

City of Arts & Innovation

# City Council Memorandum

---

**TO: HONORABLE MAYOR AND CITY COUNCIL**                      **DATE: MARCH 15, 2022**  
**FROM: FINANCE DEPARTMENT**                                      **WARDS: ALL**  
**SUBJECT: FISCAL YEAR 2021/22 SECOND QUARTER FINANCIAL UPDATE –**  
**SUPPLEMENTAL APPROPRIATIONS; INTERFUND TRANSFERS**

**ISSUE:**

Receive and provide input on the Fiscal Year 2021/22 Second Quarter Financial Update; approve supplemental appropriations.

**RECOMMENDATIONS:**

That the City Council:

1. Receive and provide input on the Fiscal Year 2021/22 Second Quarter financial update;
2. With at least five affirmative votes, authorize the Chief Financial Officer to record an increase in revenue and appropriate expenditures in the amount of \$1,000 in the Development Grants Fund for additional funding received from the State Office of Historic Preservation grant;
3. With at least five affirmative votes, authorize the Chief Financial Officer to record a supplemental appropriation in the amount of \$350,000 in the General Fund Parks, Recreation and Community Services department for the repair of Shamel Park pool;
4. With at least five affirmative votes, authorize the Chief Financial Officer to record a supplemental appropriation in the amount of \$191,816 in the Community Facilities District 90-1 Highlander Fund for irrigation maintenance; and
5. With at least five affirmative votes, authorize the Chief Financial Officer to record an interfund transfer of Wellness Program Donations from the General Fund to the Grants and Restricted Programs Fund in the amount of \$46,679.90.

**BACKGROUND:**

On June 22, 2021, the City Council adopted Resolution No. 23720, approving the Fiscal Year (FY) 2021-2022 Annual Budget.

On January 18, 2022, the City Council received and provided input on the Fiscal Year 2021/22 First Quarter Financial Update and approved mid-cycle budget adjustments. Budget adjustments related to rescinding the adopted vacancy savings balance measure in the General Fund have not been recorded because they were approved contingent upon the certification of the General Fund Transfer election results (Measure C). As of the compilation of this report, the certification matter is still pending with the court.

The City's Chief Financial Officer provides financial updates to the City Council via a standing item on the City Council's agenda and to the Budget Engagement Commission (BEC) via a standing item on the BEC's agenda.

## **DISCUSSION:**

Throughout the fiscal year, City departments and the Budget Office monitor and analyze all City funds for potential issues that require attention and mitigating action. For the second quarter report, City departments analyzed the financial status for all funds and appropriations under their purview. This update spans the period of July 2021 through December 2021.

### **General Fund**

The second quarter analysis presents a positive outlook for the General Fund, with revenues performing better than anticipated and expenditures trending within budgeted appropriation limits.

**Adopted Budget:** The adopted FY 2021/22 budget for the General Fund is balanced and includes a \$10 million balancing measure in the form of a vacancy savings target to offset a projected structural deficit. The Fire department's \$2 million vacancy savings target was accommodated via a transfer of 14 Fire personnel to the Measure Z Fund for the adopted budget year.

On January 18, 2022, the City Council approved a supplemental appropriation in the General Fund of \$5.5 million to rescind a portion of the \$10 million adopted vacancy factor contingent upon a successful certification of the General Fund Transfer election results (Measure C). If Measure C is certified, staff will record a supplemental appropriation equal to or less than the approved amount proportionate to the point in time at which the certification occurs within the fiscal year.

**Revenues:** FY 2021/22 General Fund revenues recorded through December 2021 were reviewed in context of FY 2020/21 actual results, performance to date, and potential COVID-19 impacts through the end of the fiscal year. As disclosed in the first quarter report, General Fund revenue projections were increased by approximately \$13.7 million due largely to outstanding sales tax performance. Second quarter analysis reveals that General Fund revenue projections may exceed revised revenue estimates by \$5 million, primarily due to continued exceptional sales tax revenue performance. Based on strong sales tax performance through September 2021, the City's sales tax consultant, HdL, has increased revenue projections from a 3.7% growth rate to an 8.1% growth rate in sales tax revenue over prior year actuals. Transient Occupancy Tax continues to outperform expectations and is currently 30% higher than the same period last year. If the current pace continues, Transient Occupancy Tax may exceed pre-pandemic FY 2018/19 actuals of \$7.2 million.

**Expenditures:** As of the second quarter, General Fund non-personnel expenditures are trending lower than prior years and may produce some savings at fiscal year-end. For the General Fund as a whole, personnel is expected to end the fiscal year on target. Based on an analysis of

overtime trends to date, the Fire Department is likely to exceed its overtime budget in FY 2021/22 by approximately \$2 million. Overtime costs are largely impacted by vacancies; currently, the Fire Department has 10 vacant firefighter positions, all of which are in the hiring process and were not part of any managed hiring initiative. Illness due to the COVID-19 pandemic has also contributed to excess overtime costs in the Fire Department. As of the second quarter, year-to-date trends in all other General Fund departments combined show that total personnel savings from those departments may be sufficient to offset the Fire Department's budget overage in overtime costs.

During the first quarter of FY 2021/22, the City Council approved supplemental appropriations totaling \$257,244 in the General Fund:

- Debt Collaboration Software \$17,127 – use of existing funds in the Special Deposits Fund.
- Emergency Air Support (Corona) \$120,000 – as-needed emergency air support services to the City of Corona, fully offset by corresponding revenues.
- Police Facilities Renovations \$120,117: use of existing funds in the Special Deposits Fund, Evidence Trust Account.

During the second quarter of FY 2021/22, the City Council approved supplemental appropriations totaling \$15,000 in the General Fund:

- Board of Ethics \$15,000 – establish an outside legal counsel budget for the Board of Ethics.

### Measure Z

Based on the spending items approved to date and strong tax revenue performance, Measure Z is projected to end the fiscal year with approximately \$44.8 million in unallocated fund reserves. Separately, \$5 million is held in contingency reserves per the adopted Measure Z Reserve Policy to ensure sufficient funding for ongoing costs in the event of under-performing revenues.

If the General Fund Transfer election result (Measure C) is certified, \$2 million will be reinstated to Measure Z unallocated reserves. This amount represents the Fire Department's vacancy savings target that was funded by Measure Z via the temporary move of fourteen firefighters from the General Fund to Measure Z.

