

Statistical Section

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	89
Revenue Capacity These schedules contain information to help the reader assess the factors affecting the City's ability to generate property and sales taxes.	95
Debt Capacity These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	104
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time and with other governments.	111
Operating Information These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.	113

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Notes:

In 1978 the voters of the State of California passed Proposition 13 which limited property taxes to a total maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum increase of 2%). With few exceptions, property is only re-assessed at the time that it is sold to a new owner. At that point, the new assessed value is reassessed at the purchase price of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above. Assessed valuations are based on 100 percent of estimated actual value.

2010	1.000	0.006	0.054	0.012	0.004	1.076

Notes:

The City of Riverside has approximately 200 tax rate areas. The tax rates in these areas varied from 1.05% to 1.13% of assessed valuation. The direct and overlapping property tax rates shown above are for one of the largest tax rate areas in the City.

In 1978, California voters passed Proposition 13 which sets the property tax rate at a 1.00% fixed amount. This 1.00% is shared by all taxing agencies for which the subject property resides within. In addition to the 1.00% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of the various intergovernmental overlapping debt.

Notes:

General bonded debt is debt payable with governmental fund resources and general obligation bonds recorded in enterprise funds (which, the City has none.)

¹ Assessed value has been used because the actual value of taxable property is not readily available in the State of California.

² Amount presented is net of restricted resources held for the repayment of outstanding debt principal.

(1) Excludes tax and revenue anticipation notes, enterprise revenue, mortgage revenue and tax allocation bonds and non-bonded capital lease obligations. Qualified Zone Academy Bonds are included based on principal due at maturity.

(2) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the city's boundaries and dividing it by each unit's total taxable assessed value.

Overlapping governments are those that coincide at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

The Government Code of the State of California provides for a legal debt limit of 15% of gross assessed valuation. However, this provision was enacted when assessed valuation was based upon 25% of market value. Effective with the 1981-82 fiscal year, each parcel is now assessed at 100% of market value (as of the most recent change in ownership for that parcel). The computations shown above reflect a conversion of assessed valuation data for each fiscal year from the current full valuation perspective to the 25% level that was in effect at the time that the legal debt margin was enacted by the State of California for local governments located within the State.

Source: City of Riverside, various departments

(1) During the 2004/05 fiscal year, four police substations closed.

(2) Museum Fixed Exhibits - In 2007, the Riverside Municipal Museum remodeled a number of the spaces within the museum allowing the museum the opportunity to debut new exhibitions and to display more permanent collections in addition to partnering with others on exhibits that were available that year.
