Displaced Persons: No

CURRENT SITUATION

(Recent updates are posted at the top of Current Situation)

The City of Riverside Fire Department responded to a report of an above ground rescue at the Corona-College Heights Citrus Packing Plant at 8000 Lincoln Avenue. Upon arrival, Riverside Firefighters discovered a male in his 20s that had fallen on a conveyor belt while performing maintenance. The injured patient was approximately 10 above the ground. Riverside Firefighters shut down the conveyor system to ensure it would not knock the patient off the conveyor belt. Riverside Firefighters treated the patient and then lowered him to the ground using a fire ground ladder as a slide, and a rope system to bring the injured male off the conveyor belt and down to the waiting AMR Ambulance crew. The patient was transported to an area hospital in moderate condition.
