to the City Council and public on February 24, 2015. These principles are:

ACCOUNTABILITY

TRANSPARENCY

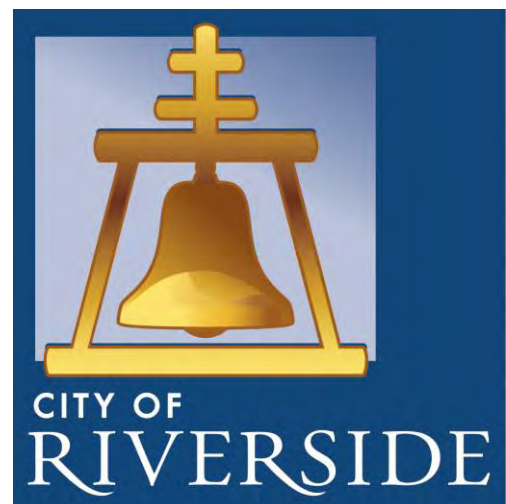

RESPONSIVENESS

FINANCIAL PRUDENCE

DECISIVENESS

GUIDE TO THE BUDGET

GUIDE TO THE BUDGET

What is the Budget?

The Annual Budget sets forth a strategic resource allocation plan that addresses the City Council's Strategic Goals. The Budget can be thought of as a policy document, financial plan, operations guide, and communication device all in one.

The Budget also

- determines the quality and quantity of City programs and services;
- details expenditure requirements and the estimated revenue available to meet these requirements;
- connects the activities of individual City Departments to the City Council's Strategic Goals;
- sets targets and provides a means of measuring actual accomplishments against goals; and
- serves as a communication device that promotes the City's vision and direction, fiscal health and vitality, and what the public is getting for its tax dollars.

Through the Annual Budget document, the City demonstrates its accountability to its residents, customers, and the community-at-large. Additionally, the Annual Budget provides the legal authority for expenditures and a means for control of municipal operations throughout the fiscal year. Accordingly, the City Charter mandates that a budget be adopted prior to the beginning of the fiscal year.

The budget process furnishes department heads with an opportunity to justify departmental work programs, to propose changes in services, and to recommend revisions in organizational structure and work methods. It also enables the City Manager to review these aspects and make appropriate recommendations to the City Council.

Presentation of the budget to the City Council provides an opportunity to explain municipal programs and organizational structures. It also allows the Council to judge the adequacy of the proposed operating programs, to determine basic organizational and personnel staffing patterns, and to establish the level of municipal services to be rendered with the available resources.

In order to accomplish these objectives, the annual budget must combine a detailed explanation of anticipated financial resources for the ensuing fiscal year with proposed expenditures, supported by sufficient

information on the proposed programs and activities to assess the appropriateness of the recommended levels of services.

The Operating Budget, Capital Budget, and Capital Improvement Program

The Annual Budget document contains information about both the City's operating and capital budgets for a particular fiscal year. Typically, when one refers to the City's Annual Budget, the meaning is the combination of the operating and capital budgets. The operating budget details the funding for the day-to-day operations and obligations of the City for a particular fiscal year such as personnel costs, employee benefits, telephone expense, and building maintenance. The capital budget details planned expenditures for the same fiscal year to construct, maintain, or improve City facilities such as fire and police stations, parks, recreation centers, sewers, and electric and water infrastructure.

The Capital Improvement Program (CIP) is a separate five-year planning document that details planned capital expenditures. Capital projects range from road maintenance or construction to the renovation of municipal buildings, recreation centers and ball fields, to water main and sewerage system replacement. The CIP relates these capital projects' needs to the financial sources that will support their realization and the timeframe in which both the financing and work will take place. Capital improvement projects typically carry considerable future impact, meaning, they have a life span of at least five years or more. They are often financed over a longer period of time, in effect spreading the cost of the project across generations of users. Because of the more long-term nature of the CIP and the sometimes complex nature of capital project financing, the CIP is presented in a separate document. However, the first year of the CIP is integrally related to the Annual Budget document, and so a summary of the CIP is provided in Section J.

Most expenditures found in year one of the CIP are included in the Annual Budget's capital budget component. However, certain projects for which funding is not yet secure or planning is not complete are budgeted through supplemental appropriations later during the fiscal year. Additionally, debt-financed projects are typically reflected twice in the Annual Budget as an original capital expenditure from the proceeds of the debt and as payments of principal and interest over a number of years. For example, the City's Measure G Bond Initiative funded

GUIDE TO THE BUDGET

construction of various projects for the Riverside Fire Department several years ago. Because bonds were issued to fund these projects, payments of principal and interest are still shown in the Annual Budget each year as the principal used to construct the various projects financed through Measure G and related interest costs are paid.

How is the Budget Developed?

The City of Riverside's fiscal year begins each July first and concludes on June 30. In accordance with fundamental democratic principles, the City embraces the notion and practice of citizen participation, especially in key planning and resource allocation activities. Therefore, the development of the budget process begins early in the prior fiscal year to ensure adequate planning and community input into that planning. The mode of community input especially important to the budget development process is through the City Council Strategic Plan. In addition, Departments obtain citizen input through Boards and Commission meetings, Mayor's Night Out forums, public hearings, and other forms of written and oral communication.

The development of the Annual Budget is comprised of three distinct phases.

- Phase One: Strategic Planning and Program Assessment
- Phase Two: Budget Directive and Departmental Submittal
- Phase Three: Budget Preparation and Adoption

Phase One represents the planning and assessment phase. Departments focus on the what, why, how, and how well they deliver individual services. This phase includes both strategic plan development and data gathering, such as performance information. This phase can begin as early as the start of the fiscal year. Phase Two consists of the City Manager's Budget Policy Directive and Departmental Budget Submittal, and runs from December through March. Phase Three covers the period when the Preliminary Budget is prepared and presented to the City Council through Budget Adoption.

Strategic Planning and Program Assessment

The City Council Strategic Plan is a process that brings into alignment the community's priorities and needs, City Council Strategic Goals, and City operations. The City

Council's Strategic Goals then are used as a roadmap to realize the community vision through building a budget that effectively utilizes City resources.

Program Assessment is a crucial component of the Budget Development process. It engages City staff in linking past assumptions and decisions with current issues before focusing on dollars. Program Assessment is also designed to elicit evaluation of current service delivery efforts, as well as to provide baseline and performance information on the services (activities) that a Department currently provides. Program Assessment is conducted around five main themes: the What, Why, How, How Well, and Impact of the program in question.

Budget Directive and Departmental Submittal

The City Manager establishes a Budget Directive based on short and long-term financial and organizational goals. Budget kickoff begins in December at a meeting attended by the City's Departmental Budget Coordinators and key staff from the Finance Department and Administration Division of the Office of the City Manager. Policy directives, general budgeting guidelines, and the technical and procedural aspects of preparing the budget are discussed. The Budget Preparation Manual, distributed to each departmental representative in electronic format, provides the information necessary to prepare the Budget Submittal in an accurate and timely manner. Departments have approximately two months to prepare their budgets based on the City Manager's Budget Directive.

A City Manager Review is then conducted for each Department including the City Manager or applicable Assistant City Manager, key staff from the Finance Department and Administration Division of the Office of the City Manager, Department Heads, and Departmental Budget Coordinators. Staff presents an overview of the department's proposed budget, including increases, reductions, and/or other significant budgetary changes. The aim of the City Manager Review is to finalize decisions regarding departmental budget submittals and to discuss other outstanding issues.

Budget Preparation and Adoption

This phase consists of the preparation of the Preliminary Budget through Budget Adoption, and includes the publication of a "Budget-in-Brief" for wider distribution to the general public.

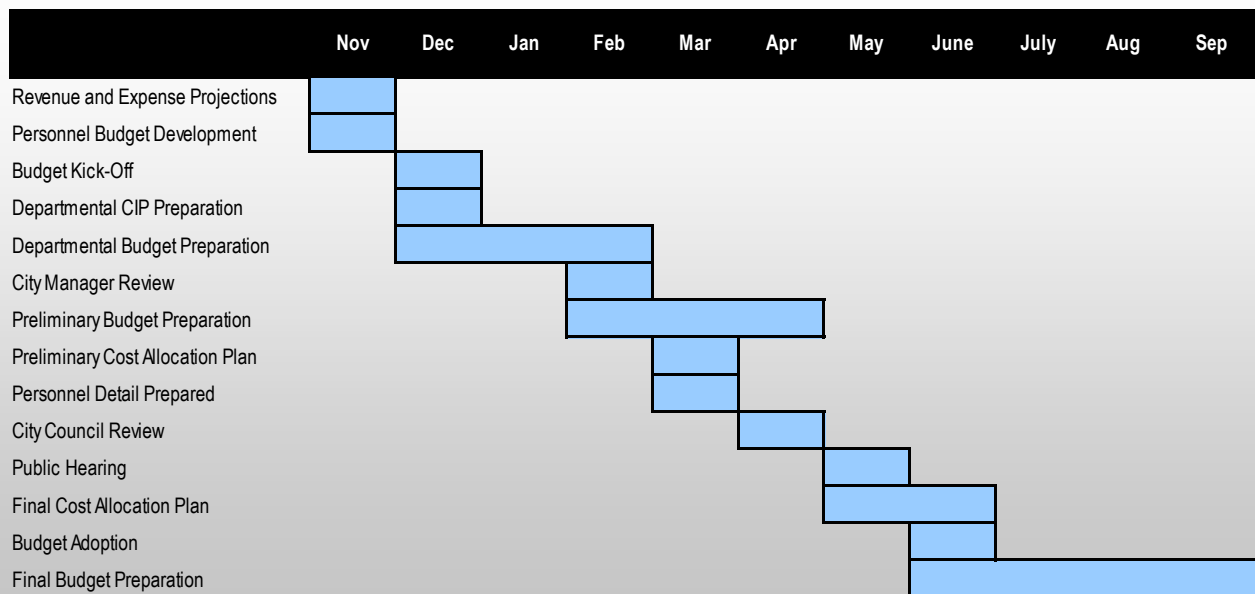

GUIDE TO THE BUDGET

Although the City strives to avoid as much technical language as possible, budget documents can still be rather cumbersome and dense in nature. The Budget-in-Brief is a user-friendly, manageable document for the public and other interested persons to read.

Once the City Manager Reviews have taken place and all departmental budget issues are resolved, the Finance Department prepares the Preliminary Budget. The Preliminary Budget takes into account any changes agreed upon at the City Manager Reviews and any other City Manager-directed changes.

The City Manager presents the Preliminary Budget to the City Council in one or more workshop sessions typically held in April. Although public comment is welcome throughout the workshop sessions, a specially designated Public Hearing is expressly held for public participation. Subsequent to the Public Hearing, the City Manager will ask the City Council to adopt the Annual Budget with any necessary revisions made between the time of the publication of the Preliminary Budget and the date of adoption. The Annual Budget is effective July first, and the printed document is available as soon as the year-end accounting and final cost allocation plan are completed.

How to Read the Budget

Budgets play a crucial role in communicating to elected officials, city employees, and the public the City's plans for the use of its resources. Yet budgets are complex documents that can be difficult to grasp at first glance. Although the City has made every effort to make the document as easy to navigate as possible, this section provides the reader with some basic understanding of the constituent components of the Annual Budget document. Additional sections to which the reader should refer are the Budget Summary Tab and the Glossary of Terms Tab. The Budget Document is comprised of the following 12 main sections:

- City Manager's Budget Message
- Community Profile
- Strategic Budget Priorities
- Guide to the Budget
- Budget Summary
- Fund Balance Summary
- Revenue Summary
- Expenditure Summary
- Departmental Summaries
- Capital Improvement Program Summary
- Personnel Detail
- Glossary of Terms

City Manager's Budget Message

The City Manager's Budget Message is a transmittal letter addressed to the Mayor and City Council that introduces the Annual Budget. The Budget Message outlines the organizing principles of the budget and the assumptions on which the budget was developed (e.g., economy, strategic plan requirements, revenues, and expenditure needs) to accomplish the City's objectives for the year.

The City Manager's Budget Message aims to provide the reader with highlights of the operating and capital budgets and a sufficient context to understand how and why budgetary changes occurred between fiscal years.

Community Profile

The Community Profile provides a snapshot of the City for which the Annual Budget has been developed. The purpose of this section is to give the reader an at-a-glance look at the City's main assets, including information on tourism, transportation, and City heritage, as well as demographic data and basic infrastructure statistics.

Strategic Budget Priorities

The City's Annual Budget is expressly shaped by the City Council's Strategic Goals. In this way, City leadership can be assured that resources are allocated wisely and effectively toward meeting the Strategic Goals. This section describes the linkage between the City's Mission, the Seizing Our Destiny program vision, and the City Council's Strategic Goals.

Guide to the Budget

The Guide to the Budget allows the reader to understand the purpose of the budget, how the budget is developed, how to read the budget, and the financial and operational policies that guide the budget development and planning processes as a whole.

Budget Summary

The Budget Summary provides a concise and informative narrative summary of the Annual Budget including fund descriptions, planned expenditures, and estimated revenues. The following sections then expand upon this summary to provide additional summarized detail.

Fund Balance Summary

The Fund Balance Summary provides a Citywide summary of beginning and projected year-end balances for each of the City's funds.

Revenue Summary

The Revenue Summary provides a Citywide summary of projected and historical revenues.

Expenditure Summary

The Expenditure Summary provides a Citywide summary of projected and historical expenditures.

Departmental Summaries

The Departmental Summaries contain detailed budget information for the basic organizational units of the City, its Departments. The Departments are presented in alphabetical order. Each departmental summary presents the following information:

- **Mission Statement** – Each department has formulated a Mission Statement that presents “the what, for whom, and why” the department exists.
- **Organizational Chart** – The Organizational Chart diagrams the relationships of the Divisions comprising a department. The total number of

GUIDE TO THE BUDGET

Full Time Equivalents (FTEs) in each Division is also shown. The purpose of this chart is to highlight programmatic activities rather than to portray reporting relationships among staff.

- **Services Provided by Department** – This section provides detailed information on the breadth and scope of the Department's work.
- **Personnel Summary by Division** – This table provides comparative information on budgeted personnel for four fiscal years for each of the Divisions presented in the Organizational Chart. Percentage change data between the prior and current fiscal years is also provided.
- **Department Goals, Accomplishments, and Objectives** – This section lists the Department's long-term strategic goals and the related accomplishments for the prior fiscal year and objectives for the current fiscal year. These accomplishments and objectives are also linked to the City Council's Strategic Goals.
- **Budget Summary by Division** – This table provides comparative information on budgeted expenditures for four fiscal years for each of the Divisions presented in the Organizational Chart, as well as Divisions without personnel. Percentage change data between the prior and current fiscal years is also provided.
- **Budget Summary by Budget Category** – This table provides comparative information on budgeted expenditures for four fiscal years for each budget category of the City's chart of accounts. Budget categories combine expenditures within broad categories together to illustrate the cost of personnel, capital projects, debt service, and other key expenditure groupings in aggregate for the entire Department. Percentage change data between the prior and current fiscal years is also provided.
- **Summary of Significant Budget Adjustments** – This section provides a narrative description of significant changes within each Department that have resulted in increases or decreases in the Department's budget.
- **Departmental Budget Detail** – This section provides line item detail for each Division and Section with the Department.

Capital Improvement Program Summary

This section looks at the City's five-year Capital Improvement Program including funding sources, project

highlights, and the specific projects for which funds are allocated for the fiscal year detailed in the Annual Budget. A more in-depth Capital Improvement Program document is available from the Finance Department and is featured on the City's web site.

Personnel Detail

The Personnel Detail section includes the titles and job codes of the full-time and part-time positions authorized for each Department. A comparative table that provides four years of historical data and a Citywide organizational chart are also presented in this section.

Glossary of Terms

Budget documents may be difficult to read and may contain terms unfamiliar to the reader. This section attempts to cover the key terms used throughout the Annual Budget document and in the budgeting process, in general.

Accounting and Budgetary Basis

The modified accrual basis of accounting is used by all General, Special Revenue, Debt Service, and Capital Projects Funds. This means that revenues are recognized when they become both measurable and available. Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when liabilities are incurred, except that principal and interest payments on long-term debt are recognized as expenditures when due. The accrual basis of accounting is utilized by all Enterprise and Internal Service Funds. This means that revenues are recorded when earned and that expenses are recorded at the time liabilities are incurred.

