

A public service announcement from the City of Riverside Public Utilities Department

We're Working in the Neighborhood

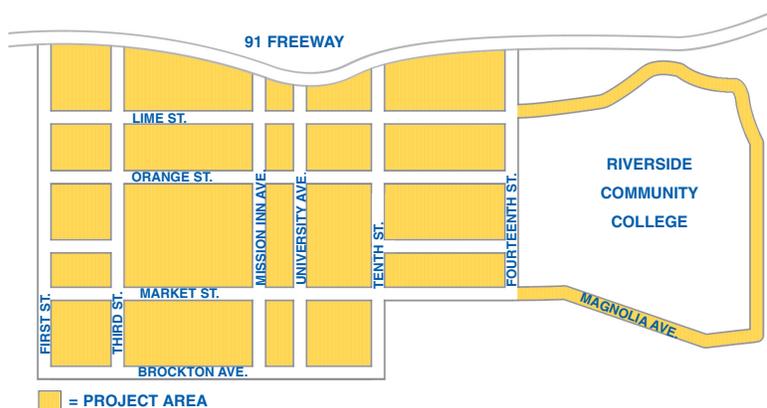

Riverside Public Utilities is initiating a multimillion dollar **Downtown Power Upgrade Project (DPUP)** to modernize its electrical equipment to meet Riverside's power needs well into the 21st Century.

What to expect

- Project is anticipated to continue through July 2005
- Work is being coordinated to minimize impacts to businesses and residences
- Access to buses, parking and driveway entrances will be maintained
- Noise from construction and traffic delays will be minimal

For general project questions, contact John Sevey at 826-5850.
For specific project details, call Tom Gibbons at 323-0830.
