TABLE OF CONTENTS

I. INTRODUCTION ................................................................. I-1
   Authority/ Description of the Plan Area/ Purpose and Intent of Plan .... I-1
   Land Use Plan Summary/ Specific Plan History ............................ I-4
   Consistency of Plan with the Championship Golf Course Plan .......... I-8
   Relationship of the Plan to the General Plan and Zoning Ordinance .... I-10
   Measure C Consistency/ Relationship of the Plan to Other Relevant
   Planning Programs ......................................................... I-11
   Future Development/ Streamlined Environmental Review ................ I-13
   Severability ...................................................................... I-14

II. LAND USE PLAN ................................................................. II-1
    Planning Objectives/ Land Use Concept ................................ II-1
    Plan Components .................................................................. II-2
    Other Related Planning Opportunities .................................. II-5

III. LAND USE REGULATIONS .................................................. III-1
     Purpose/ Applicability/ General Provisions .............................. III-1
     Development Standards and Design Guidelines ........................ III-2
     Golf Course ....................................................................... III-2
     Residential Estate .......................................................... III-7
     Hillside Residential ....................................................... III-12
     Natural Open Space ........................................................ III-14
     Constructed Wetlands/ Lakes/ Arroyos ................................ III-21
     Agriculture ...................................................................... III-26
     Community Facilities ...................................................... III-27
     Other Specific Plan Design Guidelines ................................ III-30

IV. INFRASTRUCTURE PLAN ..................................................... IV-1
    Circulation System .......................................................... IV-2
    Utilities ........................................................................... IV-13
    Solid Waste Disposal ...................................................... IV-16
    Energy ............................................................................ IV-17

V. IMPLEMENTATION MEASURES ............................................. V-1
    Phasing/ Master Subdivision Process .................................. V-1
    Use of County Lands ...................................................... V-2
    Airport Plan/ School-Zoning Considerations/ Subsequent Approvals
    Required/ Offsite Considerations ......................................... V-3
    Environmental Mitigation Measures ..................................... V-4

**LIST OF FIGURES**

1. Project Location ................................................... I-2
2. Land Ownership ................................................... I-3
3. Land Use Plan ..................................................... I-5
4. Championship Golf Course Concept Plan ................................ I-9
5. Underlying Zoning Classifications .................................. I-12
6. Alternate to School Site ............................................ II-6
7. Recommended Landscaping Between Fairways ......................... III-4
8. Central Knoll Design Detail ........................................ III-9
9. Conceptual Trail Network ........................................... III-15
10. Wildlife Corridor .................................................. III-16
11. Typical Feeder Trail Section ...................................... III-18
13. Irregular Wetland Profiles ........................................ III-22
14. Constructed Wetland Typical Cross Section ......................... III-24
15. Clustering of Building Sites ....................................... III-32
16. Contour Grading .................................................... III-33
17. Grading for Roadways on Slopes .................................. III-34
18. Building Pad Configurations ....................................... III-35
19. Residential Site Design ............................................ III-36
20. Screening Manufactured Slopes .................................... III-37
21. Circulation Plan .................................................... IV-3
22. Main Public Collector Street with Center Median, Bike Lane and Trail IV-6
23. Main Public Collector Street with Center Median and Bike Lanes IV-7
24. Split Collector Street with Sloped Median and Bike Lanes ........ IV-8
25. Standard 66-Foot Secondary Collector Street ....................... IV-9
26. 66-Foot Secondary Collector Street with Trail ..................... IV-10
27. 28-Foot Limited Access Private Street Section .................... IV-11
28. 32-Foot Backbone Street Sections .................................. IV-12
LIST OF TABLES

1. Land Use Summary ................................................ II-2
2. Residential Density Allocations ....................................... II-3
3. Summary of Mitigation Measures and Implementation Responsibilities ...... V-5
