Riverside Public Utilities operates in a dynamic, historic community that offers its residents a wide selection of things to do. Whether it's a visit to the renown Mission Inn, or the City's numerous parks and museums, there's plenty to choose from. The city is also an important financial and judicial center in the Inland Empire, with a large and diverse economy that has the largest number of jobs and businesses within the region.

## Educational Requirements

### Education

Graduation with a bachelor's degree in electrical engineering from a college or university with an accredited four or five year degree program in electrical engineering. A bachelor's degree in civil or mechanical engineering from a college or university with an accredited four or five year degree program and two additional year's of experience doing professional electrical utility engineering can substitute for an electrical engineering degree. The completion of post-graduate course related to electric utility engineering is highly desirable. Registration as a Professional Engineer cannot substitute for the required education.

### Experience

Four years experience in professional electric utility engineering work comparable to that of an Associate Electrical Engineer in the City of Riverside Energy Delivery Division. Registration in California as a Professional Engineer is highly desirable or may be required as a matter of law, depending on the assigned responsibilities.