The City's basis for budgeting is consistent with accounting principles generally accepted in the United States of America and with the City's financial statements as presented in the Comprehensive Annual Financial Report (CAFR). Exceptions are as follows:

- Capital expenditures within the Enterprise Funds and Internal Service Funds are recorded as assets on an accounting basis but are shown as expenditures on a budgetary basis.

GUIDE TO THE BUDGET

- Depreciation of capital assets and amortization of various deferred charges are recorded on an accounting basis only.
- Principal payments on long-term debt within the Enterprise Funds and Internal Service Funds are applied to the outstanding liability on an accounting basis but are shown as expenditures on a budgetary basis.

Funds are appropriated for all of the City's funds (General, Special Revenue, Enterprise, etc.).

Accounting Structure and Terminology

The complexities of the account structure utilized by the City do not lend themselves to a narrative and straight-forward description. However, some brief discussion is warranted to assist citizens with reviewing the City's budget. In the Departmental Budget Detail sections of the Annual Budget, expenditures are shown by General Ledger (GL) account. In certain other sections of the Annual Budget, such as the Revenue Summary, GL accounts may also be shown. These GL accounts are the fundamental building blocks through which the budget is constructed. The City's GL structure includes two primary components: key and object.

GL keys are seven digit numbers representing the location of the expenditure (such as the Police Department). For expenditures, the first two digits are the Department number of the organizational unit, digits three and four are the Division (an organizational unit within a Department), digits five and six are the Section (an organizational unit within a Division), and the final digit is used for various purposes. Data is presented in the Departmental Budget Detail at the Section level. Additionally, certain projects have their own GL key starting with the number nine and will be shown with the budget for the responsible Department. For revenue, GL keys typically begin with four zeros and end with the three digit number of the applicable fund.

GL objects are six digit numbers indicating the type of expenditure or revenue (such as telephone expense). Each of these objects has a text description. For expenditures, this description can be found next to the individual line item in the Departmental Budget Detail. For revenues, the object description is the category of revenue.

Cost Allocation Plan and Direct Charges

The City employs a complex multi-step plan for distributing the costs of internal services to various Departments and funds. Through these allocations, a more realistic picture of the cost of doing business for the City's various organizational units and services is obtained.

For example, the budgets for internal service Departments (such as Human Resources and Information Systems) are allocated to public service Departments (such as the Police Department and Public Works Department). This allocation of costs adjusts each Department's budget to a truer representation of the cost for providing its services to the City's citizens and customers. Any fees or charges set for City Services are then based upon the expenditures of this adjusted budget, which includes an appropriate amount of overhead or allocated costs.

Allocated costs are primarily determined through the City's Cost Allocation Plan (CAP). The CAP uses various statistical data to distribute the identified service costs to the appropriate Departments and funds. Additionally, in certain circumstances direct charges from one organizational unit to another are included in the budget outside of the CAP. Direct charges are typically utilized when the origin and destination of a specific cost are readily apparent and fixed.

Financial and Operational Policies

The guiding principles of the City's budget development process are financial and operational policies. These policies promote and ensure organizational continuity, consistency, transparency, and responsibility from year to year. This section identifies some of the major short and long-term planning documents, financial and operational policies, and fiscal management tools that the City of Riverside employs in order to guarantee fiscal and programmatic integrity and to guide the development of the City's Annual Budget.

Adjustments to the Adopted Budget

Per the City Charter, Section 601 (d), the City Manager shall "keep the City Council advised of the financial condition and future needs of the City and make such recommendations as may seem desirable to the City Manager." In order to accomplish this mandate, the City Manager annually presents a mid-year fiscal review to the City Council, typically held between January and March. This review includes needed adjustments to personnel

GUIDE TO THE BUDGET

and non-personnel budgets that have been identified by staff since the adoption of the Annual Budget. Additionally, at any meeting after the adoption of the budget, whether before or after the Mid-Year Review, the City Council may amend or supplement the budget by motion adopted by the affirmative votes of at least five members so as to authorize the transfer of unused balances appropriated for one purpose to another purpose or to appropriate available funds not included in the budget.

The Annual Budget, as adopted by the City Council, establishes the total appropriation provided for each City Department's operations. To ensure that the expenditures of each Department do not exceed the departmental appropriation, expenditures for each Department are legally limited to the amounts authorized by the City Council in the budget document, plus carryover amounts and supplemental appropriations individually approved by the City Council. The City Manager is legally authorized to transfer budgeted amounts between Divisions and accounts within the same Department over the course of a fiscal year. Transfer of appropriations between Departments or funds and increased appropriations must be authorized by the City Council. Thus, expenditures may not legally exceed budgeted appropriations at the Department level within a fund. City Council approval is also required for all transfers from unappropriated fund balances or contingency reserves.

Continued/Carryover Appropriations

The City's Municipal Code states that all unexpended or unencumbered appropriations shall lapse at the end of the fiscal year, except for appropriations for capital projects that are required for the completion of the approved project. Other encumbered funds from the previous fiscal year are carried over to the current fiscal year through a list of continued appropriations. Additionally, the City has established a carryover review process during which Departments submit justification for unencumbered, available funds that are requested for carryover. The final list of continued appropriations, including both encumbrances from the previous year and unencumbered funds approved for carryover, is then adopted by the City Council and becomes part of the City's Annual Budget. These continuing appropriations are not included in the Annual Budget document.

Proposition 4 (Gann) Appropriation Limit

Article 13-B of the California Constitution was added by the November 1979 passage of the Gann Initiative. This legislation mandated that California Cities must compute an appropriation limit, which places a ceiling on the total amount of tax revenues that the City can appropriate annually. The legislation also provides that the governing body shall annually establish its appropriations limit by resolution.

The appropriations limit is calculated by determining appropriations financed by proceeds of taxes in the 1978/79 base year and adjusting the limit each subsequent year for changes in the cost of living and population. This Appropriation Limit is the maximum limit of proceeds from taxes the City may collect or spend each year. Budgeted appropriations are limited to actual revenues if they are lower than the limit. The Appropriations Limit may be amended at any time during the fiscal year to reflect new data.

Five Year General Fund Financial Plan

The City's Five Year General Fund Financial Plan projects the fiscal health of the City's General Fund and allows management to understand the fiscal gaps that may exist between revenue projections and projected expenditure requirements. In this way, policymakers can issue directives that range from maintaining the status quo to closing the gap between revenues and expenditures. The City Manager's Budget Directive is largely based on the information drawn from the Plan data, as is the Mid-Year Budget Review.

Revenue estimates are prepared through an objective, analytical process based on year-to-date trends, prior years' data, and anticipated one-time adjustments. In all instances, the City provides reasonable revenue projections to prevent undue or unbalanced reliance on certain revenues and to ensure the ability to provide ongoing services.

Using the Five Year General Fund Financial Plan as a guide, the Finance Department issues budget targets to Departments in consultation with the Office of the City Manager, which require Departments to submit budget proposals that are constrained by the resources anticipated to be available in the upcoming fiscal year.

GUIDE TO THE BUDGET

General Fund Managed Savings Program

Management is expected to be fiscally responsible with the City's allocated resources. Moreover, as part of its daily work, management is expected to continuously identify efficiencies and methods that would lead to significant improvements in services. In times of fiscal concern, management is called upon to identify savings that might be generated by reducing expenditures in areas that will have the least impact on significant service areas. The resultant unencumbered balance is returned to the General Fund. Managed savings is shown as a negative budgeted expenditure line item in the summary sections of the Annual Budget. This effectively reduces the legal spending authority for the General Fund to a level some percentage below the total of all budget line items. The City's Management team is continually challenged throughout the year to achieve the managed savings target in the Annual Budget, and consistently does so.

Balanced Budget

The City's policy is to adopt a balanced budget, which means that planned expenditures do not exceed planned funds available. Available funds may include the use of fund balances on hand, provided that in the case of the General Fund the available fund balance does not drop below the 15 percent level required by the Economic Contingency Reserve Policy detailed below.

Economic Contingency Reserve

Since 2001, the City has annually earmarked an amount equivalent to 15 percent of the General Fund expenditure budget for an Economic Contingency Reserve. This reserve is intended to provide a cushion against fluctuations in revenue and expenses. The budget is developed in such a way as to ensure that the level of reserves is maintained at or above 15 percent.

One Time Revenues

The City's policy is to avoid the use of one time revenues to fund ongoing operations, though when considered as part of the City's Three Year General Fund Financial Plan, usage of one time revenue may be appropriate to bridge short-term gaps in available resources.

Cash/Investment Management

One of the City's highest fiscal management priorities is maintaining the value of its cash and investment assets. The City values its cash and investments in accordance with the provisions of Government and Accounting

Standards Board (GASB) Statement No. 31, "Accounting and Financial Reporting for Certain Investments and External Investment Pools (GASB 31)," which requires governmental entities, including governmental external investment pools, to report certain investments at fair value in the statement of net assets/balance sheet and recognize the corresponding change in the fair value of investments in the year in which the change occurred. Fair value is determined using published market prices.

Cash accounts for all funds are pooled for investment purposes to enhance safety and liquidity while maximizing interest earnings. Investments are stated at fair value. All highly liquid investments (including restricted assets) with a maturity of three months or less when purchased are considered cash equivalents. Cash and investments held on behalf of proprietary funds by the City Treasurer are considered highly liquid and are classified as cash equivalents for the purpose of presentations in the Statement of Cash Flows.

Debt Management

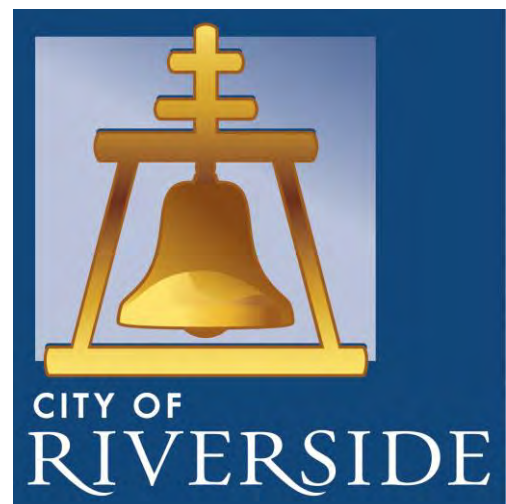

The California Constitution requires that long-term debt pledged by the full faith and credit of the City can only be approved by voter referendum. Per State of California statute, the City's debt limit is set at 15 percent of total adjusted assessed valuation of all the real and personal property within the City. Currently, the City's total General Obligation Debt is significantly below its debt limit. The City also carries bonded debt secured by specific revenue sources, and Certificates of Participation secured by interests in City assets. Specific details on the City's outstanding debt can be found in the Budget Summary Section.

Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Internal Service Funds have been established to account for and finance the uninsured risks of loss. Various insurance policies are carried by the City to cover risks of loss beyond the self-insured amounts covered by the Internal Service Funds. Using an internally developed allocation model, the cost of the various insurance coverage, whether self-insured or externally insured, are allocated to City Departments.

BUDGET SUMMARY

BUDGET SUMMARY

Overview of the Annual Budget

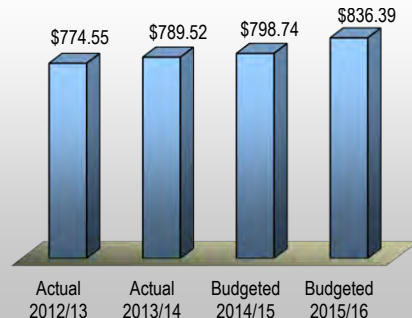

The City's total combined Annual Budget for fiscal year 2015/16 amounts to \$983,038,637. This equates to an increase of 7.48% versus the previous year's Budget, excluding interfund transfers and managed savings. The increase in the current operations, or operating, budget – the Citywide total Budget excluding debt service, capital projects, equipment purchases, charges to/from others, interfund transfers, and managed savings – is 3.43%.

Included in the \$983 million total Annual Budget amount are the City's Internal Service Funds and transfers to the General Fund from the Electric and Water Funds. These expenditures and transfers are found in the budget twice, because the revenue to the Internal Service Funds is a budgeted expenditure in the City's other funds and the interfund transfers are revenue to the General Fund that is then spent by the General Fund departments. When these two items are excluded from the total, the adjusted total Annual Budget amounts to \$908,389,967.

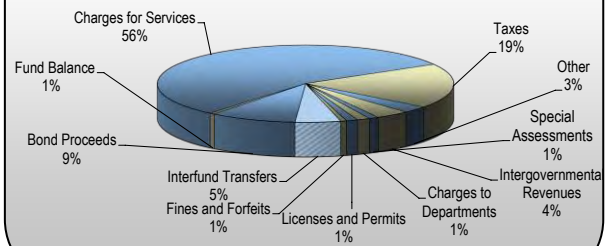

In this Section, the fund structure of the City's funds is described, significant changes between the current year's Annual Budget and the prior fiscal year are discussed, and other relevant information required to understand the Sections that follow is provided. Subsequently, each of the City's Major Funds, defined as any fund constituting more than 5.00% of the City's Annual Budget, is summarized and described. The City's major funds are:

- The General Fund
- The Electric Fund
- The Water Fund
- The Sewer Fund

BUDGET SUMMARY

Overview of the Annual Budget (Continued)

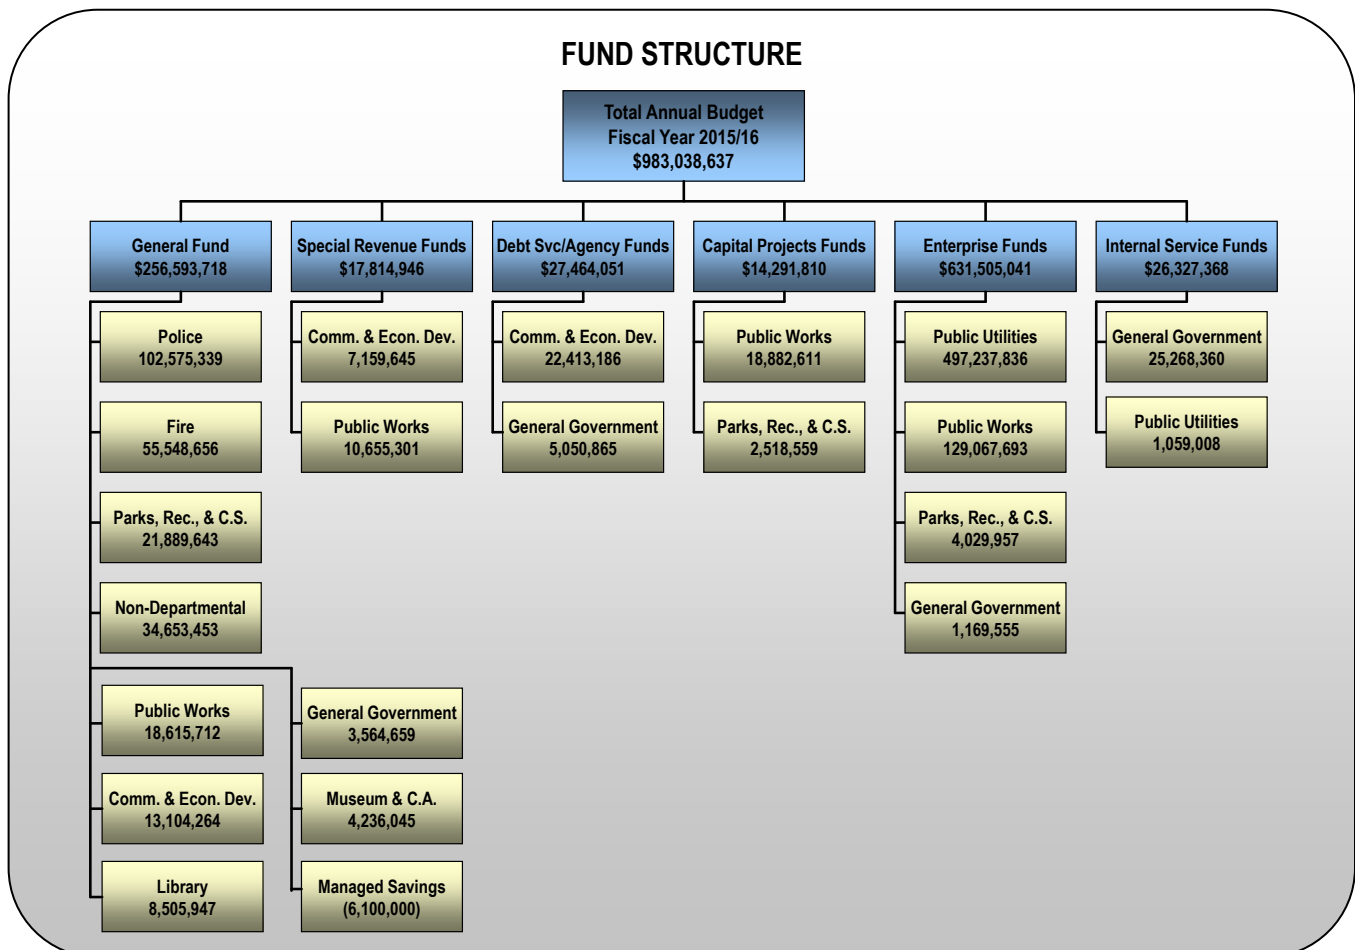

The term "General Government" is used to refer to a combination of all City Departments that are not public service Departments. These Departments include the Office of the Mayor, City Council, Office of the City Attorney, Office of the City Clerk, Office of the City Manager, and the Human Resources, Finance, General Services, and Innovation & Technology Departments.

