

EVANS RESERVOIR REPLACEMENT  
SYSTEM CONNECTION SCHEDULE

As part of the Evans Reservoir Replacement project, the City needs to make system connections to the water distribution system. As a result, work will be done in the public right-of-way to connect the pipelines from the new reservoir into the existing water distribution system. The system connections will be done during the month of February according to the following sequence:

<u>System Connection</u>	<u>Location</u>	<u>Dates</u>
1. Connection C&E	Linden Booster Pump Station & Alley	2/7/11 to 2/10/11
2. Connection B	Alley at Cranford Av.	2/14/11 to 2/17/11
3. Connection D	Linden St at Niki Way	2/23/11 to 2/25/11

Please refer to the System Connections Map for more information.
