18 **Investigation:**

19 On October 16, 2012 I attended and observed the autopsy of S/Chaz Sherron. It was
20 performed by Dr. Park at the Riverside County Coroner's Office. The procedure began at 0920
21 hrs and ended at 1103 hrs.

22
23 The autopsy began with the breaking of the seal and overall photos being taken of S/Sherron's
24 body. His clothing, the bag over his hands and a blood sample were then collected. Dr. Park
25 conducted an external exam of the body, noting three possible bullet holes in the body. One in
26 the left abdomen, one in the left chest and one near the neck/ left shoulder. There were some
27 old cuts to the left arm that were healing. There was a bruise on the outside of the right chest
28 below the arm pit.

29
30 During the internal examination, the path of the rounds appeared to be from left to right. Bullet
31 fragments were located in the lower abdomen, back and chest area. Vital organs struck were
32 the heart, liver and the right lung.

33
34 A blood sample was collected for use in the future.

35
36 Cause of death was listed as multiple gunshot wounds.