Grant revenue and expenditures are not typically budgeted because exact amounts and dates of award are not known at the time of budget adoption. However, historical actual expenditures shown for fiscal years 2012/13 and 2013/14 include grants and other supplemental appropriations. As a result, actual amounts shown for the first two fiscal years shown in tables for the Capital Outlay & Grants and Operating Grants expenditure categories routinely and significantly exceed budgeted amounts shown in the second two fiscal years shown.

Fund Structure

The City organizes its resources into seven main fund categories: General Fund, Special Revenue Funds, Debt Service Funds, Capital Projects Funds, Enterprise Funds, Internal Service Funds, and Agency Funds. Within each category are multiple funds that each relate to a Department. Funds are categorized primarily for accounting purposes; therefore the Annual Budget typically discusses funds as they relate to Departments rather than categories. Below is a diagram illustrating the relationship between the seven fund categories and the City's various Departments. Each Department may have more than one fund within each category.

As can be seen from the following descriptions of fund categories, in many cases individual City Departments span multiple funds within a single category, or in some cases multiple categories. The reasons for this separation of activities are primarily of an accounting nature and can be reviewed in more detail in the City's CAFR.

BUDGET SUMMARY

General Fund

The General Fund is the City's primary operating fund where core City services such as police, fire, parks, recreation, and street maintenance are budgeted. The General Fund is described in more detail later in this Section.

Special Revenue Funds

Special Revenue Funds are used to account for specific monies that are legally restricted for use for a particular purpose. Funds included in this category relate to City Departments as follows.

The Community & Economic Development Department's budget includes Special Revenue Funds, which are used to account for Federal grants received from the Department of Housing and Urban Development (HUD) to be used for the development of a viable urban community by providing decent housing, a suitable living environment, and expanding economic opportunities principally for persons of low and moderate incomes.

The Public Works Department's budget includes three Special Revenue Funds. These funds include the Special Gas Tax Fund, used to account for the construction and maintenance of City streets funded by the City's share of state gasoline taxes; the Air Quality Improvement Fund, used to account for qualified air pollution reduction programs funded by the South Coast Air Quality Management District; and the National Pollution Discharge Elimination System (NPDES) Fund, used to account for storm drain maintenance and inspection required for California storm water permits funded by a special assessment district of Riverside County.

A final fund included in this category is the Successor Agency Administration Fund. Subsequent to the dissolution of the Redevelopment Agency, this fund has been used to track administrative expenditures related to the Successor Agency.

Debt Service Funds

Debt Service Funds are used to account for the accumulation of resources and payment of long-term debt obligations of the City and related entities. Funds in this category are the Debt Service Fund – General, used to account for debt service associated with certain General Fund-related debt service and the Debt Service Fund – Public Works, used to account for debt service associated with transportation projects.

Capital Projects Funds

Capital Projects Funds are used to account for the acquisition and construction of major capital facilities other than those financed by Enterprise Funds or the General Fund.

The Public Works Department's budget includes four Capital Projects Funds. These funds include the Storm Drain Fund, used to account for the acquisition, construction, and installation of storm drains in the City; the Capital Outlay Fund, used to account for the construction and installation of street and highway capital improvements; the Measure A Fund, used to account for transportation improvements funded by the 1/2% sales tax approved by Riverside County voters in 1988; and the Transportation Development Impact Fees Fund, used to account for transportation improvements funded by impact fees.

The Parks, Recreation, and Community Services Department's budget includes two Capital Projects Funds. These funds include the Local Park Special Capital Improvements Fund, used to account for capital projects to construct parks and recreation facilities funded by impact fees; and the Regional Park Special Capital Improvements Fund, used to account for capital projects to construct regional parks and recreation facilities funded by impact fees.

Enterprise Funds

Enterprise Funds are used to account for activities that are financed and operated in a manner similar to private businesses. The City's intent is that the operational and capital costs of providing these services be recovered primarily through user fees and charges.

Riverside Public Utilities is budgeted in four Enterprise Funds. These funds include the Electric Fund, used to account for expenditures of the City's electric utility; the Electric Public Benefits Charge Fund, used to account for public benefits funds related to the City's electric utility; the Water Fund, used to account for expenditures of the City's water utility; and the Water Conservation and Reclamation Program Fund, used to account for public benefits funds related to the City's water utility. The Electric and Water Funds are described in more detail later in this Section.

The Public Works Department's budget includes three Enterprise Funds. These funds include the Refuse Collection Fund, used to account for expenditures

BUDGET SUMMARY

associated with the City's refuse collection services; the Sewer Service Fund, used to account for expenditures related to the City's sewer system; and the Public Parking fund, used to account for expenditures related to the various parking facilities operated by the City principally in downtown Riverside. The Sewer Fund is described in more detail later in this Section.

The Parks, Recreation, and Community Services Department's budget includes an Enterprise Fund. The Special Transit fund is used to account for expenditures related to the City's fleet of minibuses, which are used to transport senior citizens and disabled persons.

Finally, the Riverside Airport, a Division of the General Services Department, is entirely budgeted in an Enterprise Fund.

Internal Service Funds

Internal Service Funds are used to account for the operational and capital cost of providing centralized services to City Departments. The costs of these services are recovered through the City's Cost Allocation Plan or other cost reimbursement methods. Funds in this category include the City's insurance-related funds, which are budgeted in the Human Resources Department and Finance Department. They are the Workers' Compensation Insurance Trust Fund, the Unemployment Insurance Trust Fund, and the Liability Insurance Trust Fund. Riverside Public Utilities' budget includes the Central Stores Fund, used to account for purchases; and the General Services Department's budget includes the Central Garage Fund, used to account for vehicle maintenance and motor pool functions.

Agency Funds

Agency Funds are used to account for funds that held by the City as an agent for another entity.

A number of Agency Funds, budgeted in the Finance Department, are used to account for debt service payments for the various assessment districts (ADs) and community facilities districts (CFDs) located throughout the City.

The Community & Economic Development Department's budget also includes various Agency Funds, which are used to account for financial obligations related to the Successor Agency to the City's former Redevelopment Agency.

Funds Not Budgeted

There are certain City funds that do not appear in the budget and that have not been described in this Section, either because they are no longer active or because they are never budgeted in the Annual Budget. Funds in the second category include the Capital Projects Funds related to the City's assessment districts and CFDs, certain Public Works Capital Projects Funds, and certain Capital Projects Funds used to account for expenditures associated with bond or certificate of participation issues completed mid-year in prior budget years. Appropriations were or are made to these funds on an as-needed basis through supplemental appropriations approved by the City Council during the budget year.

Summary of Significant Budget Adjustments

Detailed listings by department of significant budget adjustments can be found in Section I of the Annual Budget. This summary is intended as a high-level overview of significant structural changes to the budget or organization. Please refer to Section I for a detailed discussion of specific budgetary adjustments at the department level.

Fund Reorganizations

Funds 751, 753, and 757 have been inactivated due to the maturity of related debt for the Orangecrest and Highlander Community Facilities Districts. These funds remain in various schedules with prior year activity included for historical purposes. There were no other material changes to the City's fund structure.

Department Reorganizations

During fiscal year 2014/15 or effective at the beginning of fiscal year 2015/16, the following reorganizations occurred throughout the City. A reorganization can be defined as the transfer of a particular function from one department to another department or one fund to another fund that has no impact on the net Annual Budget.

1. The Economic Development Division of the Office of the City Manager was split and transferred to the Economic Development Division of the Community and Economic Development Department and the Communications Division of the Office of the City Manager.
2. The Intergovernmental Relations Division of the Office of the City Manager was merged into the

BUDGET SUMMARY

- Communications Division of the Office of the City Manager.
3. The Broadcasting Division of the General Services Department was merged into the Communications Division of the Office of the City Manager.
 4. The various General Fund Divisions of the Human Resources Division were consolidated into a single Division.

Programmatic and Staffing Changes

Citywide staffing increased by 41.94 full time equivalents. Additional staffing authorizations were kept to a minimum; however, certain additional staffing requests were approved, the majority of which facilitate addressing identified City Council priorities. Each department's summary in Section I outlines the reasons for the increases or decreases in personnel.

The non-personnel components of the budget were increased primarily to address identified City Council priorities as articulated in the City Manager's Budget Message. Each department's summary in Section I outlines the reasons for significant increases or decreases in expenditures.

Interfund Transfers

Throughout the Annual Budget reference is made to interfund transfers. An interfund transfer is a transfer of funds from one City fund to another City fund. These transfers appear as a resource in the fund receiving the transfer and as a budget requirement in the fund that is sending the transfer. While this does result in the revenue and expenditure being "double counted" in the Annual Budget, this presentation provides a truer picture of the actual expenditures for the City's Enterprise Funds, from which the transferred funds originate. Transfers for fiscal year 2015/16 are budgeted at \$39,330,300 from the Electric Fund to the General Fund and \$6,503,800 from the Water Fund to the General Fund. Both transfers are made as authorized by City Charter Section 1204(f) and Section 1204.1. Additionally, a water settlement transfer related to the voter-approved passage of Measure A in 2013 (which supported the continued transfer of water utility funds to the General Fund) results in an operating transfer of \$2,487,202 from the General Fund to the Water Fund.

Outstanding Debt

As discussed in the City's Debt Management Policy, found in the Guide to the Budget Section, the City's legal debt limit is set by State of California Statute at 15% of the City's adjusted assessed valuation. Of the \$1.93 billion in debt currently outstanding, only \$13.4 million is supported by tax revenues (the Measure G Fire Facility Projects Bonds) and is therefore subject to the legal debt limit. The City's assessed valuation for the current fiscal year is \$17.9 billion, resulting in a debt limit of \$670.0 million and a current ratio of debt to assessed value of 2.00%. The remaining outstanding debt detailed in the table on the following page is supported by other specific revenue streams and is not subject to the legal debt limit.

During fiscal year 2014/15, four debt transactions were completed. The General Fund entered into a capital lease financing agreement totaling \$4.45 million to purchase public safety vehicles and computer hardware and completed a routine renewal of the City's outstanding pension obligation notes, which amortize following the completion of amortization of the City's 2005 pension obligation bonds. Additionally, the Sewer Fund issued revenue bonds totaling \$200.03 million to fund the continuation of the Sewer Fund's capital improvement program. Lastly, the Redevelopment Successor Agency issued refunding bonds in the amount of \$62.98 million, which replaced existing outstanding debt and reduced ongoing interest costs.

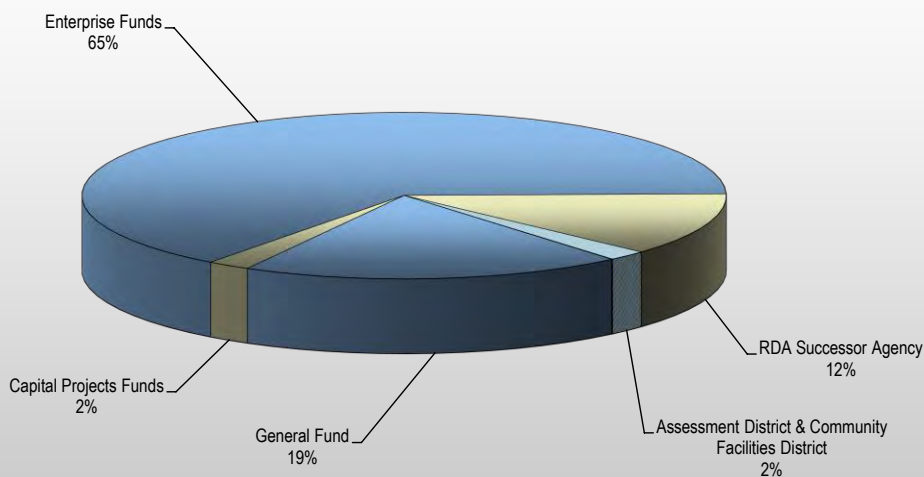

Bond proceeds totaling \$92.34 million are included in the Electric Fund, Water Fund, and Sewer Fund portions of the Annual Budget that relate to various debt issues. These funds are reflected as a resource in the various revenue tables but are not included in revenue to avoid skewing historical comparisons, as bond proceeds are not included in historical revenues.

BUDGET SUMMARY – GENERAL FUND

Overview of the General Fund

The City's General Fund budget for fiscal year 2015/16 amounts to \$256,593,718, including managed savings. This equates to an increase of 6.70% versus the previous year's Annual Budget. The increase in the current operations budget is 6.46%.

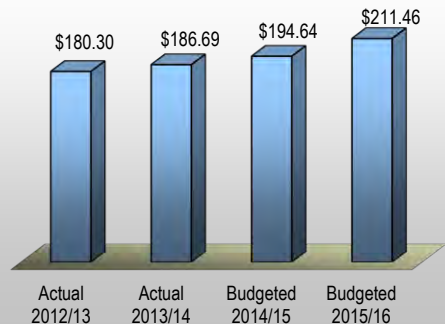

Core city services such as police, fire, parks, recreation, and street maintenance are budgeted in the General Fund. Therefore, the General Fund's growth can be more closely tied to the growth of the City and the economic activity within the City than the Annual Budget as a whole. The General Fund budget increase this year reflects the current economic conditions while cautiously increasing the City's investment in public safety, transportation, economic development, and other critical needs as outlined in the City Manager's Budget Message.

General Fund Revenue Sources

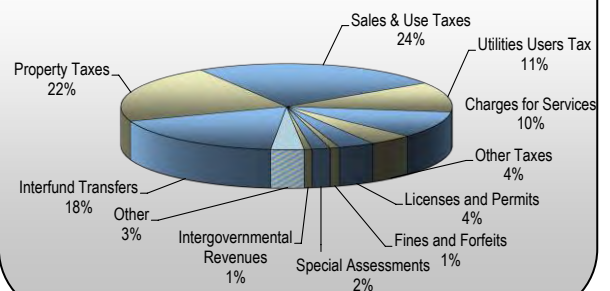

The General Fund is supported by a diverse set of revenue sources. Included are tax revenues, fees charged for services, licenses and permits, and other more minor sources. In the pages that follow, each of the major General Fund revenue sources is described with information about historical trends, current budgeted revenues, and forecast methodology.

An important part of the overall General Fund financial picture is interfund transfers. The General Fund will receive \$46.1 million from the Electric and Water Funds, which is a transfer of certain operating revenues as authorized by the City Charter.

BUDGET SUMMARY – GENERAL FUND

Sales and Use Taxes

Sales and Use Taxes are imposed on retail transactions, usually at the point of sale. They are collected and remitted to the California State Board of Equalization, which administers the program. In Riverside County, Sales Tax is assessed at the rate of 8.00% of the transaction value. Included in this rate are one percentage point for local sales tax, 0.5 percentage point for Measure "A" transportation programs, and 0.5 percentage point for Local Public Safety Augmentation (LPSA). The Board of Equalization distributes Sales Tax monies on the basis of point of sale data, while Use Tax monies are allocated from various dollar pools at County or State levels based on taxable sales for the defined areas. The LPSA monies are distributed via the County of Riverside to cities based on their proportionate share of property tax losses due to the State's Educational Revenue Augmentation Fund (ERAF) shifts.