**Revenues:** The FY 2021/22 adopted budget included projected revenue of \$64.8 million. The local sales tax revenue projection was revised to \$74.3 million in the first quarter. Based on strong local sales tax performance through September 2021, the City's sales tax consultant, HdL, has increased revenue projections from a 3.2% growth rate to a 6.5% growth rate in local sales tax revenue over prior year actuals. If the revenue trend continues through the fiscal year, tax revenue may come in \$2 million higher than the revised estimate.

**Expenditures:** Measure Z funds include many projects and one-time expenditures, causing expenditures to appear to be trending behind budget. However, spending is progressing as planned and within appropriation limits. Refer to Attachment 2 for a listing of spending items and their spending status.

## Enterprise Fund Reserves

Enterprise funds are a fund type used to account for the City's utility and other business-type activities. Enterprise funds are intended to be self-sufficient, with operating, debt, and capital needs covered by revenue generated from fees charged to external users for goods and services. Working capital represents the current (liquid) resources available to fund ongoing operations and is calculated as current assets less current liabilities. In this report and accompanying attachments, working capital is presented as "Fund Reserves" for the Sewer, Refuse, and Public Parking funds. The Electric and Water funds present undesignated reserves labeled as "Cash Reserves" per the Riverside Public Utilities' Cash Reserve Policy. These undesignated cash reserves contain several layers of reserve requirements (operating/working capital, rate stabilization, emergency capital, etc.). It is essential that enterprise funds maintain sufficient working capital to mitigate the risk of revenue shortfalls or unanticipated expenditures. Reserve policies for the Electric, Water and Sewer funds require operating (working capital) reserves equal to a minimum of 60 days of operating and maintenance expenses.

### Electric Fund

The FY 2021/22 adopted budget for the Electric Fund includes a programmed \$7.4 million operating deficit and draw on fund reserves. This is a financial strategy employed to draw reserves down to keep rate increases as low as possible. Reserve level estimates as of the second quarter end are within established policy levels.

**Revenues:** As of the end of the second quarter, Electric operating revenues are at 55.0% of budgeted projections. With the summer season at the beginning of the fiscal year, projected retail sales were expected to be at 53.9% of total budget through December 2021. Retail sales are at 54.3% of total budget through December 2021 and 0.4% higher than expected. As of December 31, 2021, retail sales have resulted in higher than anticipated residential retail revenues and lower than anticipated retail revenue from commercial and industrial customers, which may be attributed to the impacts of COVID-19. Residential revenues were 5.4% higher than budgeted as of the second quarter. Commercial/industrial revenues remained 2.5% below budget through the second quarter. Transmission revenues are projected to perform as anticipated for the remainder of FY 2021/22.

**Expenditures:** Electric operating expenditures are 48.6% of total budget at the end of the second quarter. Year-to-date personnel costs are 21.4% lower than budget due to vacancies and attrition. On December 31, 2021, the Electric Fund had 91 vacancies out of a total 468.50 budgeted positions, for a vacancy rate of 19%. Year-to-date power supply costs are 2.9% higher than budget due to higher-than-expected energy costs. Some costs vary in their timing throughout the fiscal year; overall, Electric Fund expenditures are projected to remain within the budgeted appropriation limit at fiscal year-end.

### Water Fund

The Water Fund is in a healthy position with estimated reserve levels at the end of the second quarter within the required policy reserve range (including the available line of credit). Budgeted operating gains of \$7.2 million are anticipated, with approximately \$3.4 million to be used to fund \$21.5 million in capital projects in FY 2021/22, supplemented by bond proceeds.

**Revenues:** Total operating revenues for the Water Fund are 56.5% of projections as of second quarter end. With the summer season at the beginning of the fiscal year, projected retail sales

were expected to be at 57% of total budget through December 2021. Retail sales are at 57.6% of total budget through December 2021 and \$400,000 higher than expected. Residential revenues were 0.6% less than anticipated during the second quarter. Commercial, industrial and other revenues were 2.9% higher than budgeted.

**Expenditures:** Water Fund operating expenditures are 48.1% of budget at the end of the second quarter. Year-to-date personnel costs are 11.8% lower than budget due to vacancies and attrition. On December 31, 2021, the Water Fund had 18.5 vacancies out of a total 164.50 budgeted positions, for a vacancy rate of 11%. Overall, Water Fund expenditures are projected to remain within the budgeted appropriation limit at fiscal year-end.

### Sewer Fund

The overall financial position of the Sewer Enterprise fund is in line with the Sewer Fund Reserve Policy objectives. Fund reserves were \$94.5 million at the beginning of FY 2021/22 or \$69.8 million net of prior year encumbrances and carryovers. The FY 2021/22 adopted budget projects a net operating gain of \$4.6 million which will be used alongside fund reserves to fund \$22 million of planned capital projects included in the FY 2021/22 adopted budget and capital improvement plan.

**Revenues:** Based on an analysis of second quarter performance to date, the Sewer Fund is on track to meet revenue projections and trending slightly higher than prior year revenues. At the end of the second quarter, 51.7% of projected revenues have been recorded.

**Expenditures:** Operating expenditures are 47.7% of total budget at the end of the second quarter. The Sewer Fund is experiencing chemical market volatility and temporary supply shortages resulting in an increase in unit cost of chemicals. That coupled with unplanned increases in biosolid removal due to truck driver shortages results in a projected overage in the non-personnel budget. Despite these unplanned increases, the Sewer Fund is expected to remain within total adopted appropriation limits through the fiscal year.

### Refuse Fund

The adopted budget for the Refuse fund projects a draw on fund reserves of approximately \$1 million due to revenues not keeping pace with rising costs. The Refuse Fund began the fiscal year with fund reserves of \$6.5 million, or \$3.5 million net of prior year encumbrances and carryovers. As of the second quarter, the reserve balance is expected to be sufficient to accommodate a current year deficit.

The Refuse Fund is currently experiencing both financial and operational challenges. Despite the recent rate increase, revenues are not keeping pace with rising recycling costs and increased tonnage from the pandemic, and a deficit is anticipated in FY 2022/23. Residential waste tonnages within the City have increased by 15%, causing the City to incur additional fees. Furthermore, state mandated programs under Senate Bill 1383 requiring residential food waste to be sorted are expected to increase the cost of processing residential green waste. While the costs of implementation of the food waste sorting program are currently unknown, it is anticipated that this new State program will lead to an increase in the projected deficit.

