Management movement scheduled within the Department

Riverside, CA -- On Friday, January 20, 2012, at the regularly scheduled bi-annual employee shift rotation, a number of management-level personnel moves are planned to take place. These changes are designed to expand the experience of Lieutenants and Captains, giving them the opportunity to increase their skill sets and prepare them for increased responsibilities. These moves are in keeping with our strategic goal of better developing personnel to lead the Department in the future.

Because it is not practical to move all management-level staff at one time, additional personnel transfers may occur at the mid-year shift rotation to ensure all employees have the opportunity to enhance their professional development. The following changes are currently scheduled:

Captains

Captain John Wallace	From Field Operations to Support Services
Captain Mike Perea	From Support Services to Field Operations

Lieutenants

Lieutenant Ed Blevins	From Investigations to Field Operations, Administration
Lieutenant Mike Cook	From Internal Affairs to Special Investigations
Lieutenant Andy Flores	From Field Operations to East NPC
Lieutenant Gary Leach	From Field Operations, Administration, to West NPC
Lieutenant Bob Williams	From Special Investigations to Internal Affairs
Lieutenant Vic Williams	From East NPC to Centralized Investigations