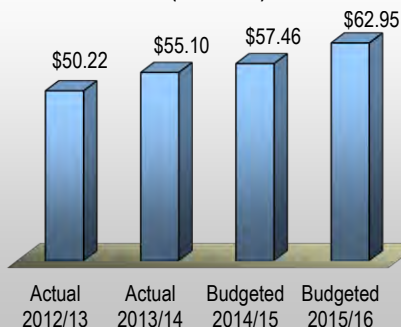

Sales and Use Tax revenues are one of the two largest revenue sources for the General Fund, representing 29.77% of total estimated revenues in fiscal year 2015/16. Following the downturn in the economy beginning in 2007, sales tax revenues declined sharply. Recent years have seen a steadily increasing trend, which is anticipated to continue. For fiscal year 2015/16, budgeted Sales and Use Tax revenues are estimated to increase from the prior year's budgeted revenues based on forecast data prepared by outside expert consultants and validated by the City staff. The budgeted amount of \$62.95 million represents an increase of 4.28%.

Property Taxes

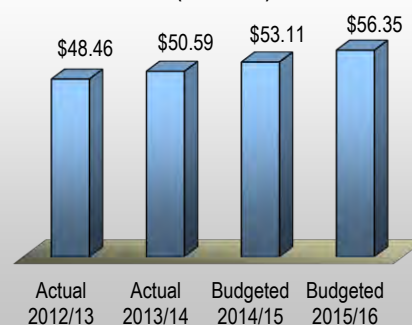

Property taxes are levied at one percent of assessed value, as established in 1978 by California's Proposition 13. The County of Riverside administers the property tax program and the City of Riverside receives approximately 12% of the receipts generated by property taxes levied within the City limits. The balance of the assessment received is allocated between various schools, Riverside County, and the Successor Agency.

Property Tax revenues are one of the two largest revenue sources for the General Fund, representing 26.65% of total estimated revenues in fiscal year 2015/16. Property Tax revenues fell slightly during the recession as a result of the depressed housing market in Southern California. Due to the City's older housing stock, new retail and commercial construction, annexations, and higher assessed values for properties as they are sold (Proposition 13 also limits annual increases in assessed value so that properties are often assessed considerably below actual value until resold), decreases were not as high as those seen in surrounding communities. In recent years, slow but steady growth has been experienced. For fiscal year 2015/16, budgeted Property Tax revenues are estimated to increase versus the previous fiscal year based on forecast data prepared by outside expert consultants and validated by City staff. The budgeted amount of \$56.35 million represents an increase of 6.10%.

Utility Users Taxes

Utility Users Taxes are imposed on telephone, electrical, gas, water, and cable television services within the City limits at a rate of 6.5 percent of taxable services.

Utility Users Tax revenues represent 13.75% of total estimated General Fund revenues in fiscal year 2015/16. These revenues are largely predictable and increase at a steady and measurable rate as the customer base of the City's utilities increases. For fiscal year 2015/16, budgeted Utility Users Tax revenues have also been adjusted to reflect growing competition in the cable and satellite television market. The budgeted amount of \$29.08 million represents an increase of 3.30%, which is based on staff's internal forecasts and the forecast provided by an external export consultant.

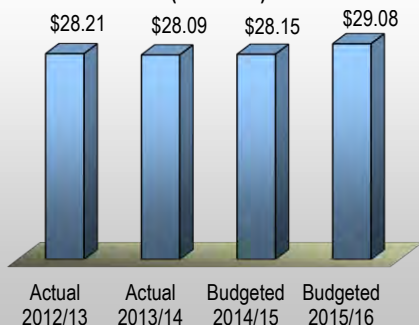

Charges for Services

The City has developed service fees that are designed to recover a specified portion of the service cost. This is referred to as the recovery level and is established by the City Council. The primary revenue source in this category is fees for processing various development-related applications.

Charges for Services revenue represents 11.68% of total estimated General Fund revenues in fiscal year 2015/16. Revenue from many Charges for Services remains relatively steady and increases each year with the growth in the City's population and inflation. Certain Charges for Services, however, are tied to the construction industry and are thus more closely tied to current economic trends. For fiscal year 2015/16, budgeted Charges for Services are estimated to increase primarily as a result of an accounting change to the City's contract for operation of the Riverside Convention Center. This change now requires recording the revenue and expenditures associated with operating the facility in the General Fund. The budgeted amount of \$25.72 million represents an increase of 46.32%.

Licenses and Permits

Licenses and permits generate revenue from a wide variety of activity, ranging from business and animal licenses, to building-related permits. The most significant revenue sources are Business Licenses and Building Permit Fees. Business Licenses are required for all establishments conducting business within the City limits and are renewed annually. License fees are based on gross sales, the type of business, and the number of employees. Building Permits are issued by the City and required for various types of construction within the City limits.

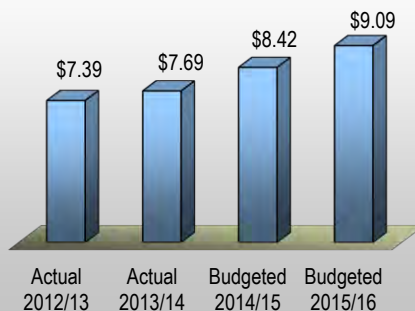

Licenses and Permits revenue represents 4.30% of total estimated General Fund revenues in fiscal year 2015/16. Revenue from some Licenses and Permits remains relatively steady and increases each year with the growth in the City's population and inflation. Other Licenses and Permits, however, are tied to the construction industry and are thus more closely tied to current economic trends. For fiscal year 2015/16, budgeted Licenses and Permits revenues are estimated to increase primarily as a result of continued increases in development activity. The budgeted amount of \$9.09 million represents an increase of 7.98%.

Fines and Forfeits

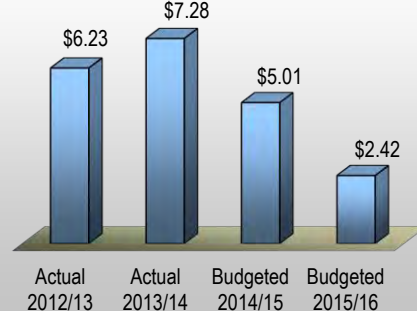

Fines and Forfeits revenue is generated primarily by fines paid to the City for violations of the municipal code or for traffic violations.

Fines and Forfeits revenue represents 1.14% of total estimated General Fund revenues in fiscal year 2015/16. Revenue from most Fines & Forfeits sources remains relatively steady and increases each year with the growth in the City's population and inflation. With the implementation mid-year in fiscal year 2006/07 of the City's Photo Red Light Enforcement Program, however, there was a significant increase in Fines and Forfeits revenue for fiscal year 2007/08. These revenues were designated for traffic safety-related expenditures and offset expenditures budgeted in the Non Departmental budget for that purpose. This program was terminated during fiscal year 2013/14, and so for fiscal year 2014/15, budgeted Fines and Forfeits revenues are estimated to decrease. The budgeted amount of \$2.42 million represents a decrease of 51.69%.

BUDGET SUMMARY – ELECTRIC FUND

Overview of the Electric Fund

The City's Electric Fund budget for fiscal year 2015/16 amounts to \$395,801,511. This equates to an increase of 0.27% versus the previous year's Annual Budget. This increase is primarily attributable to slightly higher personnel costs, offset by slightly lower capital projects expenditures. The increase in the current operations budget is 1.31%.

The operating and capital expenditures of the Electric Utility component of Riverside Public Utilities are budgeted in the Electric Fund. In addition to offering lower residential rates than its competitors, Riverside Public Utilities also bolsters economic development within the City by offering discounted commercial rates to large power users and high tech companies. Expenditures in the Electric Fund range from personnel operating the City's power plants to capital expenditures to construct new transmission lines as the City grows.

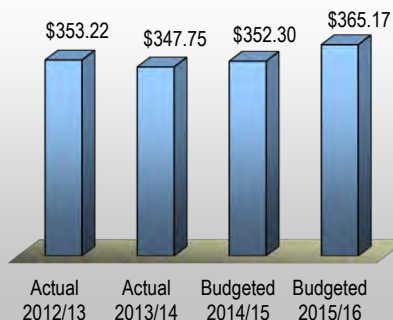

Electric Fund Revenue Sources

The Electric Fund is supported almost exclusively by Charges for Services. These charges include charges for residential and commercial electricity usage by the Utility's customers as well as other miscellaneous items. As an Enterprise Fund, capital and operational cost are recovered through charges for services. Rate increases may be necessary due to increased costs or inflation.

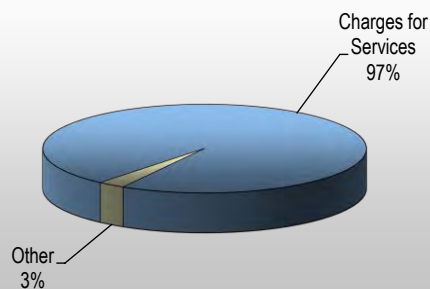

Growth in Electric Fund Charges for Services is primarily tied to growth in the customer base of the Utility, rates, and/or electricity demand. Riverside Public Utilities prepares revenue projections based upon an analysis of various statistics and trends. The results of this analysis are included in the Annual Budget. The budgeted amount of \$353.82 million represents an increase of 3.26%.

An important part of the overall Electric Fund financial picture is interfund transfers. The Electric Fund will transfer \$39.33 million out to the General Fund, which is a transfer of certain operating revenues as authorized by the City Charter. These funds are used by the City to augment the provisioning of core city services such as police, fire, parks, and street maintenance.

BUDGET SUMMARY – WATER FUND

Overview of the Water Fund

The City's Water Fund budget for fiscal year 2015/16 amounts to \$85,012,056. This equates to an increase of 3.24% from the previous year's Annual Budget. This increase is primarily attributable to an increase in capital expenditures versus the prior year's budget. The decrease in the current operations budget is 0.18%.

The operating and capital expenditures of the Water Utility component of Riverside Public Utilities are budgeted in the Water Fund. Expenditures in the Water Fund range from personnel maintaining water lines to capital expenditures to construct new water lines as the City grows.

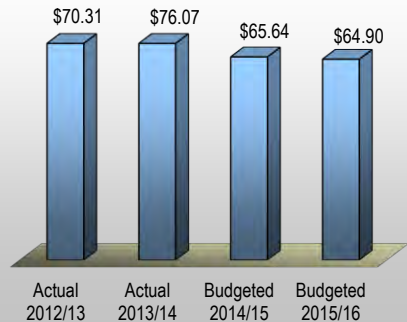

Water Fund Revenue Sources

The Water Fund is supported almost exclusively by Charges for Services. These charges include residential and commercial water usage by the Utility's customers as well as other miscellaneous items. As an Enterprise Fund, capital and operational cost are recovered through charges for services. Rate increases may be necessary due to increased costs or inflation.

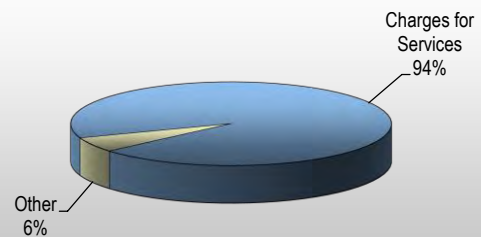

Growth in Water Fund Charges for Services is primarily tied to growth in the customer base of the Utility, rates, and/or water demand. Riverside Public Utilities prepares revenue projections based upon an analysis of various statistics and trends. The results of this analysis are included in the Annual Budget. The budgeted amount of \$61.14 million represents a decrease of 3.38%. This decrease is the result of conservation due to the ongoing drought.

An important part of the overall Water Fund financial picture is interfund transfers. The Water Fund will transfer \$6.50 million out to the General Fund, which is a transfer of certain operating revenues as authorized by the City Charter. These funds are used by the City to augment the provisioning of core city services such as police, fire, parks, and street maintenance.

BUDGET SUMMARY – SEWER FUND

Overview of the Sewer Fund

The City's Sewer Fund budget for fiscal year 2015/16 amounts to \$99,371,080. This equates to an increase of 71.21% versus the previous year's Annual Budget. The increase is primarily attributable to an increase in capital projects budgeted in fiscal year 2015/16. The increase in the current operations budget is 3.03%.

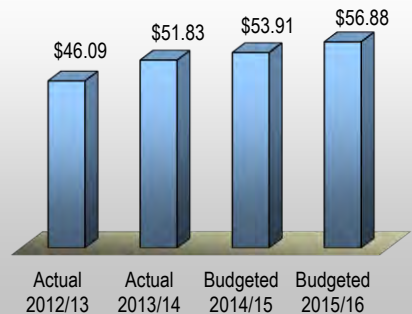

The operating and capital expenditures related to the City's sewer system and treatment plant are budgeted in the Sewer Fund. Expenditures in the Sewer Funds include the cost of constructing and maintaining sewer lines and facilities and well as the operational costs associated with the City's Water Quality Control Plant, which serves the residential and commercial sewer needs within the City as well as the Jurupa, Rubidoux, and Edgemont Community Service Districts.

Sewer Funds Revenue Sources

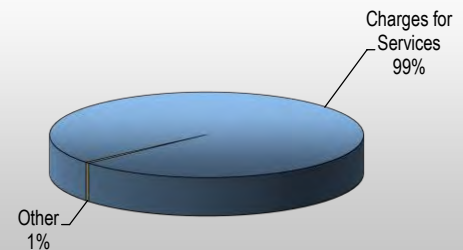

The Sewer Fund is supported almost exclusively by Charges for Services. These charges include residential and commercial sewer usage charges and other miscellaneous items. As an Enterprise Fund, capital and operational cost are recovered through charges for services. Rate increases may be necessary due to increased costs or inflation.

Growth in Sewer Fund Charges for Services is primarily tied to growth in the customer base, rates, and/or demand. The Public Works Department prepares revenue projections based upon an analysis of various statistics and trends. The results of this analysis are included in the Annual Budget. The budgeted amount of \$56.16 million represents an increase of 4.66% and reflects an ongoing multi-year rate increase.

SUMMARY OF SIGNIFICANT BUDGET ADJUSTMENTS – PRIOR YEAR TO CURRENT YEAR

Personnel Adjustments

1. Personnel increases in the Planning and Building and Safety Divisions are attributable to anticipated user fee revenue increases, which will fund positions to improve customer service and decrease processing times.
2. The Economic Development Division of the City Manager's Office was transferred, in part, to the Community Development Department as part of an organizational restructuring effort.
3. Additional positions were funded in the Housing Authority and Housing & Neighborhoods Division to enhance program support.

Other Adjustments

1. The non-personnel budget increased primarily due to the funding of the Citrus and Beyond Conference in the base budget and the transfer of the Economic Development Division.
2. The charges to other budget increased as a result of the transfer of the Economic Development Division, which is allocated via the City's cost allocation plan.

SUMMARY OF SIGNIFICANT BUDGET ADJUSTMENTS – PRIOR YEAR TO CURRENT YEAR

Personnel Adjustments

1. The increase in the personnel services budget is primarily attributable to adding two positions in the Purchasing & Risk Management Division, which are offset by a reduction in budgeted non-personnel expenses for consultants.

Other Adjustments

1. The debt service budget is decreasing due to the maturity of several bond issues related to Community Facilities Districts.

FIRE DEPARTMENT

SERVICES PROVIDED BY DEPARTMENT

The Fire Department is divided into three functions: 1) Administration, which includes the Prevention and Special Services Divisions; 2) Operations, which includes the Training Division; and 3) Urban Search & Rescue. Major facilities include 14 fire stations strategically placed throughout the City and a fire training tower used in the advanced training of the City's employees. The Citywide Emergency Operations Center is located at the training facility and is operated and maintained by the Fire Department.

Special programs within the Fire Department include the Arson Investigation Team; F.R.I.E.N.D.S., a juvenile arson intervention program; Advanced Life Support provided by the Paramedic Program; Emergency Services; Hazardous Materials Team; and the Certified Unified Program Agency (CUPA) program to regulate hazardous materials in cooperation with the County of Riverside. The Fire Department responds to more than 28,000 calls for service annually. The Operations Division staffs and maintains a Federal Urban Search and Rescue (USAR) Team (California Task Force-6) that provides highly trained rescue personnel and equipment to disaster incidents anywhere in the nation. This is one of eight specialized rescue teams strategically located throughout California.

The Fire Department also stores and operates two State of California Office of Emergency Services fire units (one structure unit and one wildland unit), which are deployed to assist other communities requesting aid.

SUMMARY OF SIGNIFICANT BUDGET ADJUSTMENTS – PRIOR YEAR TO CURRENT YEAR

Personnel Adjustments

1. The increase in the personnel services budget is attributable to higher pension costs as well as additional resources provided to address underfunded accrued leave time payouts and minimum staffing backfill costs.

