Consultant Interviews and Evaluations

Thursday, March 13, 2014

5:30 p.m.-8:00 p.m.

Art Pick Council Chambers | Riverside City Hall

What is the Smart Code Specific Plan Project?

The Smart Code Specific Plan will be a community-based effort to re-envision existing commercial, office, and industrial zoned areas that encompass approximately 20% of the City area. The selected consultant will also prepare a Northside Neighborhood Community Vision, and provide master planning services for the Former Riverside Golf Club and Ab Brown Sports Complex.

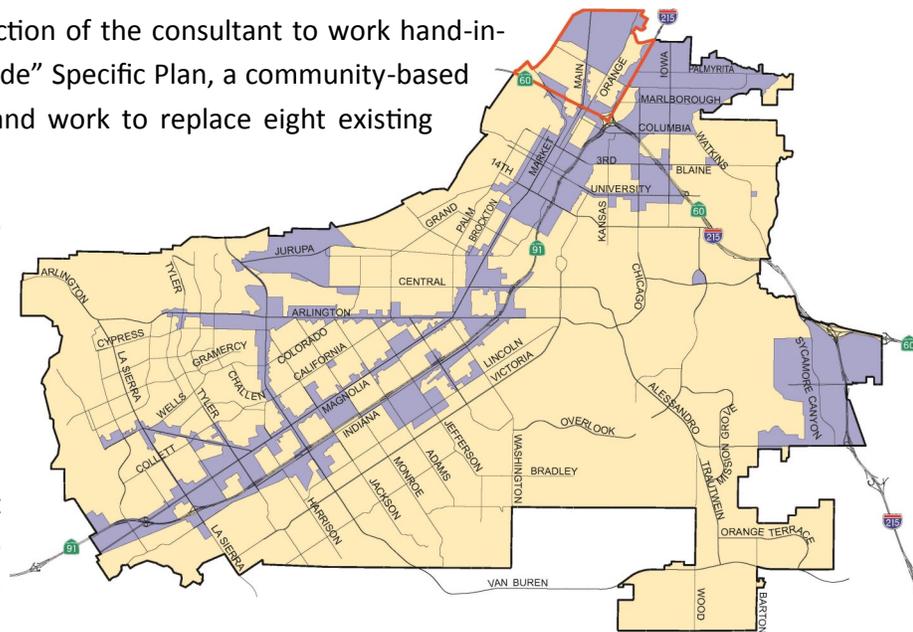

What is the Community's Role in Selecting the Consultant?

The City is inviting the public to assist in the selection of the consultant to work hand-in-hand with the community to create the "Smart Code" Specific Plan, a community-based effort to create one cohesive, illustrated vision and work to replace eight existing outdated specific plans spread across the City.

The consultant must be a good fit for the community, and must have strong backgrounds in:

- **Community-Based Urban Design** • **Land Use**
- **Economic Development** • **Neighborhoods**
- **Historic Preservation** • **Transit/Mobility**
- **Infrastructure**

The City will be interviewing two consultant teams. You are invited to observe the presentations, ask questions and participate in the interview process.
