

# RESOLVE TO SAVE WITH LED BULBS

There's a quick and easy way to save energy this year – install high-efficiency, long lasting light emitting diode (LED) lightbulbs.

For a limited time, and while supplies last, shoppers in Riverside can purchase either an 8 watt LED bulb, which would be the equivalent of a 65 watt incandescent bulb, or 9 watt LED bulb, equivalent of a 60 watt conventional bulb, for less than half of their normal prices (excluding taxes).

In addition to using less electricity, about 50 to 75 percent less over time than incandescent bulbs, new LED bulbs turn on instantly, provide better color, can be dimmed, have a lifespan of 15 to 20 years, are shatterproof, and do not contain any hazardous materials.

Visit [GreenRiverside.com](http://GreenRiverside.com) for a list of local retailers and additional information.

## do you know?

You can spread the higher costs of summer energy bills over the entire course of the year by enrolling in our Level Pay plan. With Level Pay, you pay a fixed amount each month throughout the year. Some restrictions apply. For additional information, talk to one of our Customer Service agents at (951) 782-0330.

## conservationcorner

Do your part to keep saving water this winter. Remember to:

- Keep outdoor watering to just 2-days per week
- Do not water during, and 48-hours after rainfall
- Check and fix leaks inside and out
- Avoid water waste

Visit [BlueRiverside.com](http://BlueRiverside.com) for more tips and programs to save.

Please return this part of the bill with your payment in the envelope provided.

Mail to: City of Riverside Public Utilities, 3900 Main Street, Riverside, CA 92522-0144.