Maintenance costs are rising due to an aging fleet. Three refuse trucks have been ordered and were funded by a combination of cash and capital lease financing. The current budget includes funding for one new refuse truck and a new sweeper. The Public Works Department is exploring

funding options for the purchase of 7 or 8 additional refuse trucks. Refuse operations are also severely impacted by a high vacancy rate and retention issues. Within the Solid Waste Collections division, 14 of the 44 budgeted positions (32%) are currently vacant; recruitment to fill the positions is ongoing. Crews have worked significant overtime in an effort to provide continuity of service. The Parking Services Division has experienced similar difficulties recruiting new staff members, which has caused a loss of revenues on street sweeping days for the Refuse Fund.

City Staff are in the process of bringing a comprehensive update to the City Council regarding the state of equipment, recruitment, and ongoing challenges for the Solid Waste Division.

**Revenues:** The Solid Waste rate plan adopted by City Council in September 2020 included a Year 2 increase in rates effective July 1, 2021. As of the end of the second quarter, revenues are trending 16% higher than the same period last year and are at 47.5% of projected revenue. Street sweeping revenues may come in lower than anticipated due to street sweeping activities being negatively impacted by vacancies in the Public Parking Fund.

**Expenditures:** Operating expenditures are 36.9% of total budget at second quarter end; spending in some categories does not occur evenly throughout the year. Increases in recycling costs and tonnage as well as the impact of State mandates are resulting in higher than anticipated costs. Staff will continue to monitor expenditure needs to ensure the fund remains within the adopted appropriations limit and if necessary, will request Council approval for an increase in appropriations at a future date.

### Public Parking Fund

The Parking Fund is added to the quarterly financial report as a fund with ongoing financial concerns that may ultimately impact the General Fund if financial stability is not achieved: if the Parking fund exhausts its reserves, a General Fund subsidy will be necessary to pay Parking Fund debt obligations and sustain parking operations.

Parking Fund reserves at the beginning of FY 2021/22 are \$1.6 million, or \$300,000 net of prior year encumbrances. The adopted FY 2021/22 budget projects a draw on fund reserves of \$923,000 due to the lingering impacts of the pandemic on parking revenues, maintenance costs of aging infrastructure, and parking fees not keeping pace with operating costs. Based on second quarter analysis, the Public Works Department projected a net operating loss of \$1.6 million for FY 2021/22 which would fully deplete fund reserves.

On February 15, 2022, the City Council adopted revised parking rates and hours, and approved moving forward with a Parking Access and Revenue Control Systems (PARCS) contract. With these changes scheduled to be in place by July 1, 2022, net operating gains of \$214,000 are projected for FY 2022/23. In order to account for the ongoing impacts of COVID-19, this projection assumes a 60% utilization rate compared to normal parking volumes. Had the changes to rates, hours and operations not been adopted, a revenue loss of \$1.3M was projected for FY 2022/23. A history of efforts undertaken to reach this point, along with additional information about Parking Fund performance during FY 2021/22 are described below.

The Public Works Department has presented a number of strategies to address infrastructure needs and revenue requirements to achieve financial sustainability in the Parking Fund, and some corrective actions have been approved. Major strategies and actions include:

- 2016-2017: A recommended Strategic Parking Plan (SPP) addressed future parking needs with a phased approach to rate revisions; in 2017, the City Council approved an alternate

plan consisting of six incremental rate changes and six program enhancements over two fiscal years.

- 2018-2019: Program updates to the City Council and Transportation Committee included an operations overview, technology challenges, recommendations to pursue strategies, and balancing measures.
- 2020: Staff developed and recommended a Parking Ecosystem Sustainability Plan for program solvency, including infrastructure and equipment needs and parking strategies with rate changes.
- 2020-2022: Replace end-of-life single-space meters with multi-space meters (total cost approximately \$836,000).
- 2021: The City Council declared Garages 1 & 2 surplus property and directed their sale.
- 2021: On March 11, 2021, President Biden signed into law the American Rescue Plan Act (ARPA) to facilitate the recovery from the devastating economic and health effects of the COVID-19 pandemic. On November 9, 2021, the City Council approved the City's ARPA expenditure plan which includes \$1,300,000 in revenue loss funding for the Parking Fund.
- 2022: On February 15, 2022, the City Council adopted revised parking rates and hours and approved moving forward with the award of a Parking Access and Revenue Control Systems (PARCS) contract to replace outdated garage equipment at an estimated cost of \$925,000.

**Revenues:** As of the second quarter, parking revenues continue to lag due to the ongoing impact of the pandemic on parking activity and a scaled back Festival of Lights event for the second consecutive year. Although the adopted budget incorporated anticipated impacts of the pandemic on revenue performance, the Public Works Department projects a revenue shortfall of \$554,000 (9%) for the fiscal year as compared to the adopted budget. Position vacancies have limited some revenue-generating operations, such as parking code enforcement.

**Expenditures:** Expenditures are 42% of the total budget as of the end of the second quarter. Personnel savings resulting from position vacancies are expected to offset some revenue shortfalls. On December 31, 2021, the Public Parking Fund had 8 vacancies out of a total 18 budgeted positions, for a vacancy rate of 44%. The Public Works Department projects expenditure savings of approximately \$1.2 million (14.5%) for the fiscal year as compared to the total budget, inclusive of prior year encumbrances.

### Budget Adjustments

Throughout the fiscal year, staff assesses the need for adjustments to the adopted budget. The following budget adjustments are recommended for Council approval; sufficient funds are available in the respective funds to accommodate the recommendations.

1. **General Fund - Parks, Recreation & Community Services (\$350,000 supplemental):** Shamel Park Pool currently requires the replacement of the 10-foot perimeter concrete pool decking. The decking is cracked and sinking, causing potential safety issues to the public because of structural integrity. A temporary fix is in the process being completed to allow programming to continue, but the fix does not address the structural and safety issues of the pool. If the pool is not promptly repaired, progressive damage may result in the pool being closed. Historically, Shamel is one of the busiest pools year-round: over 250 swimmers are using the pool on a daily basis. The pool is used daily for swim practice, high

school practices/competitions, senior and disabled aqua programs, and lap swim. City programming is offered from May – August and consists of youth and adult swim lessons and recreation swim. In addition, the pool is currently being used to conduct aquatic staff in-water training. Initial inquiries estimate pool repair at \$300,000; a formal bid will need to be issued for an official figure. With a projected gain of potentially \$18 million in the General Fund, there are sufficient funds to accommodate this supplemental request.

