

CITY OF RIVERSIDE PUBLIC WORKS INFORMATION SHEET

JULY 2013

Market Street Improvements

In order to preserve an important City corridor, Market Street will undergo various repairs as part of a Citywide pavement rehabilitation and preservation program. The 3 year program anticipates rehabilitating approximately 50 miles of arterial and local streets as well as treating between 50 and 75 miles of roadway with a slurry seal or asphalt rubber aggregate membrane.

Project Location:

Market Street: South side of Fourteenth Street to south side of Houghton Avenue

Approximate Construction Period:

August 5, 2013 to September 20, 2013

Lane Closure Hours (Monday through Friday):

Northbound reduced to one lane: 7 a.m. - 4 p.m.

Southbound reduced to one lane: 8:30 a.m. - 4 p.m.

Note: Street parking and bike lane availability will be limited during lane closure hours

Scope of Work includes:

- Repair of curb, gutter, and sidewalk
- Grind and resurface roadway (Houghton Avenue to Sixth Street)
- Spot repair and slurry seal roadway (Sixth Street to Fourteenth Street)
- Wheelchair ramp and bus pad improvements
- New striping, signage, and signal loops

Market Street will be open to through traffic at all times during construction, however some delays may be experienced during lane closure hours.

We thank you in advance for your patience and understanding while we make necessary infrastructure improvements to our City.
