

Marcy Library Under Construction

Exciting things are happening at the Riverside Public Library. In addition to the many programs and services being offered, the Marcy Library is expanding and moving to a new site in early 2011. The new Marcy location, located at 6927 Magnolia Avenue, will more than double its current square footage and will offer 30 public access computers, a dedicated children's area and a quiet study room.

In addition, the project will also include the installation of a photovoltaic (solar) system on the new Library roof in order to increase the level of renewable resources in the City's power portfolio. The photovoltaic system for the project will be incorporated into and constructed during the Library construction.

Construction commenced July 2010 and the new facility is scheduled to open to the public in Spring 2011.