2. **General Fund / Grants & Restricted Programs Fund (\$46,679.90 interfund transfer):** Transfer Wellness Program Donations from the General Fund to the Grants and Restricted Programs Fund where General Fund donations are recorded and accounted for.
3. **Development Grants Fund – Community & Economic Development (\$1,000):** Supplemental appropriation of \$1,000 and an offsetting increase in revenues due to additional grant funds awarded from the State Office of Historic Preservation. Acceptance of the original grant award amount of \$9,000 was approved by City Council on December 17, 2019.
4. **Community Facilities District 90-1 Highlander Fund (\$191,816):** Supplemental appropriation from fund reserves of \$191,816 for irrigation timer upgrades to allow better monitoring of the irrigation systems and for additional plant material throughout the parkways along Lochmoor and Fair Isle to fill in bare areas and prevent erosion. There are sufficient fund reserves to accommodate this supplemental request.

### **STRATEGIC PLAN ALIGNMENT:**

The reporting and presentation of financial results aligns with **Strategic Priority 5 – High Performing Government and Goal 5.3** – Enhance communication and collaboration with community members to improve transparency, build public trust and encourage shared decision making.

Financial reporting aligns with each of the Cross-Cutting Threads as follows:

1. **Community Trust** – Presentation of financial results provides a transparent view and communication of City finances in a forum that accommodates community engagement and the involvement of the Budget Engagement Commission.
2. **Equity** – The financial report is available to all members of the public via the City website, and the presentation of the financial report in a public forum accommodates community engagement from all members of the public.
3. **Fiscal Responsibility** – The financial report and proposed recommendations demonstrate the City’s commitment to responsible management of the City’s financial resources.
4. **Innovation** – The financial reports, methodologies, and strategies proposed by staff demonstrate innovative management of City finances.
5. **Sustainability & Resiliency** – The financial reports, methodologies, and strategies proposed by staff demonstrate the City’s commitment to the long-term fiscal health of the City and preservation of City services.

**FISCAL IMPACT:**

As of the second quarter, the General Fund is anticipated to end the fiscal year with savings primarily due to exceptional sales tax revenue performance. However, the City is currently addressing a challenge to the certification of the General Fund Transfer ballot measure (Measure C); should the City not prevail on the legal issue, immediate fiscal action to preserve General Fund resources will be required.

The Measure Z fund has a significant unallocated reserves available for new spending initiatives; however, staff recommends delaying large allocations of the funds pending the outcome of the Measure C certification.

The City's Sewer, Electric, and Water Funds are healthy, with projected operating gains or strategic drawdowns of reserves to keep rates low. The reserves of each of the three funds are within policy reserve requirements.

Costs continue to outpace revenues in the Refuse fund, but as of the second quarter, fund reserves are sufficient to accommodate a potential operating deficit which may exceed the projected draw of \$1M based on revenue performance and rising costs.

The Public Parking Fund is projected to fully deplete its fund reserves; however, ARPA revenue loss funding in the amount of \$1.3 million, partially offset by an estimated expenditures of \$925,000 for the PARCS contract should allow the fund to end the fiscal year in a positive position. Additionally, recent Council action to revise parking rates and hours is expected to generate an operating gain of \$214,000 in the next fiscal year (FY 2022/23).

Following Council approval, the recommended supplemental appropriations and interfund transfers will be recorded; sufficient funds exist for all recommended actions.

# CITY OF RIVERSIDE FISCAL UPDATE

## EXECUTIVE SUMMARY

As the country experiences a strong rebound in business sectors heavily impacted by the COVID-19 pandemic, the impact to business sectors, governmental agencies, and individuals spans a broad spectrum. The rebound of businesses, travel, and entertainment appears positive for all and has resulted in extraordinary sales tax growth and a rebound in transient occupancy tax for the City. However, the accompanying supply chain issues and inflation have resulted in significant price increases for consumers in nearly all areas of spending. The City continues to monitor the impact of the pandemic on local businesses and residents and has allocated a significant portion of federal funding from the American Rescue Plan Act (ARPA) to disproportionately impacted communities and to offsetting the local negative economic impact of the pandemic. (Visit <https://www.riversideca.gov/citymanager/arpa>)

The second quarter of Fiscal Year (FY) 2021/22 brings mixed news for City financials as General Fund revenue continues to perform exceedingly well while some enterprise funds are confronting significant operational and financial challenges. As a result of rebounding business activity and high prices, strong sales tax growth is projected to fully offset the adopted General Fund deficit for the current fiscal year. While the travel and entertainment sectors continue to recover, the City's entertainment venues are experiencing a prolonged recovery. The Public Parking Fund, already experiencing operational and financial challenges prior to the pandemic, has seen a rapid depletion in fund reserves as parking activity was and continues to be impacted by decreased parking activity in the City's downtown area throughout the pandemic. Council recently took action to improve the sustainability of the Parking Fund through an allocation of ARPA funding and revision of parking rates and hours of operation. In the Refuse Fund, an increase in residential tonnage due to more people staying home during the pandemic alongside a shift in the recycling market caused an increase in costs; despite recent rate increases, refuse revenue is not keeping pace with costs in the Refuse Fund. Staff is engaging the City Council on these and other challenges. Overall, the City is actively addressing areas of fiscal concern, while enjoying a slight reprieve in General Fund concerns.

# ECONOMIC INDICATORS

## INFLATION WATCH

### Inflation Trends and Implications

The Consumer Price Index (CPI) is the broadest measure of the increases in the cost of living that the average consumer faces. CPI is still trending much higher, however, the pace of the gains should begin to abate in the next few months. The overall economy remains very hot (from an inflation standpoint) and will continue to remain in such a state, especially with ongoing supply chain issues. This constraint on supply is leading to higher prices for goods and services as demand outpaces supply by a large margin.

The main categories contributing to this inflation growth are food, energy, and transportation, specifically automobile prices, both new and used. This **annualized increase of over 20% in automobile prices** is stoking this area of inflation. Again, this can be directly traced back to supply chain issues and a lack of consistent inventory levels at auto dealers. The expectation remains for a cooling off in automobile prices as more auto parts manufacturing comes back to normal output levels.

**Oil and gasoline continue their march upward.** Oil prices are nearing the \$100-a-barrel mark amid tight supplies, coupled with a reopening economy that is outstripping available petroleum inventories. Reports are floating in about more oil production coming online soon, but that is at least a few quarters away before any material relief can be felt at the pump. Additionally, the conflict between Russia and the Ukraine could potentially have a long term impact on gasoline prices.