Other Adjustments

1. The increase in the non-personnel budget is primarily attributable to additional costs associated with electric service at Fire Station #1, additional funds provided for safety clothing, and additional funds provided for data plans for new field mobile devices.
2. The increase in the charges to others budget relates to internal salary redistributions within the department related to special programs, which also accounts for a portion of the increase in the charges from others budget.

GENERAL SERVICES DEPARTMENT

SERVICES PROVIDED BY DEPARTMENT

The General Services Department is responsible for providing support services to all City departments and includes the functions of Administration, Property Management, Building Services, Publishing Services, Capital Projects, Airport, and Fleet Management. The cost of these services other than the Airport, which is fully supported by rental income and fees, is allocated to user departments through the cost allocation plan or the Central Garage Fund.

The Administration Division is responsible for providing leadership, administrative support, and fiscal management to enable the Divisions of the Department to achieve their goals.

The Building Services Division supports over 133 buildings and facilities located throughout the City through corrective and preventative maintenance programs as well as providing new facility design, construction specifications, and project management services for both new construction and existing building improvements.

The Fleet Management Division provides maintenance and repair services for the City's fleet of vehicles and equipment, writes specifications, and acquires new and replacement vehicles and equipment.

The Capital Projects Division facilitates new construction and rehabilitation of public development projects in various areas of the city.

The Property Management Division represents the City in the negotiation of leases and property management services

The Publishing Services Division provides printing services to departments and delivers mail throughout the City.

The Riverside Airport, comprised of over 525 acres, operates and maintains a safe, reliable, and efficient Airport, continues an aggressive Capital Improvement Program, and promotes aviation and all aeronautical activities, facilitating a business-friendly environment, while providing outstanding customer service.

GENERAL SERVICES DEPARTMENT

DEPARTMENT GOALS

1. To research and develop an environmentally friendly approach to building maintenance at key City facilities, such as energy efficient lighting, use of recycled products, and low flush plumbing.
2. To research and develop environmentally friendly construction practices that implement supplemental energy sources, such as cool roofs, voltaic panels, water reclamation systems, and natural grading and bio swales for ground water clarification.
3. To continue promoting the need for air quality improvement and providing clean alternative fuel sources for the citizens and business of Riverside.
4. To grow the Airport operations by providing high quality customer services in world class airport facilities that are safe, well managed and well maintained.

HUMAN RESOURCES DEPARTMENT

SERVICES PROVIDED BY DEPARTMENT

The Human Resources Department balances service and regulatory requirements with responsibilities in critical areas including Benefits, Classification and Compensation, Employee and Employer Relations, Records Management and Employee Transactions, Recruitment and Selection, Training and Development, Municipal Volunteer Program, and Special Youth Job Training Programs. Our goal is to provide a safe and discriminatory free work environment for all – the workforce, prospective employees, and the community. Equally important, the Human Resources Department is to partner with Departments in meeting their multiple personnel, staffing, and related needs.

We are committed to providing quality service to our internal customers in order that they can fulfill their goals and objectives to the City Council and citizens of Riverside. We are equally committed to provide the workforce with training in order that they can meet the contemporary requirements of their respective positions and develop into the best employees they can possibly be. We assure employees an objective Human Resources Department to assist them in a multitude of personnel assistance and guidance needs they may have during their career with the City.

INNOVATION AND TECHNOLOGY DEPARTMENT

SERVICES PROVIDED BY DEPARTMENT

The Administration Division is responsible for managing the Innovation and Technology Department operations. This includes providing departments with innovative solutions to improve economic development and/or departmental efficiencies. This team establishes long-term strategic technology direction, facilitates project ranking through the Executive Technology Committee (ETC), oversees all approved projects, releases RFPs, evaluates proposals, manages the departmental budget, establishes policies and procedures, and sets customer service standards.

The Network Services Division is responsible for management of the City's local and municipal area networks, including copper, fiber, and wireless; video surveillance; and telecommunication services. The group also assures adequate security measures are in place to protect the City's network from unauthorized access.

The Systems and Operations Services Division is responsible for system administration, storage administration, and operation services including email. The Division focuses on system design, disaster preparedness, conformance to standards, and maximizing system performance. Division staff also ensures that all jobs are scheduled and executed correctly and that output is delivered in a timely manner.

The Application Services Division is responsible for selection and integration of new commercial-off-the-shelf (COTS) solutions, maintenance and upgrade of existing COTS solutions; analysis of existing business processes, proposing improved business processes, and developing and maintaining the City's Internet and Intranet web pages, and mobile applications. The Division is responsible for providing Geographic Information System (GIS) services including the generation of complex maps for the City Council, management, and staff. Division staff also focuses on application integration of all enterprise systems.

The Client Services Division is responsible for help desk and desktop services. The help desk receives problem and service calls, tracks and routes the calls to appropriate IT staff for timely resolution. The group supports replacement and installation of new desktop and laptop computers and standard desktop applications, such as Microsoft Office and Outlook.

SUMMARY OF SIGNIFICANT BUDGET ADJUSTMENTS – PRIOR YEAR TO CURRENT YEAR

Personnel Adjustments

1. The increase in the personnel services budget is attributable to the addition of various management positions in lieu of equivalent contract staff under the City's information technology outsourcing contract.

Other Adjustments

1. The decrease in the non-personnel budget is attributable to a reduction in the City's information technology outsourcing contract due to the addition of City staff to provide the equivalent services.

MUSEUM & CULTURAL AFFAIRS DEPARTMENT

SERVICES PROVIDED BY DEPARTMENT

The Museum & Cultural Affairs Department provides stewardship of two National Register Historic buildings: the Main Museum (a downtown Italianate facility used to showcase the City's collections) and Heritage House (the Queen Anne style home of wealthy citrus widow Catharine Bettner located on Magnolia Avenue). Moreover, the Museum is steward of the National Historic Landmark Harada House, a premier symbol of the advancement of civil rights under the 14th Amendment to the Constitution of the United States. The Department is, most importantly, caretaker for a significant artifact collection of more than 80,000 objects representing the cultural & natural history of the region. The Department actively partners with the community and outside agencies & organizations to supply a wide array of services to the region including, but not limited to:

1. **A Free Public Museum:** featuring informative, aesthetic and continually changing exhibits that explore the rich heritage and exciting contemporary cultural mosaic of this region.
2. **Focus on Kidz:** a diverse offering of curriculum based school programs and activities for families relating to the Museum's exhibitions, including our newest program "Discovery Days" a weekly nature-study workshop for preschoolers & their parents.
3. **Riverside Metropolitan Museum's MYDP:** (Museum Youth Diversity Project): a project where high school students develop and facilitate workshops for elementary students and community organizations on issues of diversity and tolerance.
4. **Nature Lab:** an informal, hands-on, natural science learning center housing the only live-animal museum exhibit in the city.
5. **Harada House:** a National Historic Landmark embodying a major era in the advancement of civil rights and citizenship.
6. **Heritage House:** a National Register Site (1891) restored Victorian orange grower's estate home, located on Magnolia Ave.
7. **The Riverside Museum Associates (RMA) Multicultural Council:** A dynamic group that fosters the City's "Building a More Inclusive Community" philosophy and organizes the annual Family Village Festival (in its 10th year), which showcases the various cultures in the Riverside community.
8. **Museum Website:** featuring web access to Museum collections, online exhibits, and related topics of interest for teachers and Internet visitors.
9. **Significant Archival Reference Services** in the fields of Local History, Anthropology, Natural History, and the Life Science, Earth Science, and Botany of the region.
10. **An Increased Role as a "Cultural Anchor" in Riverside:** with continued collaborative leadership for community-based, citywide cultural programming efforts such as: ARTS WALK; Family Fun Day on First Sundays; Festival of Lights; and Day of the Dead.
11. **Museum Special Events** such as our Family Village Festival; Heritage House Chinese Moon Festival; "Music in the Gardens" event; Discovery Days; and exhibition receptions.
12. **Active Partner with Local Academic, Civic and Governmental Institutions:** including Smithsonian Affiliates Program; partnerships with UCR's and RCC's Federal Work-Study program; Riverside and Alvorad Unified School Districts; The Inland Orange Conservancy; Riverside County Department of Public Health; Division 9 Gallery; Sherman Indian High School; California Council for the Humanities; and the Riverside Arts Council.

MUSEUM & CULTURAL AFFAIRS DEPARTMENT

DEPARTMENT GOALS

1. To continue to be a nationally and regionally recognized authority based on our collections, stewardship, areas of expertise, and developing skills & strengths.
2. To complete the Museum reaccreditation process through the American Alliance of Museums (AAM).
3. To develop a secure financial structure and stewardship plan that takes into account the Department's vision and the public's evolving needs.
4. To provide quality visitor experiences, facilities, events, and services to strengthen the City's reputation as the City of Arts & Innovation.
5. To ensure the Department's organizational culture, structure, staff, board, and volunteers are aligned and integrated to achieve our strategic priorities.

SUMMARY OF SIGNIFICANT BUDGET ADJUSTMENTS – PRIOR YEAR TO CURRENT YEAR

Personnel Adjustments

1. The increase in the personnel services budget is primarily attributable to salary adjustments for department employees.

Other Adjustments

1. The increase in the non-personnel budget is primarily attributable to an increase in liability insurance costs.
2. The decreases in the charges from others and charges to others budgets are primarily the result of decreased general fund allocation charges.

OFFICE OF THE CITY MANAGER

SERVICES PROVIDED BY DEPARTMENT

The Office of the City Manager is responsible for carrying out the policies and goals formulated by the City Council and required by the City Charter through the provision of administrative leadership of the entire City organization. Functions include producing alternative solutions to community problems for City Council consideration, providing timely and accurate information regarding the City and its services to the public, and providing administrative direction to City Departments.

The Internal Audit Division provides the City Manager and Department Directors with independent, objective and useful information regarding the services and functions of the City.

The Communications Division is responsible for ensuring the City Council's legislative priorities are communicated to community, state, and federal partners and stakeholders, leading the City's communications and public relations efforts, and operating the City's GTV television station.

The Community Police Review Commission independently reviews citizen complaint investigations, recommends changes in the Riverside Police Department policies, conducts on-going public outreach and when deemed appropriate, conducts independent investigations of citizen complaints.

SUMMARY OF SIGNIFICANT BUDGET ADJUSTMENTS – PRIOR YEAR TO CURRENT YEAR

Personnel Adjustments

1. The increase in the personnel services budget is primarily attributable to the addition of one Assistant City Manager position and related support staff.

Other Adjustments

1. The decrease in the non-personnel budget is primarily attributable to the transfer of the Economic Development Division to the Community & Economic Development Department.
2. The increase in the special projects budget is primarily attributable to the transfer of the PEG funds budget related to the City's GTV television channel from the General Services Department.

OFFICE OF THE MAYOR

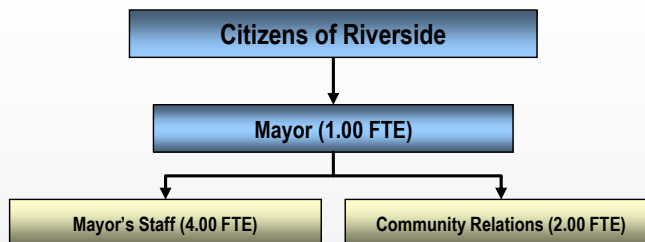

MISSION STATEMENT

The Office of the Mayor carries out a threefold mission. One, it provides leadership and works with the City Council in developing public policy that furthers the vision, and the reality, of Riverside as an exciting, diverse, urban, and successful city. Two, the Office of the Mayor provides leadership and support to residents by representing their interests within the City organization, bringing them to the table to work together on the City's issues and opportunities and communicating with them towards the shared vision. Three, the Mayor acts as the chief spokesperson and ambassador.

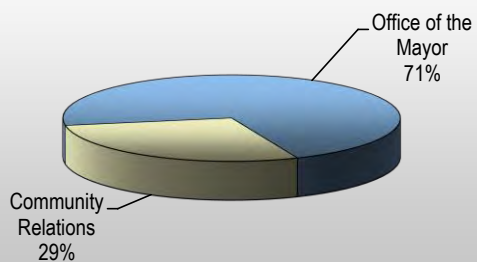

OFFICE OF THE MAYOR

SERVICES PROVIDED BY DEPARTMENT

The Office of the Mayor provides services related to each of its main mission areas. The first is to provide leadership and work with the City Council to develop public policy. The Mayor's Office conducts best practices analyses, consults with the community, and proposes policy calls for adoption by the City Council and implementation by the City Manager. These policy proposals range widely, including neighborhood initiatives, clean and green projects, and high technology advances. The second is to take the lead in supporting residents and bringing them to the table to work together. The Mayor regularly forms working groups and taskforces to examine and make recommendations. And, the third is to act as the chief spokesperson and ambassador for the City at the local, region, state, and federal levels. The Mayor participates in leadership roles on Boards and Commissions including the California Air Resources Board, League of California Cities, National League of Cities, Southern California Association of Governments, and South Coast Air Quality Management District, to ensure that we have a strong intergovernmental voice in shaping the future of our City.

HISTORICAL PERSONNEL

PARKS, RECREATION, AND COMMUNITY SERVICES DEPARTMENT

SERVICES PROVIDED BY DEPARTMENT

The Administrative Division is responsible for fiscal and personnel management. This Division is also responsible for grant administration and clerical support services, including the preparation of the Parks, Recreation, and Community Services Commission agenda and minutes. The Planning and Design program is responsible for the planning, design, and construction of an assortment of capital improvement projects, as well as providing Advance Planning and Plan Check services for the City's map review, building permit, and planning processes.

The Recreation Division and the Community Services Division provide opportunities for residents of all ages and abilities to enjoy a wide variety of recreation and human services programs. These programs offer opportunities for adult and youth team sports and activities; provide safe, wholesome, fun programs and facilities for family activities; strengthen the community image and create a sense of place; provide opportunities for physical exercise and social and emotional development; make available after school programs or programs for youth at risk; promote cultural unity and diversity; and offer service to the elderly, persons with disabilities, and low income populations. The recreation and community services programs are offered through the 11 community centers, 2 social service centers, 1 youth opportunity center, 7 pools, contract classes, mobile recreation programs, 24 after school program sites, and over 23 community-wide special events and 5 Citywide special events annually. Additionally, the Community Services Division oversees the Special Transportation Program, which operates and maintains a fleet of 25 minibuses. It is anticipated that this dial-a-ride service will transport over 15,000 senior and handicapped passengers per month.

The Parks Division is responsible for the maintenance of parks, facilities, and sports fields. In addition, the Division manages approximately 26 contracts totaling approximately \$3 million including swimming pools, janitorial services, park security services, backflow device testing and repair, landscape maintenance, and turf maintenance. The Division also manages the Parks volunteer program, provides special event support, and manages the parks tree maintenance program. The parks system is comprised of 59 parks totaling approximately 2,900 acres. Riverside's urban forest is home to over 50,000 park trees. This Division is also responsible for the development and maintenance of trails throughout the City. The Parks Division also provides skilled maintenance for the Department's infrastructure in the trades of carpentry, masonry, electrical, plumbing and metal fabrication, tractor operation, and irrigation system maintenance.

SUMMARY OF SIGNIFICANT BUDGET ADJUSTMENTS – PRIOR YEAR TO CURRENT YEAR

Personnel Adjustments

1. The increase in the personnel services budget is attributable to the addition of various positions related to delivering enhanced services through various programs.

Other Adjustments

1. The increase in the debt service budget and the decrease in the charges to others budget is the result of the initiation of principal amortization for one of two loans outstanding in the Local Park Impact Fees Fund, which necessitated a reduction in the charge from the General Fund to the Local Park Impact Fees Fund of debt service associated with Riverside Renaissance projects.

