Why attend?

- Learn how to **streamline and expedite your next building project** by submitting plans electronically, without visiting City Hall, and spending extra time, money, and resources on the paper plan review process.
- **Solar Contractors** can learn how to submit plans electronically to help streamline projects and gain **compliance with AB 2188**.

What is ePlan Review?

ePlan Review is a web-based electronic plan and document workflow solution that lets citizens and government personnel initiate and complete the plan submission, review and approval process online, rather than using a manual, paper-based process.