**Housing affordability** is also impacted by supply chain issues, with the cost of materials driving up the cost of housing development. The California Association of Realtors' (CAR) Housing Affordability Index measures the percentage of households that can afford to purchase a median-priced, single-family home in California. Their December index lists the median price of Riverside housing at \$585,000, requiring a monthly housing payment of \$2,720 and a minimum qualifying income level of \$108,800. CAR reports that 25% of households can afford a home in California, up slightly due to higher incomes and slowing price growth, but well below the 56% affordability level of just a decade ago.

Meanwhile, **rental costs** in the Riverside-San Bernardino-Ontario region are more expensive than 65% of the state, according to *rentdata.org*. Median rental prices range from \$1,153 for a studio/efficiency apartment to \$2,761 for a 4-bedroom home. California law AB 1482 (the Tenant Protection Act) caps annual rent increase at 5% plus the change in the regional April CPI. Accordingly, the maximum allowable rental increase for the period of August 2021-July 2022 was 8.6%.

### MONTHLY CPI HEATMAP

## CONSUMER SPENDING TRENDS

### Consumer Spending Trends

The City continues to enjoy relatively higher than expected sales tax receipts. Much of consumer spending has been impacted by higher prices. Among those categories are **auto sales**, which **account for 26% of City sales tax receipts**. While an overall decrease in auto unit sales has been realized since the start of the pandemic, there has been a steady, upward trend of units sold. Coupled with the increase in prices in both new and used autos, the City's portion of sales tax revenue from these sales continues its march upward and is exceeding expectations.

The City will continue to see significant growth in sales tax revenues until the slowdown and impacts of pricing pressures begin to crowd out other industry segments. Consumer spending does have limitations and data is showing that the consumer is beginning to get overburdened with household debt, especially on the revolving credit side of things. **June 2021 & November 2021 saw some of the largest increases in revolving debt** in many years (+21.6% & +22.8% respectively).

### Vehicle Sales Per Month Millions of Units

Monthly Vehicle Sales Data  
<https://fred.stlouisfed.org/series/TOTALSA>

# GENERAL FUND REVENUE

Overall, General Fund revenue is on target with revised revenue projections which are \$13.7 million above the adopted budget. Since the first quarter report, sales tax has continued a strong upward trend, prompting the City's sales tax consultant (HdL) to revise its previous 3.7% annual growth estimate to 8.1% higher than prior year revenue. Overall, sales tax is up 18% over the prior year for the same period. Based on sales tax receipts in the second quarter, sales tax revenue may come in \$5 million higher than the first quarter's revised revenue projections.

City Sales Tax Sources

## Transient Occupancy Tax

As one of the hardest-hit revenue sources during the COVID-19 pandemic, transient occupancy tax was expected to experience a long, protracted recovery as the entertainment and travel sectors continued to deal with pandemic outbreaks and related health mandates. However, as of the second quarter end, FY 2021/22 receipts are trending 30% higher than receipts for the same period in pre-pandemic FY 2018/19 (\$7.2 million). If the trend continues, FY 2021/22 transient occupancy tax revenues could post an all-time high near or exceeding \$8 million.

Transient Occupancy Tax History

# GENERAL FUND EXPENDITURES

As of the second quarter, General Fund expenditures are trending within the approved appropriation limit. General Fund non-personnel expenditures are trending lower than prior years and may produce some savings at fiscal year-end; however, actual expenditures fluctuate during the fiscal year and are subject to carryover at fiscal year-end. Based on an analysis of overtime trends to date, the Fire Department is likely to exceed its overtime budget in FY 2021/22 by approximately \$2 million. Overtime costs are largely impacted by vacancies; currently, the Fire Department has 10 vacant firefighter positions, all of which are in the hiring process. Illness due to the COVID-19 pandemic has also contributed to excess overtime costs in the Fire Department. As of the second quarter, year-to-date trends in all other General Fund departments combined show that total savings from those departments may be sufficient to offset the Fire Department's budget overage in overtime costs.

In the chart below, General Fund expenditures recorded as of December 31, 2021, are presented in comparison to the Adopted Budget and the Total Budget. The Total Budget includes prior year encumbrances and carryovers as well as current year budget adjustments. Prior year encumbrances and carryovers represent the amount of unexpended appropriations from previous fiscal years.

## Position Vacancies

The adopted budget includes a \$10 million vacancy savings factor. On January 18, 2022, the City Council approved a supplemental appropriation in the General Fund of \$5.5 million to rescind a portion of the \$10 million adopted vacancy factor contingent upon successful certification of the General Fund Transfer election results (Measure C). If the General Fund Transfer election result (Measure C) is certified, staff will record a supplemental appropriation equal to or less than the approved amount proportionate to the point in time at which the certification occurs within the fiscal year. The legal matter is still pending in the courts.

The chart at right shows the vacancies by department as of December 31, 2021.

## Position Vacancies by Department as of December 31, 2021

Department	Budgeted	Vacant	% Vacant
Mayor	7.75	0.25	3%

Fire	13.5	3	22%
<b>Total</b>	<b>1,462.4</b>	<b>214.7</b>	<b>15%</b>

# ENTERPRISE FUNDS

## Electric Fund

The FY 2021/22 adopted budget for the Electric Fund includes a programmed \$7.4 million operating deficit and draw on fund reserves. This is a financial strategy employed to draw reserves down to minimize the impact on rate increases and keep them as low as possible. Reserve level estimates as of the second quarter end are within established policy levels. As of the end of the second quarter, Electric operating revenues are at 55.0% of budgeted projections and operating expenditures are 48.6% of total budget.

### Budget to Actual

## Water Fund

The Water Fund is in a healthy position with estimated reserve levels at the end of the second quarter within the required policy reserve range (including the available line of credit). Budgeted operating gains of \$7.2 million are anticipated, with approximately \$3.4 million to be used to fund \$21.5 million in capital projects in FY 2021/22, supplemented by bond proceeds. Total operating revenues for the Water Fund are 56.5% of projections as of second quarter end and operating expenditures are 48.1% of budget.

### Budget to Actual

## Refuse Fund

The adopted budget for the Refuse Fund projects a draw on fund reserves of approximately \$1 million due to revenues not keeping pace with rising costs. The Refuse Fund began the fiscal year with fund reserves of \$3.1 million net of prior year encumbrances and carryovers; as of the second quarter, the reserve balance is expected to be sufficient to accommodate a current year deficit. The Refuse Fund is currently experiencing both financial and operational challenges. Despite a recent rate increase, revenues are not keeping pace with rising costs. City Staff is in the process of bringing a comprehensive update to the City Council regarding ongoing challenges for the Refuse Fund.