POLICE DEPARTMENT

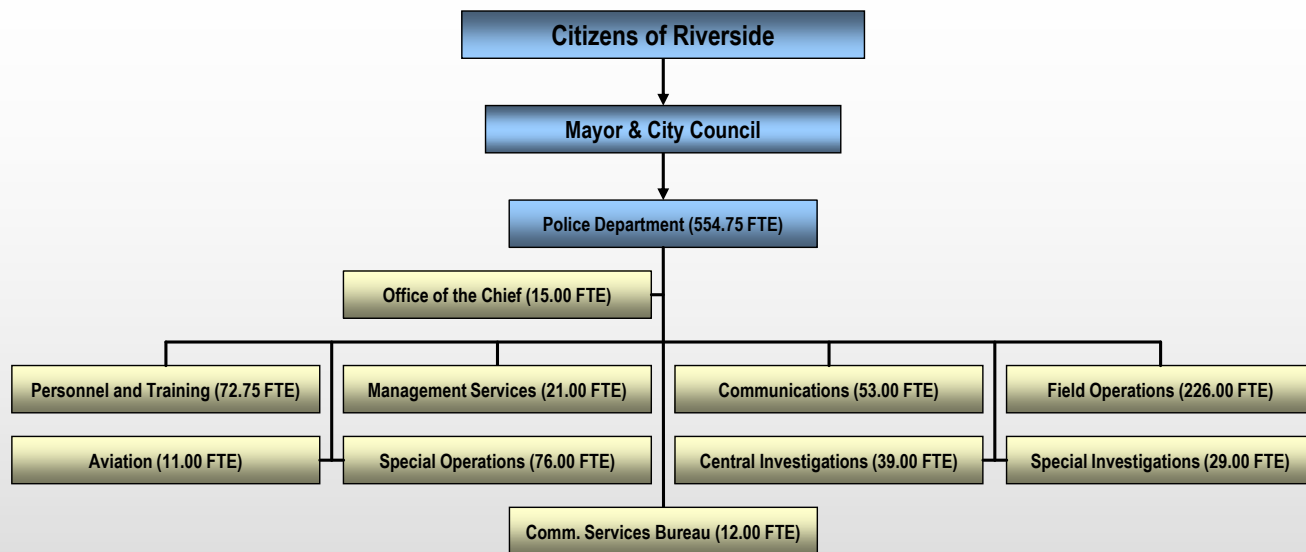

MISSION STATEMENT

The Riverside Police Department dedicate ourselves to becoming leaders in the police profession. We are committed to developing innovative solutions to the challenges we face and to becoming the best law enforcement agency in the nation. We recognize that our fellow employees and our community are our most treasured assets. We devote ourselves to being part of the community we serve through improved communication, greater partnerships and a shared commitment to neighborhood safety. We embrace the principles of community policing, as we seek the participation of law-abiding citizens to reduce crime, the fear of crime and the perception of crime. We commit ourselves to securing and maintaining public safety through the dedicated efforts of police officers and civilian employees who are trained and equipped to fight crime and foster public confidence in a respectful, efficient and ethical manner. We respect the Constitutional rights of all people to liberty, equality and justice.

SERVICES PROVIDED BY DEPARTMENT

The Office of the Chief of Police includes department administration, which provides policy development and leadership direction. The Chief's Office also includes the Intelligence Unit, which gathers and disseminates criminal intelligence information, and the Community Services Bureau.

The Community Services Bureau was established to strengthen the relationship between the community and the Police Department by providing a proactive and innovative approach to problem solving, personal safety, and crime prevention. Programs included are Citizen's Academy, Crime Free Multi-Housing, Police Explorer Post 714, Neighborhood and Business Watch, Opportunity with Education (OWE), Teen 2 Teen, Traffic Education, the Volunteer Unit, the Police Activities League, and Youth Court.

The Support Services Division includes the Police Personnel Bureau, Training Bureau, Office of Internal Affairs and the Public Safety Communications Center. The Personnel Bureau conducts recruitments, background checks on applicants, manages issuance of police uniforms & equipment to employees and is the department's liaison to the City's Workers' Compensation Office and City Safety Officer. The Training Bureau has the primary responsibility for training all employees of the department which include sworn officers and civilian support staff. The Training Bureau also oversees the department's firing Range, Force Training Unit, Field Training Officer (FTO) Program, and the recently re-established Reserve Police Officer Program. The Office of Internal Affairs is responsible for investigating citizen complaints and internal misconduct involving department employees.

The Public Safety Communications Center is the primary answering point for all 9-1-1 emergency calls for the City of Riverside. Communications personnel are responsible for answering emergency and non-emergency calls and dispatching resources for Police, Fire, and Emergency Medical Services. Additional services include maintenance and administration of all radio system's infrastructure, emergency telephone communications, and FCC radio licenses.

Management Services provides business and support services for the Department, which include: Financial and Budget Management, Grants Administration, Court Services, Records Management, Property and Evidence Control, Fleet Services, Facilities Management, Alarm Enforcement, Data Entry, Public Counter Services, and the Telephone Report Writing Unit.

Field Operations is the largest division of the Department and is responsible for responding to in-progress calls, conducting criminal investigations, enhancing safety through traffic enforcement and education, special event coordination, resolving disputes and making arrests. This division includes the Watch Commanders, Traffic Bureau, Technical Services Unit (TSU), and the K-9 Unit.

Special Operations includes the following services: Four Neighborhood Policing Centers (NPCs), University Neighborhood Enhancement Team (UNET), the School Resource Officer Program, Aviation, Special Weapons and Tactics (SWAT), Multi-Enforcement Tactical Resource Officers (METRO), Crime Analysis, Parole and Corrections Team (PACT), and Mobile Field Force. The Aviation Unit provides aerial support for ground operations in observing, preventing, and interdicting criminal activity. The Unit also provides support for rescue, fire spotting, and direct fire suppression by aerial application of water on non-structural fires.

The Centralized Investigations Bureau is responsible for conducting follow-up criminal investigations and preparing cases for prosecution. Investigations include homicides, officer-involved shootings, assaults, armed robberies, sexual assaults, domestic violence, fraud cases, computer crimes, identity theft and graffiti vandalism. The Evidence Unit collects and processes seized evidence from crime scenes.

Special Investigations conducts investigations of cases involving narcotics, vice activities, gangs, graffiti vandalism, prostitution, human trafficking, and underage alcohol purchases. Special Investigations also oversees preliminary asset forfeiture activities and provides assistance to several Federal and State drug task forces.

SUMMARY OF SIGNIFICANT BUDGET ADJUSTMENTS – PRIOR YEAR TO CURRENT YEAR

Personnel Adjustments

1. The increase in the personnel services budget is attributable to the addition of positions transitioning from the COPS program grant to General Fund funding as well as higher pension costs.

Other Adjustments

1. The decrease in the non-personnel budget is primarily attributable to reduced liability insurance costs.
2. The reduction in the charges to others budget is primarily attributable to the elimination of the red light photo enforcement program, which was budgeted in Non-Departmental but received a charge from the Police Department associated with the officer time required to review and approve citations.

PUBLIC WORKS DEPARTMENT

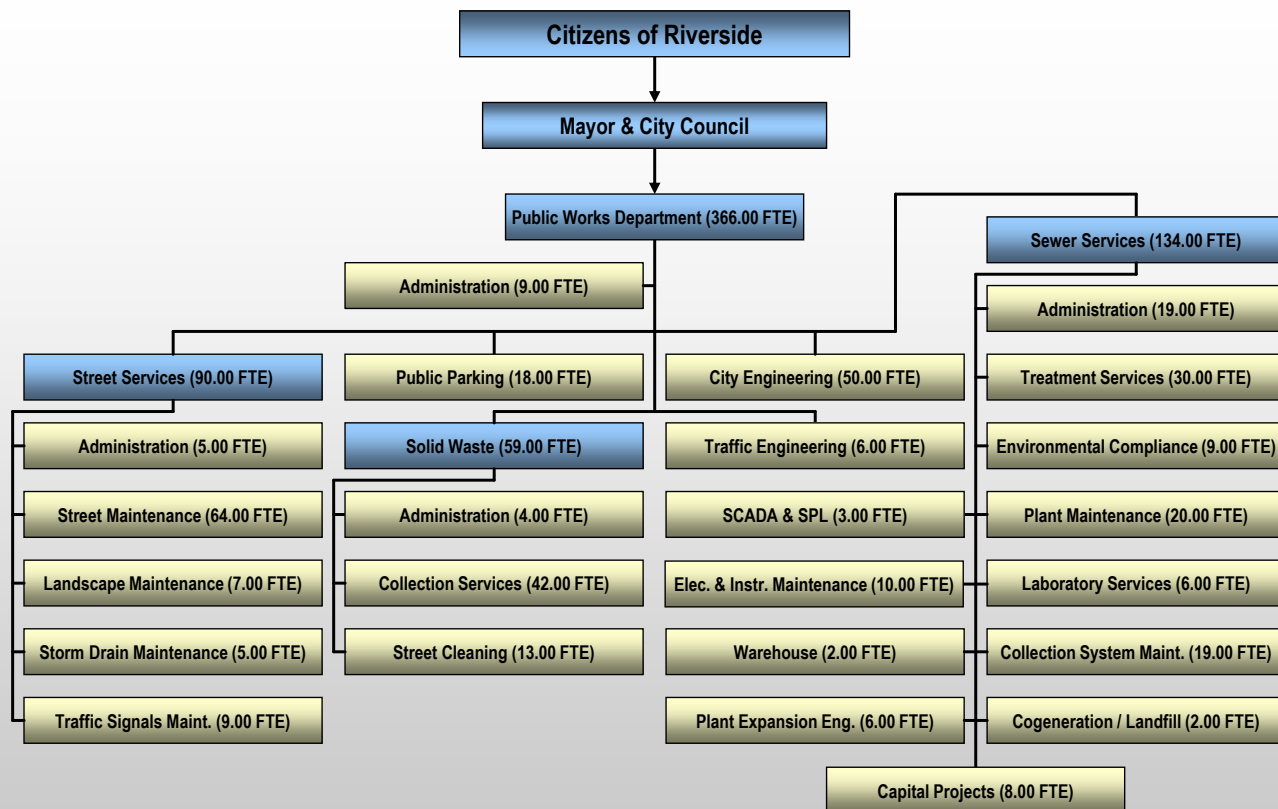

MISSION STATEMENT

The mission of the Public Works Department is to enhance the quality of life for City residents and businesses by operating and maintaining the City's street, trees, landscape, wastewater, storm drain, and refuse systems in the most effective, efficient, and responsible manner.

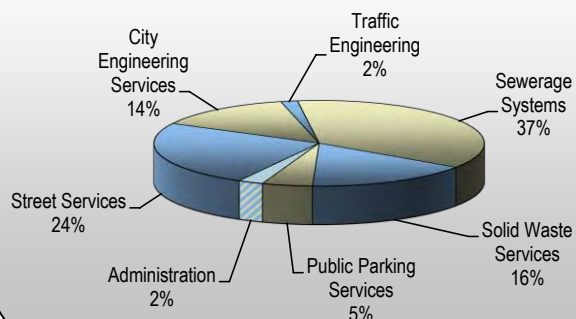

PUBLIC WORKS DEPARTMENT

SERVICES PROVIDED BY DEPARTMENT

The Public Works Department maintains, operates, and improves the City's infrastructure, including a 40 million gallon a day sewerage treatment plant, 1,000 miles of sewers, 870 miles of streets, 300 miles of storm drains, and 360 traffic signals.

Infrastructure facilities are maintained and improved to provide adequate capacity for future growth as well as efficient, cost effective service for existing customers. In addition, infrastructure improvements are constructed to beautify neighborhoods or improve safety and neighborhood livability.

The Department also provides solid waste collection, street maintenance, and construction inspection services. Approximately two thirds of all residential customers receive City solid waste services, with the remaining customers receiving service from a private waste hauler. All commercial customers are serviced by one of three private solid waste haulers. The Street Services Division actively addresses public health issues through street sweeping, storm drain cleaning, and vector control services. The Solid Waste Collection System includes enhancements through the Clean Up Riverside's Environment (C.U.R.E.) program. Department personnel also provide construction permitting, inspection, and plan checking services to assure compliance with City standards.

SUMMARY OF SIGNIFICANT BUDGET ADJUSTMENTS – PRIOR YEAR TO CURRENT YEAR

Personnel Adjustments

1. The increase in the personnel services budget is primarily attributable to the funding of several positions to improve service delivery in various programs.

Other Adjustments

1. The increase in equipment outlay is primarily attributable to increased funding in equipment and vehicle acquisitions in the Sewer and Refuse Funds.
2. The increase in the debt service budget is primarily due to this being the first full year of debt service budgeting for the COPs issues for transportation projects. This also results in an increase in charges from others and charges to others because the debt service is charged from the debt service fund to the Measure A Fund.
3. The increase in capital outlay & grants is the result of increased capital project expenditures due to the cyclical nature of the Capital Improvement Program.

RIVERSIDE PUBLIC LIBRARY

SERVICES PROVIDED BY DEPARTMENT

The Riverside Public Library supports the circulation of a collection of over 1,171,909 items to cover 263,470 borrowers. The Library delivers its services through the Main Library and seven neighborhood branches: Arlanza, Arlington, Casa Blanca, Eastside, La Sierra, Marcy and Orange Terrace.

The Literacy program actively recruits volunteer tutors to support adult learners and their young families. Other volunteers deliver library materials to incapacitated adults and registered family child care providers through the Home Delivery Service Program. Via the Storymobile, a children's library on wheels, the Library brings early learning opportunities such as story time and puppet shows to registered partners serving low-income preschool age children. The Library enhances local service with reciprocal borrowing agreements through the Inland Library System.

RIVERSIDE PUBLIC UTILITIES

SERVICES PROVIDED BY DEPARTMENT

Electric – Riverside Public Utilities provides electric service to 108,300 metered customers, with a service area population of approximately 314,000, encompassing 82 square miles. Riverside Public Utilities owns, maintains, and operates 91 circuit miles of transmission lines, 1,327 circuit miles of distribution lines, 14 substations, and three power generating plants totaling 265.5 megawatts.

The Electric Utility acts competitively, by providing the highest quality, reliable utility services for our customers at the lowest rates possible to benefit the community, while maintaining a financially sound utility. Compared to other local utilities, Riverside's rates are lower, reliability is higher, and more funds are returned to the local community in the way of low income assistance, rebates, and community support. The Electric Utility is committed to renewable power, energy and water conservation, and community education. The most notable achievement is surpassing the 20% Renewable Portfolio Standard goal established by City Council. Also noteworthy is the commencement of the Magnolia-Plaza Reliability Project, a primary component of the Electric System Master Plan, which will be placed into service in 2015. The Subtransmission Project (STP), which reinforces the electrical transmission system in the north-eastern part of the city, was completed and placed in service in June 2014. The proposed Riverside Transmission Reliability Project (RTRP) is the largest capital project in the history of Riverside Public Utilities and will provide needed energy resources to the city while improving reliability to all customers. Construction of the project is planned to begin in 2015.

Water – The Water Utility services 64,900 metered customers, with a service area population of approximately 314,000. The Water Utility maintains its own distribution system, which contains approximately 1,000 miles of pipeline ranging from 2 inches to 72 inches in diameter, 54 domestic wells, 15 active reservoirs, with a capacity of 109 million gallons (equivalent to an emergency supply of 3 days), and 14 miles of canals in Riverside.

The Water Utility is responsible for providing adequate water supplies to its customers at the lowest possible cost. This includes assuring continued access to water resources while maintaining a high quality water supply and a reliable water distribution system. Several miles of distribution and transmission water pipelines were replaced, including key large diameter valves as part of our water system replacement programs. Construction of a replacement well in the San Bernardino area was completed. Construction of a roof replacement project to improve one of Riverside's largest water storage reservoirs was finished. To accommodate grade separation projects, relocations of water distribution and transmission mains were completed. Several projects are planned in support of keeping Riverside "water independent" and free of reliance on imported water supplies while ensuring improved reliability.

SUMMARY OF SIGNIFICANT BUDGET ADJUSTMENTS – PRIOR YEAR TO CURRENT YEAR

Personnel Adjustments

1. None.

Other Adjustments

1. The increase in the special projects budget is primarily related to increased funding for electric and water rebate programs.
2. The decrease in the equipment outlay budget is primarily attributable to fewer purchases of vehicles than in the prior year in various divisions within the department.
3. The increase in the debt service budget is primarily attributable to an anticipated debt issuance in the Water Fund.
4. The decrease in the capital outlay and grants budget primarily relates to reduced expenditures for capital projects due to the cyclical nature of the capital improvement program.

NON DEPARTMENTAL

PURPOSE

The Non Departmental budget represents activities that are not budgeted within a specific General Fund department. These items are typically large in nature, are required to be funded, and are therefore not subject to budget cuts. As a result, they are budgeted here in Non-Departmental in order to avoid inflating the General Fund budgets of other Departments.

