

program guidelines:

- This program is available to Riverside Public Utilities' (RPU) residential water customers.
- The level of incentive is \$4 per qualified nozzle up to \$100 not to exceed the purchase price of the new nozzles.
- Application must be submitted within ninety (90) days of receipt purchase date in order to qualify for rebate. If applicant is a tenant or renter, the property owner must sign the application.
- Once the Rotating Sprinkler Nozzles are installed, mail us your application along with copies of legible, dated sales receipt as proof of purchase.
- Self-installed nozzles must use a minimum of 15 nozzles per residence. Contractor-installed nozzles must use enough nozzles to retrofit a full valve circuit. It is necessary that an entire valve circuit

(all heads controlled by an individual valve) be retrofitted with the same type of nozzle for matched precipitation rates.

- Rebates will be applied directly to the customer's residential utility account.

- Program is subject to change without prior notification. Incentives are subject to fund availability, and RPU reserves the right to determine product eligibility.
