

Earn Cool Cash

For Being Energy Efficient

Did you know that you can receive cash back for making your home more energy efficient? It's true! With Riverside Public Utilities' (RPU) energy conservation rebate programs, you can take advantage of a variety of programs that will help to lower your electric bills, and pay you back!

Need a new air conditioning unit? No sweat. You can get a rebate of \$150 per ton (\$1,000 maximum rebate) when installing a 15 SEER or greater air conditioning unit. RPU also offers a rebate of \$150 for installing an evaporated cooler unit.

Look for the ENERGY STAR® logo and save. RPU offers a \$50 rebate when you purchase a qualifying ENERGY STAR rated room air conditioner and \$25 back for qualified ceiling fans (limit 4). Plus there are great rebates on ENERGY STAR rated doors, windows, and more!

One of the easiest ways to quickly cool down the house is to have attic fans blow all the hot air out of the rafters. Install electric attic fans and receive up to \$50 per fan, or \$100 back for installing solar powered fans (limit 2).

Don't forget to use our Whole House rebate program when undertaking more than one efficiency measure and earn extra cash back – up to 250% more!

For additional summer time cooling tips and programs visit online at GreenRiverside.com or give RPU a call at (951) 826-5485.

HELP RIVERSIDE BECOME CALIFORNIA'S COOLEST!

Riverside has a chance to become California's Coolest City by participating in the CoolCalifornia City Challenge. Now through August 31, sign up and commit to reducing your carbon footprint to help Riverside earn points and compete against other California cities. The more points Riverside earns, the closer we get to becoming California's Coolest City.

And, there's even prize money - \$100,000 will be distributed to participating cities for sustainability programs!

Go to GreenRiverside.com to sign up online.

drought alert

As California's drought continues, make sure you are doing your part to save water wherever and whenever you can. Our combined water conservation efforts can help ensure supplies will be available for years to come. To save water at home:

Fix leaks inside and outside your home; install low-flow showerheads and faucet aerators; use a spray nozzle when washing the car, or watering the garden; and use a broom, not a hose, to clean paths and sidewalks. Get more tips at BlueRiverside.com

Please return this part of the bill with your payment in the envelope provided.

Mail to: City of Riverside Public Utilities, 3900 Main Street, Riverside, CA 92522-0144.