SUMMARY OF SIGNIFICANT BUDGET ADJUSTMENTS – PRIOR YEAR TO CURRENT YEAR

Personnel Adjustments

1. None.

Other Adjustments

1. A Non-Departmental budget was added for the Keep Riverside Clean and Beautiful Program.
2. Funding was increased for the Fox Performing Arts Center, Municipal Auditorium, and The Box, which is mostly offset with higher revenues generated by these facilities.
3. As a result of a change to the contract for the operation of the Riverside Convention Center, the full expenditure budget for operating the facility is now budgeted in Non-Departmental. This additional funding is fully offset by higher revenue. Under the prior contract, accounting rules did not require these costs to be budgeted in the City's budget. The contract was changed to accommodate the issuance of tax-exempt debt to finance the renovation and expansion of the facility.
4. Funding was added to the base budget for the Community Livability Program.

CAPITAL IMPROVEMENT PROGRAM SUMMARY

CAPITAL IMPROVEMENT PROGRAM SUMMARY

Capital Improvement Program Defined

The City's Capital Improvement Program (CIP) is a multi-year planning instrument that drives the evaluation and identification of capital infrastructure projects in need of renovation, repair, and/or construction. Capital projects range from road maintenance or construction to the renovation of municipal buildings, recreation centers, and ball fields, to water main and sewer repair. The CIP relates these projected capital needs to the financial sources that will support their realization and the timeframe in which both the financing and work will take place. Capital improvement programming is the process by which these capital projects are identified, prioritized, and selected, and thus are incorporated into the long-range fiscal and strategic planning of the City. The CIP document is designed to report to the City Council, the public, City staff, and other interested parties the capital management and planning strategies of the City.

Benefits of the Capital Improvement Program

Capital improvement programming links short and long-range general plans with growth, public and private development, and the annual budgetary process. In this way, the CIP attempts to achieve the goals and objectives of the City's residents, a variety of boards and commissions, and the City Council. The CIP carries the following primary benefits:

- Focuses attention on Citywide priorities and citizen expectations
- Provides a concrete implementation framework for the General Plan, Citywide Strategic Plan, and Visioning Report
- Fosters inter-departmental coordination of City infrastructure investments
- Promotes accountability for the long-term planning and investment of public funds for large-scale public purposes

Capital improvement projects typically carry considerable future impact, meaning that they have a life span of at least five years or more. They are often, but not always, financed over a longer period of time, in effect spreading the cost of the project across generations of users. In this sense, the choices made for how a project will be paid for is not only a financial question of fiscal capacity and prudence, but a philosophical issue as well.

Perhaps the greatest benefit of having a Capital Improvement Program is that the process focuses attention on improving or constructing the capital improvements necessary for providing the services and facilities expected by the residents and businesses of the City of Riverside, both today and tomorrow.

The CIP and the City's Annual Operating Budget

In order to reap the benefits of focused attention paid to long-term planning for capital projects, the Capital Improvement Program is for the most part developed separately from the City's Annual Operating Budget. However, the approval of the CIP does not signal appropriation of funds. Rather, the CIP serves as a planning instrument for both budgeting and infrastructure development. Appropriations are made for capital projects when the City Council approves the annual budget for the City.

The Capital Improvement Program document is different from the annual budget as it sets forth a five-year program. The first year's program contains projects that are included in the proposed Annual Operating Budget for the upcoming fiscal year. The remaining four years reflect staff's recommended priorities for the future and are reviewed and revised annually by the City Council.

Development and Adoption of the CIP

The development of the City's Capital Improvement Program occurs over approximately a six month period. The City Manager's Office initiates the CIP process by providing a preparation guide and schedules to the relevant departments. The schedules and project lists are reviewed at the departmental level and updated accordingly.

The development of the City's Capital Improvement Program is to a certain extent decentralized. This means that although the CIP is coordinated through the Finance Division of the City Manager's Office, individual departments are responsible for fully developing their individual Capital Improvement Programs. This is accomplished by identifying needs, performing appropriate fiscal and environmental impact analyses, conducting legislative and environmental scans to ensure that the CIP is current, acquiring input from various stakeholders, and selecting the final projects for consideration. Each

CAPITAL IMPROVEMENT PROGRAM SUMMARY

department then submits its CIP to the City Manager's Office.

The City Manager's Office evaluates the individual Capital Improvement Programs for consistency with the Citywide Strategic Plan, the General Plan, and citizen input. The City Manager's Office then finalizes the proposed Capital Improvement Program for preliminary City Council review and conceptual approval. Projects for which conceptual approval has been attained are inserted into the Operating Budget and proposed for adoption in May or June of each year.

Amending the Capital Budget

At any Council meeting after the adoption of the budget, the City Council may amend or supplement the budget by motion adopted by the affirmative votes of at least five members. This vote authorizes the transfer of unused balances appropriated for one purpose to another purpose or to appropriate available funds not included in the budget.

CIP Program Sections

Capital projects are grouped into ten program sections in the Capital Improvement Program. They are:

- Municipal Buildings and Facilities
- Parks, Recreation, and Community Services
- Transportation
- Railroad-Related Projects
- Sewer

- Storm Drain
- Public Parking
- Airport
- Electric
- Water

Municipal Buildings and Facilities

The Municipal Buildings and Facilities program includes expenditures for Departments that are not described in other sections of the CIP. Such projects include Police and Fire stations, Libraries, the Museum, the Municipal Auditorium, and the Convention Center. Projects of a recurring nature such as parking lot repaving and facility painting are also included in the Municipal Buildings and Facilities CIP, even for Departments described elsewhere in this document.

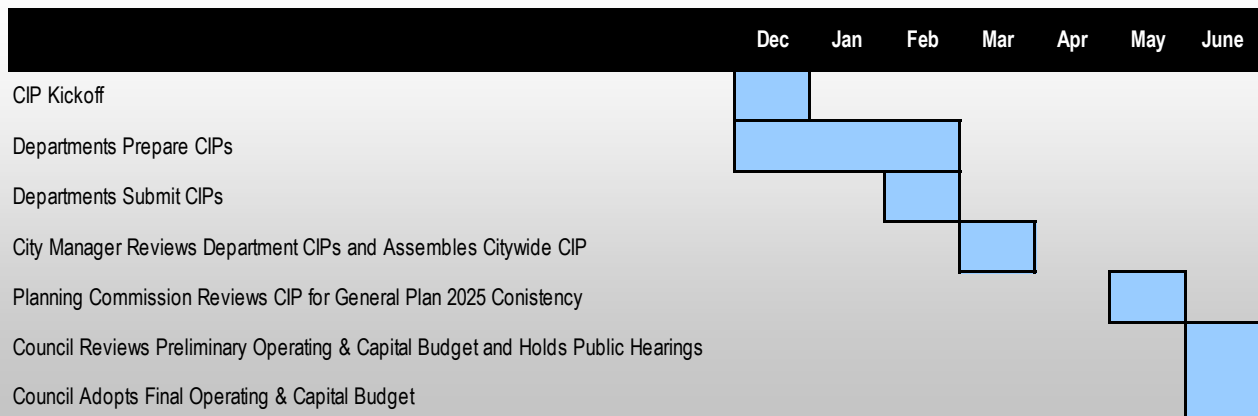

Parks, Recreation, and Community Services

The Parks, Recreation, and Community Services program includes projects to construct, maintain, and upgrade parks, game courts and fields, medians, community centers, and recreation buildings.

Transportation

The Transportation program includes projects to extend and widen streets, street resurfacing, construction of curbs, gutters, center medians, bikeways & pedestrian facilities, right-of-way acquisition, and traffic signal improvements.

CIP DEVELOPMENT PROCESS TIMELINE

CAPITAL IMPROVEMENT PROGRAM SUMMARY

Railroad-Related Projects

The Railroad-Related Projects program includes projects that grade separate the intersections of City streets with the BNSF and Union Pacific railroads as well as other related rail projects.

Sewer

The Sewer program includes projects to increase system capacity for new users, replace aging or obsolete systems, and meet new regulatory requirements.

Storm Drain

The Storm Drain program includes projects that either eliminate a nuisance flow or provide additional flood protection.

Public Parking

The Public Parking program includes projects to construct new parking facilities and to improve existing facilities.

Airport

The Airport program includes projects to maintain the Airport, to improve safety, and to comply with Federal Aviation Administration (FAA) standards and regulations.

Electric

The Electric program includes projects to construct additions to the City's electric infrastructure and to maintain existing facilities.

Water

The Water program includes projects to construct additions to the City's water infrastructure and to maintain existing facilities.

Funding Sources

The City employs a combination of approaches to fund its capital projects. For many smaller improvement projects, funds are appropriated from cash on hand. Large-scale capital projects are funded through a variety of methods, including long-term financing, user fees, proceeds from bond issues, grants, assessments, impact fees, tax levies, certificates of participation (COPs), and reserve balances. Since the City's various Departments are budgeted within numerous Funds, each potentially with multiple revenue streams, the funding sources are greatly varied and the process decentralized.

The Funds in which capital improvements are budgeted and the various funding sources that provide revenue to these Funds are described below by CIP program section. General Fund revenue sources are not described, due to the complex nature of sources providing revenue to the General Fund. The General Fund's major support comes from sales tax, property tax, fees for services rendered, the utility users tax, and transfers from the Electric and Water Funds. General Fund projects are budgeted on an availability of funds basis and funded from annual revenues.

In addition to the typical projects outlined in the CIP, this year's CIP includes numerous projects funded through the Riverside Renaissance Initiative. These projects will be funded by a diverse set of revenues including Certificates of Participation, land sale proceeds, and Redevelopment Agency funds.

Municipal Buildings and Facilities

Projects included in the Municipal Buildings and Facilities CIP are funded primarily from the General Fund (101). In certain cases, projects are funded from other Funds when a project impacts a non-General Fund Department (such as Public Utilities). In all cases these projects are funded from annual revenues. Major revenue sources include:

- General Fund Revenues – General Fund revenues allocated to capital projects
- Other Fund Revenues – revenues allocated to minor capital projects from other City Funds

Parks, Recreation, and Community Services

Capital expenditures for the Parks, Recreation, and Community Services Department are budgeted in the General Fund (101), the Local Parks Impact Fees Fund (411), and the Regional Parks Impact Fees Fund (413). Neighborhood park improvements are funded through the Local Parks Impact Fees Fund, while regional park improvements are funded through the Regional Parks Impact Fees Fund. Major revenue sources include:

- General Fund Revenues – General Fund revenues allocated to capital projects
- Development Fees – portions of fees charged when property is developed that are dedicated to the funding of local and regional parks and recreation facilities

CAPITAL IMPROVEMENT PROGRAM SUMMARY

Local Park Fee and Regional Park Fee revenues are dependent on development. Therefore, the CIP only shows projects as funded for which fee revenues are already available or that are annual funding obligations. As funding becomes available, the Parks, Recreation, and Community Services Department requests that the City Council appropriate funds for projects contained in the Unfunded Capital Projects list. Projects are not programmed based on anticipated revenues.

Transportation & Railroad-Related Projects

Capital expenditures for the construction and improvement of transportation infrastructure are budgeted in the General Fund (101), the Special Gas Tax Fund (230), the Capital Outlay Fund (430), the Measure A Fund (432), the Transportation Development Impact Fees Fund (433), and the Transportation Uniform Mitigation Fees Fund (434). The allocation of revenues to the 230, 430, 432, 433, and 434 Funds is complex and is dictated by various federal and state regulations. These five funds are shown as commingled for simplicity sake in the CIP, though in actuality specific revenues described below are allocated to specific Funds. Revenue sources include:

- Signal Mitigation Fees – a City funding source generated from portions of fees charged when property is developed that are dedicated to funding new and upgraded traffic signals
- Transportation Impact Fees – a City funding source generated from portions of fees charged when property is developed that are dedicated to funding local transportation capacity improvements
- Measure A Sales Tax Revenue – a City and County funding source generated from Riverside County's half-cent sales tax dedicated to transportation projects that is allocated directly to the City of Riverside as well as through the Riverside County Transportation Commission
- Transportation Uniform Mitigation Fees (TUMF) – a regional funding source generated from portions of fees charged when property is developed that are dedicated to funding regional transportation capacity improvements
- State Gas Tax Revenue – revenue generated by the State's tax on gasoline sales that is dedicated to local transportation capacity improvements

- State Proposition 42 Revenue – revenue generated by additional gas tax revenues allocated to transportation projects by voter initiative
- State Proposition 1B Revenue – revenue generated by the sale of bonds authorized by voter initiative for transportation improvements
- Congestion Mitigation and Air Quality (CMAQ) Improvement Program – a Federal funding program authorized by the Intermodal Surface Transportation Efficiency Act (ISTEA) that provides grants primarily for traffic signal projects, transportation demand management projects, and transit projects
- Surface Transportation Program (STP) – a Federal funding program authorized by ISTEA that includes two funding mechanisms – one is a population formula program where local agencies receive funds for transportation improvement projects according to their respective populations and the other provides grants for projects that reduce traffic congestion, improve transportation circulation, and maintain transportation infrastructure
- Surface Transportation Program Local (STPL) – STPL is similar to STP, except that funds are dedicated to local street improvements
- Demonstration (DEMO) Funds – allocations of STP funds for specific projects earmarked by congress
- Congressional Earmarks – project-specific appropriations made by congress to fund transportation capacity improvements
- California Public Utilities Commission Grade Separation Program – a funding program administered by the California Public Utilities Commission that provides funding for railroad grade separations
- Railroad Funds – private funding from the Union Pacific and BNSF railroads to assist with the construction of railroad grade separations

Sewer

Capital expenditures for the construction and improvement of the City's sewer system are budgeted in the Sewer Fund (550), which is an enterprise fund. In addition to capital expenditures, operational expenditures related to

CAPITAL IMPROVEMENT PROGRAM SUMMARY

the City's sewer system are budgeted in the Sewer Fund. Revenue sources include:

- Sewer Connection Fees – fees charged when property is developed that are dedicated to the funding of sewer infrastructure projects
- Service Charges – funds transferred from the Sewer Service Fund that are generated from service charges to users of the City's sewer system
- Community Services District (CSD) Payments – payments from Community Services Districts for which the City provides sewage treatment services
- State Revolving Loans – low interest loans provided by the State to fund capital improvements
- Bond Proceeds – proceeds from the sale of revenue bonds

Storm Drain

Capital expenditures for the construction and improvement of storm drains are budgeted in the Storm Drain Fund (410). Revenue sources include:

- Storm Drain Fees – fees charged when property is developed that are dedicated to the funding of storm drain infrastructure projects

Public Parking

Capital expenditures for the City's Public Parking facilities are budgeted in the Public Parking Fund (570), which is an enterprise fund. Revenue sources include:

- Rent Revenues – revenue from rented facilities
- Garage, Lot and Meter Fees – fees charged for parking
- Parking Fines – fines assessed for parking violations
- Bond Proceeds – proceeds from the sale of revenue bonds

Airport

Capital expenditures for the Riverside Airport are budgeted in the Airport Fund (530), which is an enterprise fund. The Federal Aviation Administration (FAA) will fund up to 95 percent of eligible projects. And, under the California Department of Transportation (CALTRANS)

Division of Aeronautics' grant program, the City can apply for 2.5 percent matching funds for FAA-approved projects. Revenue sources include:

- Rent Revenues – revenue from rented facilities
- Landing & Tie Down Fees – fees assessed on aircraft operating at and based at the Airport
- Fuel Sales – revenue from the sale of fuel purchased from the Airport
- Fuel Flowage Fees – fees charges on fuel purchased at the Airport
- Non-Commercial Aircraft Tax – funds generated from taxes imposed on non-commercial aircraft
- CALTRANS Grants – grant proceeds received from the Division of Aeronautics
- Airport Improvement Program (AIP) Grants – grant proceeds received from the FAA

Electric

Capital expenditures for the City's Electric Utility are budgeted in the Electric Fund (510), which is an enterprise fund. Revenue sources include:

- Electric Rates – revenue from rates
- Contributions In Aid of Construction – funding contributions by private parties
- Bond Proceeds – proceeds from the sale of revenue bonds

Water

Capital expenditures for the City's Water Utility are budgeted in the Water Fund (520), which is an enterprise fund. Revenue sources include:

- Water Rates – revenue from rates
- Contributions In Aid of Construction – funding contributions by private parties
- Bond Proceeds – proceeds from the sale of revenue bonds

Overview of the CIP

The five-year Capital Improvement Program amounts to \$400,581,290. For FY 2015/16, capital improvement projects totaling \$79,983,090 will be undertaken to expand and maintain the infrastructure within the City of Riverside. Descriptions of each project, as well as the related revenues and expenditures, can be found in the individual

CAPITAL IMPROVEMENT PROGRAM SUMMARY

program sections of the City's CIP document. Information regarding significant non-routine capital projects, operating budget impacts from all projects included in the first year of the CIP, and summary financial information can be found in the tables on the following pages.

