PHYSICAL EVIDENCE EXAMINATION REPORT

SUSPECT: NOT LISTED

OFFENSE: OFFICER INVOLVED SHOOTING

OFFICERS: K. KAUK; W. OUTLAW; N. LARKIN; T. CHILDERS

OFFENSE DATE: 09/13/2013

I, the undersigned, declare under penalty of perjury: (1) I am employed by the State of California, Department of Justice (DOJ), Bureau of Forensic Services; (2) I conducted an examination of the material described below in the ordinary course of my work as a qualified examiner, according to approved laboratory procedures that include creation of contemporaneous documentation and the technical review of my work; (3) The observable data is set forth in the associated laboratory case record; (4) Any opinions, interpretations, or conclusions in this report are based upon data in the associated laboratory case record and findings listed below.
Note: This laboratory report has been prepared and retained by DOJ in the normal course of business according to DOJ's regular practices and procedures. The Department of Justice Laboratory is accredited by the American Society of Crime Laboratory Directors / Laboratory Accreditation Board (ASCLD/LAB).

SUMMARY/RESULTS

The submitted firearms (Items KK001, WO001, NL001, and TC001) functioned properly during examination and test firing.

EVIDENCE

The following evidence was submitted to the Laboratory by Velin of the Riverside Police Department on 09/17/2013:

<u>Item/Barcode</u>	<u>Description</u>
KK001	Glock Model 22, .40 S&W caliber semiautomatic pistol, S/N KTZ876
KK001A	One empty magazine and eight rounds of Winchester brand .40 S&W caliber with jacketed hollow point bullets
WO001	Remington Model Wingmaster 870, 12 gauge pump action shotgun, S/N 1447886M (Note: the BFS-1 lists the S/N as 31405)
WO001A	Two rounds of Defense Technology brand 12 gauge shotshells
NL001	Glock Model 22, .40 S&W caliber semiautomatic pistol, S/N KTZ886
NL001A	One empty magazine and thirteen rounds of Winchester brand .40 S&W caliber with jacketed hollow point bullets
TC001	Glock Model 22, .40 S&W caliber semiautomatic pistol, S/N FEW966
TC001A	One empty magazine and twelve rounds of Winchester brand .40 S&W caliber with jacketed hollow point bullets

The following evidence was submitted to the Laboratory by McKay-Davis of the Riverside Police Department on 09/17/2013:

<u>Item/Barcode</u>	<u>Description</u>
WO001B	Three rounds of Defense Technology brand 12 gauge shotshells

EXAMINATION

Item KK001 was identified as a Glock Model 22 semiautomatic pistol chambered to fire .40 S&W caliber ammunition. The pistol's disconnector and safeties were found to be working. The trigger pull measured 6 pounds. The magazine (Item KK001A) was submitted with eight .40 S&W caliber rounds. The magazine's capacity was determined to be 15 rounds. The pistol was test fired using this magazine and three rounds submitted with it. The pistol functioned properly during examination and test firing

Item WO001 was identified as a Remington Model Wingmaster 870 pump action shotgun chambered to fire 12 gauge ammunition. The shotgun's disconnector and safety were found to be working. The trigger pull measured 6 1/2 pounds. The shotgun's tube magazine holds four rounds. The shotgun was test fired using the ammunition submitted in Item WO001B. The shotgun functioned properly during examination and test firing

Item NL001 was identified as a Glock Model 22 semiautomatic pistol chambered to fire .40 S&W caliber ammunition. The pistol's disconnector and safeties were found to be working. The trigger pull measured 6 1/4 pounds. The magazine (Item NL001A) was submitted with thirteen .40 S&W caliber rounds. The magazine's capacity was determined to be 15 rounds. The pistol was test fired using this magazine and three rounds submitted with it. The pistol functioned properly during examination and test firing

Item TC001 was identified as a Glock Model 22 semiautomatic pistol chambered to fire .40 S&W caliber ammunition. The pistol's disconnector and safeties were found to be working. The trigger pull measured 6 1/2 pounds. The magazine (Item TC001A) was submitted with twelve .40 S&W caliber rounds. The magazine's capacity was determined to be 15 rounds. The pistol was test fired using this magazine and three rounds submitted with it. The pistol functioned properly during examination and test firing

Item WO001A was not examined.

DISPOSITION

The test fires were labeled Items TF-KK001, TF-WO001, TF-NL001, and TF-TC001. The test fires and all remaining items will be returned to the appropriate agency.