### Budget to Actual

## Sewer Fund

The FY 2021/22 adopted budget for the Sewer Fund projects a net operating gain of \$4.6 million. The operating gain, in addition to fund reserves will be used to fund \$22 million of planned capital projects. Based on an analysis of second quarter performance to date, the Sewer Fund is on track to meet revenue and expenditure projections. Chemical costs are higher than anticipated due to market volatility and supply shortages, and unplanned increases in biosolid removal due to truck driver shortages may cause overages in the non-personnel budget. Despite these unplanned increases, the Sewer Fund is expected to remain within total adopted appropriation limits through the fiscal year.

### Budget to Actual

## Measure Z

Based on the spending items approved to date and strong tax revenue performance, Measure Z is projected to end the fiscal year with approximately \$44.8 million in unallocated fund reserves. The City's sales tax consultant, HdL, has increased revenue projections from a 3.2% growth rate to a 6.5% growth rate in sales tax revenue over prior year actuals. If the current revenue trend continues through the fiscal year, tax revenue may come in \$2 million higher than the revised estimate.

The chart to the right displays the spending status as of December 31, 2021 of approved spending items of various types. Ongoing items are obligations that may increase annually and cannot be easily defunded, such as personnel. One-time items are spending items that can be defunded if necessary, depending on contractual obligations.

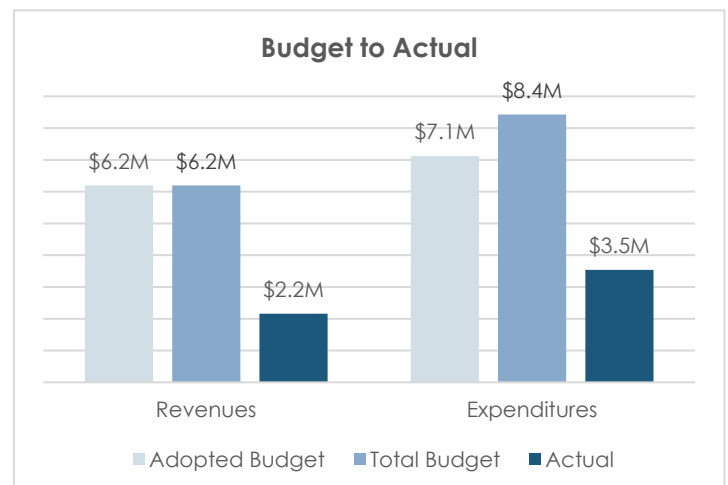

## Public Parking Fund

Parking Fund reserves at the beginning of FY 2021/22 are \$1.6 million, or \$300,000 net of prior year encumbrances. The adopted FY 2021/22 budget projects a draw on fund reserves of \$923,000 due to the lingering impacts of the pandemic on parking revenues, maintenance costs of aging infrastructure, and parking fees not keeping pace with operating costs. Based on second quarter analysis, the Public Works Department projected a net operating loss of \$1.6 million for FY 2021/22 which would fully deplete fund reserves; however, actions executed after the second quarter may produce ending fund reserves of \$325,000 (refer to #6 and #7, following).

The Public Works Department has presented several strategies to address infrastructure needs and revenue requirements to achieve financial sustainability in the Parking Fund, and some corrective actions have been approved. Major strategies and actions include:

- 2016-2017: A recommended Strategic Parking Plan (SPP) addressed future parking needs with a phased approach to rate revisions; in 2017, the City Council approved an alternate plan consisting of six incremental rate changes and six program enhancements over two fiscal years.
- 2018-2019: Program updates to the City Council and Transportation Committee included an operations overview, technology challenges, recommendations to pursue strategies, and balancing measures.
- 2020: Staff developed and recommended a Parking Ecosystem Sustainability Plan for program solvency, including infrastructure and equipment needs and parking strategies with rate changes.
- 2020-2022: Replace end-of-life single-space meters with multi-space meters (total cost approximately \$836,000).

- 2021: The City Council declared Garages 1 & 2 surplus property and directed their sale.
- 2021: On March 11, 2021, President Biden signed into law the American Rescue Plan Act (ARPA) to facilitate the recovery from the devastating economic and health effects of the COVID-19 pandemic. On November 9, 2021, the City Council approved the City's ARPA expenditure plan which includes \$1,300,000 in revenue loss funding for the Parking Fund.
- On February 15, 2022, the City Council adopted revised parking rates and hours and approved moving forward with a Parking Access and Revenue Control Systems contract at an estimated cost of \$925,000. With these changes scheduled to be in place by July 1, 2022, net operating gains of \$214,000 are projected for FY 2022/23. In order to account for the ongoing impacts of COVID-19, this projection assumes a 60% utilization rate compared to normal parking volumes. Had the changes to rates, hours and operations not been adopted, a revenue loss of \$1.3M was projected for FY 2022/23.

# BUDGET DEVELOPMENT

## FY 2022-2024 Biennial Budget Development

The City is currently developing the FY 2022-2024 biennial budget. Public engagement is encouraged at numerous meetings during which budget presentations and discussion will be conducted and feedback will be received. The following meetings are currently scheduled (subject to change); additional public outreach meetings may also be scheduled. Get the latest information on public meetings related to the development of the FY 2022-2024 biennial budget by visiting the City's budget website at <https://riversideca.gov/finance/budget.asp>.