Summary Tables

The following tables provide a high-level overview of the citywide five-year Capital Improvement Program.

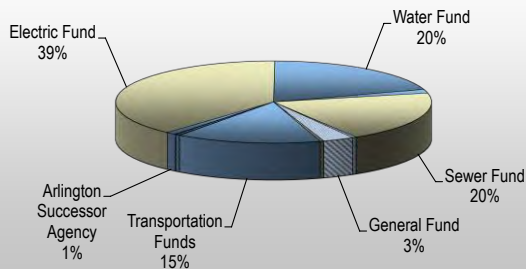

Unfunded Capital Projects

In addition to the \$400.58 million five-year funded CIP, unfunded capital project needs currently total \$543.09 million. The unfunded projects are included in the Electric, Water, Railroad-Related Projects, Transportation, Parks, Recreation, & Community Services, and Municipal Buildings & Facilities CIP Sections. In the case of the Parks, Recreation, and Community Services CIP, many of the unfunded projects will be funded in the latter four years of the CIP. The Parks, Recreation, and Community Services Department does not show projects as funded until funding is in place. As a result, there are always projects listed on the unfunded project list that are anticipated to be funded before the conclusion of the five-year period covered by the CIP.

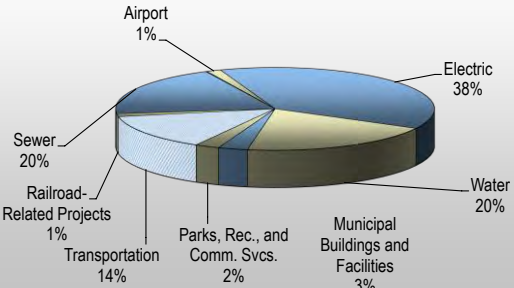

Transportation and Railroad-Related Projects expenditures in the funded CIP are considerable. However, the current needs still outweigh available resources and \$186.44 million is still unfunded. The unfunded or partially unfunded transportation projects include five significant street widening projects, one major median construction project, a continuation of the City's railroad quiet zone program, and phase two of the City's grade separation program. In the case of many of these projects, a sizable portion of the projects' cost is anticipated to be funded with non-City funds. Each unfunded project is described in the individual program sections of the City's CIP document.

CAPITAL IMPROVEMENT PROGRAM SUMMARY

Budgeted Projects and Budgetary Impacts

The table below and on the facing page summarizes the programmed capital projects for fiscal year 2015/16. The majority of these projects are budgeted in the Annual Budget document. However, in some cases, certain projects may not be budgeted in the Annual Budget. These projects are either still sufficiently preliminary in nature not to warrant inclusion in the budget or are dependent on third party funding. Such projects will be brought before the City Council to request supplemental appropriations later in the fiscal year.

The table also outlines the anticipated project-specific recurring budgetary impacts of each proposed capital project for fiscal year 2015/16. The recurring budgetary impact of a capital project is the anticipated project-related increase to the City's budget in the first fiscal year

following completion of the project. These expenditures include additional personnel, operations and maintenance expenditures, recurring capital outlays, and capital debt service. For example, a new Community Center will likely require additional staff, as well as funding for utilities, maintenance, and other similar costs.

The potential budgetary impact of any proposed capital project is carefully considered as part of the capital improvement program review process. Many projects are related to maintenance for and replacements of existing City facilities and infrastructure, such as street and utility improvements or facility repairs and enhancement. These types of projects do not create significant budgetary impacts. Many of the smaller budgeted projects are components of cyclical replacement programs and also do not create significant budgetary impacts.

CAPITAL IMPROVEMENT PROGRAM SUMMARY

The fiscal year 2015/16 Capital Improvement Program is anticipated to create an additional \$416,440 in annual operating expenses for the City. Specifically, the Arlington Youth Opportunity Center is anticipated to generate additional operating expenses of \$405,000, continued expansion of the City's Quiet Zone program is anticipated to result in an additional \$25,000 of maintenance expenses, and minor transportation projects are anticipated to result in a savings of \$13,560 per year in operating expenses. Most projects listed will be replacing other, existing facilities as part of a capital replacement cycle with operations and maintenance budgets already in place. These projects are therefore not anticipated to have a budgetary impact.

Major Non-Routine Capital Projects

The fiscal year 2015/16 Capital Improvement Program anticipates major non-routine capital projects. These projects are described in greater detail in the City's Capital Improvement Program document. Briefly, a description of these projects is provided below.

Arlington Youth Opportunity Center

This project will construct a new Parks, Recreation, and Community Services Department facility in the Arlington area of the City to provide services to the City's youth.

Magnolia Widening – Buchanan to Banbury

This project provides partial funding to a multi-year project to widen Magnolia Avenue from Buchanan Street to Banbury Drive from four to six lanes.

Norte Vista Sidewalk Improvements

This project funds sidewalk construction on Gaylord Street from Tyler Street to Stover Avenue, Jones Avenue from Robinson Avenue to Valley Drive, Chadbourne Avenue from Arlington Avenue to Valley Drive, and Bushnell Avenue from La Sierra Avenue to Campbell Avenue.

Wells/Arlanza Sidewalk Improvements

This project funds sidewalk construction on Challen Avenue from Wells Avenue to Philbin Avenue, Ivanhoe Avenue from Wells Avenue to Philbin Avenue, Kent Avenue from Wells Avenue to Campbell Avenue, Rutland Avenue from Gramercy Place to Philbin Avenue, and Babb Avenue from Gramercy Place to Philbin Avenue.

Magnolia Interconnect-Buchanan to 1st

This project funds coordinated traffic signals on Magnolia Avenue/Market Street from Buchanan Street to First Street.

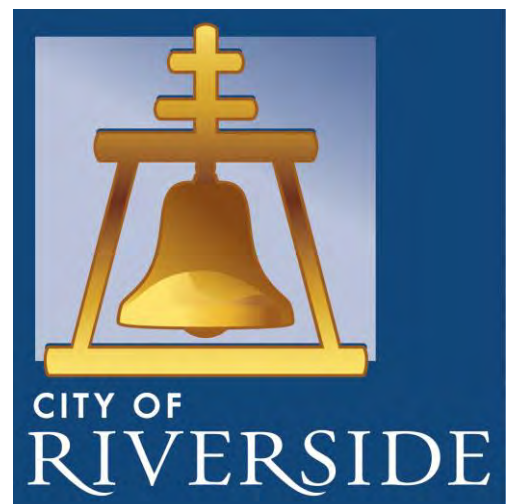

Santa Ana River Trunk Sewer Replacement – Phase II

This project is the second phase of sewer replacement along the Santa Ana River Trail from Martha McLean-Anza Narrows Park to Tequesquite Avenue.

Tequesquite Trunk Sewer Line – Phase IIB

This project is the second phase of sewer replacement along the Tequesquite Arroyo south of the 91 Freeway.

PERSONNEL DETAIL

PERSONNEL DETAIL

The Personnel Detail serves as the central point of position control for tracking all authorized positions throughout the City. A citywide summary is provided on the following two pages. The detailed pages that follow list each authorized full-time and part-time position by Department and Section.

All positions, both full and part-time, are shown in Full-Time Equivalents (FTE). A Full-Time Equivalent (FTE) is defined as a position that works 2,080 hours per fiscal year. For example, a full-time employee who works 2,080 hours per year would equal 1.00 FTE. A part-time employee who works 1,040 hours per fiscal year would equal 0.50 FTE.

For each authorized position, the following fields are shown in the pages that follow:

1. GL Key – The General Ledger Key for the home Section of the position.
2. PCN – The Position Control Number for the position, which is made up of the following three components:
 - a. Loc – The Location for the position, which is uniquely related to the GL Key for the Section.
 - b. Job – The position's Job Code, which is uniquely related to the position title.
 - c. Type – The position's Assignment Number, which represents the type of position and

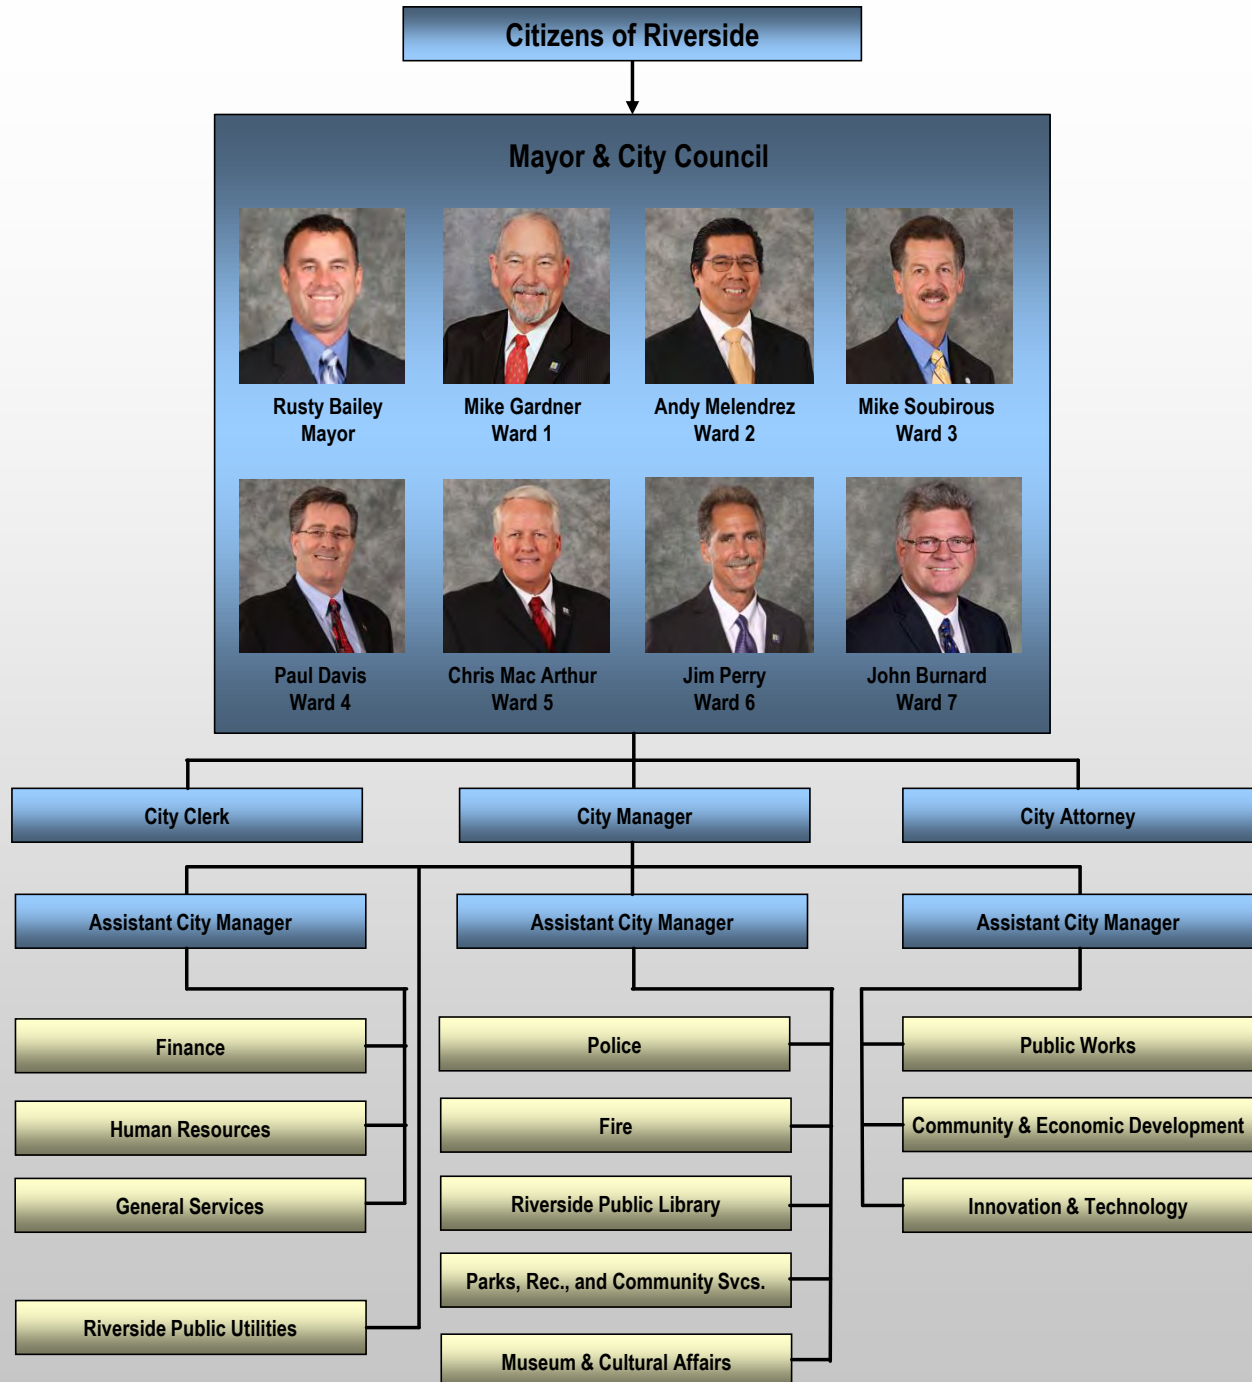

related benefits: F for full-time, benefited; T for $\frac{3}{4}$ time, benefited; H for $\frac{1}{2}$ time, benefited; and N for part-time, non-benefited.

3. Description – The position's job title.
4. Footnotes – References to footnotes describing changes between the current year's Annual Budget and the prior year's Annual Budget.
5. Authorized 2014/15 – The total FTE count for each position authorized at the time of adoption of the prior year's Annual Budget.
6. Proposed 2015/16 (Authorized) – The total FTE count for each position to be authorized following adoption of the current year's Annual Budget.
7. Proposed 2015/16 (Funded) – The total FTE count of positions that are currently funded for each authorized position.

The Personnel Detail is updated to reflect City Council actions that have taken place since the previous year's Annual Budget was adopted, as well as any changes proposed by the City Manager through the budget development process. Position changes previously approved by the City Council will be indicated in the footnotes by the date of the Council action. All other additions, deletions, transfers, or reclassifications are proposed and will become authorized upon the adoption of the Budget by the City Council. All positions that are to be deleted are vacant unless otherwise noted.

GLOSSARY OF TERMS

GLOSSARY OF TERMS

Accrual Basis of Accounting

The basis of accounting by which revenues are recorded when earned and expenditures are recorded as soon as they result in liabilities for benefits received.

Appropriation

A specific amount of money authorized by the City Council for an approved work program or individual project.

Assessed Valuation

A dollar value placed on real estate or other property by Riverside County as a basis for levying property taxes.

Balanced Budget

A budget in which planned expenditures do not exceed planned funds available.

Basis of Budgeting

Budgets are adopted on a basis consistent with accounting principles general accepted in the United States of America. Annual appropriated budgets are adopted for all departments within the general, special revenue and capital projects funds.

Beginning/Ending Fund Balance

Unencumbered resources available in a fund from the prior/current year after payment of the prior/current year expenses.

Bond

A certificate of debt issued by an entity, guaranteeing payment of the original investment, plus interest, by a specified future date.

Budget

An annual financial plan that identifies revenues, types and levels of services to be provided, and the amount of funds that can be spent. The City of Riverside's budget encompasses one fiscal year.

Budget Calendar

The schedule of key dates or milestones, which the city follows in the preparation and adoption of the budget.

Budget Message

A general discussion of the preliminary/adopted budget presented in writing as part of, or supplement to, the budget document. Explains principal budget issues against the background of financial experience in recent

years and presents recommendations made by the City Manager.

CalPERS

The California Public Employees Retirement System, which is the agency providing pension benefits to all City employees.

Capital Expenditures

Typically are expenditures related to major construction projects such as roads, buildings, and parks. These expenditures are typically capitalized and depreciated over time.

Capital Improvement Program

A multi-year financial plan containing proposed construction of physical assets, such as park, street, sewerage, cultural, and recreation facilities. This program has identified all projects, which are the responsibility of the City between the present to build out.

Capital Projects

Projects that purchase or construct capital assets. Typically a capital project encompasses a purchase of land and/or the construction of a building or facility.

Capital Outlay

Equipment (fixed assets) with a value of \$5,000 or more (or \$1,000 for electronic equipment) and an estimated useful life of more than one year, such as automobiles and office furniture, which appear in the Operating Budget.
