

Newborn's and Mothers' Disclosure Notice

MATERNITY BENEFITS

Under Federal and state law you have certain rights and protections regarding your Maternity benefits under the Plan.

Under federal law known as the **“Newborns’ and Mothers’ Health Protection Act of 1996” (Newborns’ Act)** group health plans and health insurance issuers generally may not restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, federal law generally does not prohibit the mother’s or newborn’s attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, plans and issuers may not, under federal law, require that a provider obtain authorization from the plan or the issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours).

Under California law, if your Plan provides benefits for obstetrical services your benefits will include coverage for postpartum services. Coverage will include benefits for inpatient care and a home visit or visits, which shall be in accordance with the medical criteria, outlined in the most current version of or an official update to the "Guidelines for Perinatal Care" prepared by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists or the "Standards for Obstetric-Gynecologic Services" prepared by the American College of Obstetricians and Gynecologists. Coverage for obstetrical services as an inpatient in a general Hospital or obstetrical services by a Physician shall provide such benefits with durational limits, deductibles, coinsurance factors, and Copayments that are no less favorable than for physical illness generally.