Date	Time	Meeting Body	Subject Matter
March 21	6:30 PM	Park & Recreation Commission	Parks, Recreation, & Community Services Department preliminary budget
March 23	3:00 PM	Museum of Riverside Board	Museum Department Preliminary Budget
March 31	5:00 PM	Budget Engagement Commission	Departments' Preliminary Budget Presentations (Meeting 1 of 3)
April 7	5:00 PM	Budget Engagement Commission	Departments' Preliminary Budget Presentations (Meeting 2 of 3)
April 11	5:00 PM	Board of Library Trustees	Library Department Preliminary Budget
April 11	6:30 PM	Board of Public Utilities	Public Utilities Preliminary Budget
April 14	5:00 PM	Budget Engagement Commission	Departments' Preliminary Budget Presentations (Meeting 3 of 3)
April 18	8:00 AM	City Council Budget Workshop	Budget Overview (General Fund & Measure Z) & Departments' Preliminary Budget Presentations
April 29	9:00 AM	Planning Commission	Proposed CIP Conformance to General Plan
May 12	5:00 PM	Budget Engagement Commission	FY 2022-2024 Proposed Biennial Budget
May 17	1:00 PM	City Council – Afternoon Session	FY 2022-2024 Proposed Biennial Budget
June 9	5:00 PM	Budget Engagement Commission	FY 2022-2024 Final Budget
June 21	6:15 PM	City Council – Evening Session	Public Hearing and Adoption of the FY 2022-2024 Biennial Budget

### Priority Based Budgeting (PBB)

Priority Based Budgeting is a decision-making tool that assists City leadership in aligning resources with activities closely aligned to the City's strategic plan. To date, the City has classified City activities into more than 500 programs, identified the revenue and costs associated with those programs, and scored the programs in relation to their alignment to the City's strategic plan, *Envision Riverside 2025*. Alignment to the City's strategic plan is considered separately for outward-facing programs (Community) and inward facing programs (Governance). Governance programs are internal programs that support the City function at large. Programs are also scored against "Basic Program Attributes" which define the level of necessity or impact of a program separately of the City's strategic plan.

PBB is a multi-year implementation process that emphasizes successful implementation and integration of PBB into organizational thought processes. For the upcoming budget cycle, the City focused on vetting critical unfunded needs through the lens of PBB, including relating those needs to existing programs and considering the alignment of those needs with the strategic plan. The needs mostly aligned with the strategic plan will be presented to the Budget Engagement Commission and City Council for direction on funding those items in the FY 2022-2024 biennial budget.

### PBB Scoring Criteria

Programs are scored according to their alignment with the City's strategic priorities:

#### Community Programs

- Arts, Culture and Recreation
- Community Well-Being
- Economic Opportunity
- Environmental Stewardship
- Infrastructure, Mobility & Connectivity

#### Governance Programs

- Organizational Culture
- Diverse and Highly Skilled Workforce
- Financial Health
- Technology, Data and Process Improvement
- Communication and Collaboration

#### Basic Program Attributes

- Population Served
- Level of Cost Recovery
- Level of Reliance on the City to provide the program
- Whether the program is Mandated by Federal, State, or local rule, regulation, or law
- Level of Demand for the program
- Whether the program is Equally Accessible to stakeholders

# RECOMMENDATIONS

That the City Council:

1. Receive and provide input on the Fiscal Year 2021/22 Second Quarter financial update;
2. With at least five affirmative votes, authorize the Chief Financial Officer to record an increase in revenue and appropriate expenditures in the amount of \$1,000 in the Development Grants Fund for additional funding received from the State Office of Historic Preservation grant;
3. With at least five affirmative votes, authorize the Chief Financial Officer to record a supplemental appropriation in the amount of \$350,000 in the General Fund Parks, Recreation and Community Services department for the repair of Shamel Park pool;

24

RiversideCA.gov

24

## RECOMMENDATIONS

5. With at least five affirmative votes, authorize the Chief Financial Officer to record a supplemental appropriation in the amount of \$191,816 in the Community Facilities District 90-1 Highlander Fund for irrigation maintenance; and
6. With at least five affirmative votes, authorize the Chief Financial Officer to record an interfund transfer of Wellness Program Donations from the General Fund to the Grants and Restricted Programs Fund in the amount of \$46,679.90.

# City Council Memorandum

City of Arts & Innovation

TO: HONORABLE MAYOR AND CITY COUNCIL      DATE: MARCH 15, 2022  
FROM: FINANCE DEPARTMENT      WARDS: ALL  
SUBJECT: FISCAL YEAR 2021/22 SECOND QUARTER CASH, INVESTMENTS, AND DEBT REPORT

## **ISSUE:**

That the City Council receive and provide input on the attached Fiscal Year 2021/22 Second Quarter Cash, Investments, and Debt Report.

## **RECOMMENDATIONS:**

That the City Council:

1. Receive and provide input on the attached Fiscal Year 2021/22 Second Quarter Cash, Investments, and Debt Report.

## **BACKGROUND:**

On January 18, 2022, the City Council received and provided input on the Fiscal Year 2020/21 First Quarter Cash and Investments and Debt report.

## **DISCUSSION:**

It is staff's intention to provide the Cash and Investments and Debt Quarterly report at the same City Council meeting as the Quarterly Financial Report for the General Fund and other City funds, in order to provide a comprehensive review of all City Finance activities and to obtain City Council input related to those activities.

## **QUARTERLY CASH AND INVESTMENT REPORT**

Sound investment practices are an essential component of the City's strong fiscal management. The Finance Department is responsible for managing the City's investment portfolio, focusing first on the safety of investments and then on liquidity and an appropriate rate of return. The investment results and portfolio composition are summarized and reported to the City Council each quarter. As of December 31, 2021, the City's pooled investment portfolio's market value was \$866 million. The market value of investments held for the Section 115 Pension Trust Fund, fiscal agents (bond proceeds and reserve funds primarily), and other miscellaneous cash amounts to an additional \$135 million. The weighted average yield of the pooled investment portfolio is 0.76% as of

December 31, 2021.

The authority to manage the City's investment program is provided by the California Government Code Sections 53600-53610 which allows the City Council to delegate to the Treasurer/CFO for a one-year period the authority to invest or to reinvest all funds of the City. In accordance with the City Charter and under authority granted by the City Council, the Chief Financial Officer is designated the responsibilities of the Treasurer and is responsible for investing the unexpended cash in the City Treasury consistent with the City's adopted investment policy.

The Cash and Investment Report, including a listing of cash balances by fund, is included in Attachment 1. These cash balances reflect each fund's share of the City's pooled investment portfolio. Also shown are interfund loan receivables, which are treated as available cash due to the Chief Financial Officer/Treasurer's authorization to move loan receivables to other funds as needed.

All listed funds have a positive cash balance except for the following funds as of December 31, 2021:

1. Civic Entertainment - Convention Center, Visitors Bureau, Sports Commission (\$1,459,107) has a negative cash balance due to the loss of revenues from the COVID-19 impact. This account is being monitored and will return to positive by fiscal year-end.
2. Civic Entertainment – Cheech Marin Center (\$9,267,848) has a negative cash balance due to a pending submittal of a grant reimbursement to offset expenses and negative cash.
3. Urban Areas Security Initiative (\$1,010,835), Home Investment Partnership Program (\$1,445,805), Housing Opportunities for Persons with AIDS (\$1,067,107), Special Districts (\$1,279,465), Capital Outlay Grants (\$167,011), and Transportation Uniform Mitigation Fees (\$1,794,929) have negative cash balances due to the timing of expenditures; however, the negative balances are fully offset by receivables.
4. Debt Service Fund – General (\$18,554,442), which is fully offset by outstanding cash transfers from all funds related to their share of the Pension Obligation Bond (POBs) payments made by the Debt Service Fund (\$28 million) and other debt service payments.

