Narrative of Supplemental Report:

On 2/27/13 at approximately 0700 hours, I received a request from Detective Medici to process a Burgundy Honda Accord LX, four door (LIC: 4EFE501/CA) that was involved in an officer involved shooting. At approximately 0938 hours, I responded to the Magnolia Station back parking lot to process the vehicle. Upon examination, I observed all the windows closed and all the doors unlocked. There was damage to the driver and passenger sides of the vehicle. The front driver and front passenger seats were in a leaned back position and a key was located on the front driver seat. I took (85) photographs of the vehicle. I collected DNA swabs from the exterior front driver door handle, interior front driver door handle, steering wheel, gear shift, and emergency parking brake. I placed the DNA swabs inside my secured evidence locker at approximately 1033 hours. At approximately 1300 hours, I removed the DNA swabs from my secured evidence locker and resumed processing. I collected DNA swabs from the exterior front passenger door handle and the interior front passenger door handle. The DNA swabs were labeled evidence items LNV001 through LNV007. The reagent swab was labeled evidence item LNV008. I collected (11) evidence items from the vehicle. The evidence items were labeled #1 through #11. I stopped my processing of the vehicle at approximately 1500 hours. I collected a sample of unknown brown liquid from evidence item #5 and labeled it evidence item #5A. At approximately 1638 hours, I released evidence items LNV001 through LNV008, #4, #8, and #9, to Magnolia Station Property Locker #37 and evidence item #5A to Refrigerator Locker #61. I placed evidence items #1, #2, #3, #5, #6, #7, #10, and #11 inside the secured Vault.

On 2/28/13 at approximately 0931 hours, I resumed processing the vehicle. I performed a latent print search using Bi-Chromatic powder on the exterior and interior of the vehicle. I developed and lifted (30) latent lifts from the exterior front driver door window, interior front driver door window, interior front driver door frame, exterior rear driver door

I developed and lifted (12) lifts from the exterior front passenger door window, exterior rear passenger door, interior rear passenger door window, interior front passenger door window, and passenger visor mirror. A total of (42) latent lifts were developed and lifted from the vehicle. Each latent lift was placed on an individual print card and labeled evidence item LNV010. The latent prints were placed inside my secured evidence locker at approximately 1439 hours. At approximately 1449 hours, I removed evidence items #1, #2, #3, and #7 from the secured Vault. DNA swabs were collected from evidence items #1 and #2. The DNA swabs were labeled evidence items LNV1A and LNV2A. A latent print search was performed on evidence items #3 and #7 with Bi-Chromatic powder. No latent prints were developed on either evidence item. Evidence items #1, #2, #3, #7, LNV1A, and LNV2A were released to Magnolia Station Locker #51 at approximately 1616 hours.

On 3/5/13 at approximately 0830 hours, I removed evidence items #5, #6, #10, and #11 from the secured Vault for DNA collection and latent print processing. I collected DNA swabs from evidence items #5 and #10. The DNA swabs were labeled evidence items LNV5B and LNV10A. I processed each evidence item with Bi-Chromatic powder. I developed and lifted (8) latent lifts from evidence items #5, #10, and #11. Each latent lift was placed on an individual print card and labeled evidence item LNV009. No latent prints were developed on evidence item #6. At approximately 1140 hours, I removed evidence item LNV010 from my secured evidence locker.
