Upgrade Your Lighting with LED Bulbs

For a limited time, and while supplies last, purchase a Greenlite 8 watt or 9 watt LED bulb for about half of their normal prices (excluding taxes).

In addition to using about 50 to 75 percent less electricity than incandescent bulbs, new LED bulbs turn on instantly, provide better color, can be dimmed, have a lifespan of 15 to 20 years, are shatterproof, and do not contain any hazardous materials.

Visit GreenRiverside.com/led for more information and to find a participating retail store near you.