## **QUARTERLY DEBT REPORT**

The Finance Department is responsible for managing the City's debt portfolio, which includes issuing new debt and monitoring opportunities to refinance existing debt. The Quarterly Debt Report (Attachment 2) summarizes the composition of the City's debt portfolio, details the revenue sources utilized to pay the debt service associated with each outstanding debt, and provides detailed information regarding the total principal and interest payments made in the second quarter of Fiscal Year 2022 by debt classification and fund.

### Debt Summary Analysis

The City’s outstanding principal varies quarterly as a result of debt service payments, bond calls, new debt issuances, and refunding and defeasance activity. At the end of the second quarter, the City’s outstanding principal balance decreased \$30,057,897 from the end of the first quarter of fiscal year 2022. This principal decrease is due to debt service principal payments on 2003A and B California Tower, 2012A, 2019A (Galleria – paid by CFD 2004-1 special tax revenue) and 2019B (Library) Lease Revenue Bonds, Ryan Bonaminio Park Loan, Fox Entertainment Plaza Loan, Convention Center Expansion Loan, and various Electric and Water Revenue Bonds.

The chart below depicts the composition of the City’s debt portfolio at the end of the second quarter. The Enterprise funds are responsible for most of the City’s debt and are primarily for capital project financing offset by the revenues generated by the newly financed facilities. The General Fund and Measure Z have the next largest percentage of debt, providing financing for projects and equipment related to public safety, downtown revitalization, and public facility and infrastructure improvements. Payment of debt service for the City’s Pension Obligation Bonds is allocated among many of the funds, distributing debt service in alignment with departmental staffing costs.

For purposes of this report, the Sewer, Water, Electric, Refuse, Special Transit, Civic Entertainment, Convention Center, and Parking funds are consolidated under the classification of Enterprise Funds. Measure Z and the General Fund are grouped together. Measure A and the City’s Parks Special Capital fund are classified under Capital Projects Funds. While the Assessment Districts, Galleria Agreement, and Community Facilities Districts are part of the City debt portfolio, they aren’t classified as City obligations. They are offset by individual Improvement Districts, which are separate legal entities from the City, formed to issue debt and levy assessments or special tax to finance improvements related to development in those districts.

The following bar chart provides the City’s debt service obligations using the same classification

methodology, depicting the aggregate principal and interest payments on all City debt instruments by fund. As illustrated below, the City has a stable debt service curve that results in steadily diminishing annual debt service payments, and that minimizes any upward spikes in payments that could negatively impact the City’s ability to pay debt service.

*Debt Related Activities in Second Quarter*

Finance staff regularly monitor the market to identify opportunities to maximize debt service savings through refunding and to issue debt when rates are most advantageous. Within the second quarter, staff prepared various debt-related reports to the California Debt and Investment Advisory Commission (CDIAC) and the State Controller’s Office.

Other debt related activities conducted within the second quarter include:

- Debt Service Budget Preparation
- Reimbursement resolution for Electric Fund capital projects
- TEFRA Public Hearing Vista de la Sierra Apartments
- Three-year extension of Water and Electric Line of Credit
- Preparation and levy of Arlington and Downtown BIDs
- Continuing Disclosure Analysis and Reports for 2004 POBs
- Preparation and filing of annual SB 165 Report

**STRATEGIC PLAN ALIGNMENT:**

This item contributes to **Strategic Priority 5 – High Performing Government** and **Goal 5.3 – Enhance communication and collaboration with community members, to improve transparency, build public trust, and encourage shared decision-making.**

This item aligns with each of the five Cross-Cutting Threads as follows:

1. **Community Trust** – The preparation and approval of the debt and investment quarterly report ensures transparency and demonstrates compliance with City Debt and Investment Policies.

2. **Equity** – The debt and investment portfolios detailed in this report are used to share and offset the long-term cost of growth, development, and expansion among Riverside businesses and residents.
3. **Fiscal Responsibility** – The Quarterly Report demonstrates fiscal responsibility and accountability to show the current financial situation of the City and closely related agencies.
4. **Innovation** – Innovative stewardship of investments and municipal debt is an effective way to track, fund, and finance, repair and improvements while ensuring sufficient cash to meet obligations.
5. **Sustainability & Resiliency** – Quarterly accounting and reporting helps to ensure City funds are used in a sustainable way without compromising future needs.

**FISCAL IMPACT:**

There is no direct fiscal impact associated with this report.

**COMPOSITION OF POOLED PORTFOLIO**

**COMPOSITION OF POOLED PORTFOLIO BY FUND**

It has been verified that this investment portfolio is in conformity, exclusive of items identified, with the City of Riverside's investment policy which was approved by City Council on 3/11/2020. The Treasurer's cash management program and cash flow analysis indicates that sufficient liquidity is on hand to meet estimated future expenditures for a period of six months. The weighted average maturity of the City's investment portfolio is 1.55 years. Market prices of securities are obtained from Interactive Data Corporation. Weighted average yield on cost for the City's investment portfolio is 0.76%. The cash held and invested with fiscal agents is subject to the investment provisions of the related trust indentures associated with the bond transaction which generated the cash.

<sup>1</sup> Excludes water stock acquisition rights, copier leases, development agreements, and amortization of premiums and discounts on outstanding debt, none of which are material.

<sup>2</sup> Debt service for these bonds is allocated based on the percentage of CalPERS plan employees budgeted in those Funds. Payments sent to trustee 8/1 annually, but are actually paid to bondholders in Dec & June

<sup>3</sup> Beginning outstanding principal balance on interfund loans may be less than prior year projected ending balance due to actual FY 2018 pooled interest rate adjustment at end of FY

<sup>4</sup> Debt service for this loan is primarily funded from a voter-approved increase in the transient occupancy tax rate from 11% to 13%.

<sup>5</sup> Under the terms of an existing development agreement, increased incremental sales tax resulting from the expansion of the Auto Center funds the debt service on these bonds.
