

Oil and Water Don't Mix.

Used motor oil should NEVER be poured onto the ground, into storm drains or tossed into trash cans (even in a sealed container) because it contains toxins which contaminate the soil, groundwater, streams and rivers.

One Day Used Oil Filter Exchange Events Coming up in 2014

Bring up to five gallons of used motor oil to be recycled and pick up a free container for used oil.

Also bring your used oil filters and get a new one at no charge (limit two filters per customer).

January 11, 2014
