For current locations and times

*Replacement car seats provided by the  
Automobile Club of Southern California, Inland Empire  
Safe Kids and Riverside County Injury Prevention Services*

# What to Expect at a Car Seat Fitting Station

## **Before the car seat checkup:**

- Know your child's weight and height.
- If possible, bring your child with you.
- Bring the installed car seat, car seat instructions, AND the vehicle owner's manual with you to your appointment.
- Be prepared to learn, not just watch the CPS Technician install the car seat. They're trained to teach you, not install it for you.

This one-on-one education typically takes 20-30 minutes per car seat, depending on the seat and the vehicle. CPS Technicians take the time necessary to ensure that you feel confident installing your car seat and buckling your child correctly every time you ride.

## **After the checkup, ensure you can say yes to these questions:**

- Did you preform the installation?
- Do you feel confident about installing and using the car seat correctly?
